Paul Auster's "The New York Trilogy" as Postmodern Detective Fiction Matthias Kugler, 1999-10-28

Inhaltsangabe Abstract Paul Auster's New York Trilogy published in one volume for the first time in England in 1988 and in the U S in 1990 has been widely categorised as detective fiction among literary scholars and critics There is however a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel Among others Auster's stories are described as metaanti detective fiction mysteries about mysteries a strangely humorous working of the detective novel very soft boiled a metamystery glassy little jigsaws a mixture between the detective story and the nouveau roman a metaphysical detective story a deconstruction of the detective novel antidetective fiction a late example of the anti detective genre and being related to hard boiled novels by authors like Hammett and Chandler Such a striking lack of agreement within the secondary literature has inspired me to write this paper It does not however elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster's detective trilogy neither do I intend to coin a new term for Auster's detective fiction I would rather place The New York Trilogy within a more general and open literary form namely postmodern detective fiction This classifies Paul Auster as an American writer who is part of the generation that immediately followed the classical literary movement of American postmodernism of the 60s and 70s His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts characterised by the notion of anything goes on a planet of multiplicity as well as by French poststructuralism He may however be distinguished from a traditional postmodern writer through a certain coherence in the narrative discourse a neo realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world and a radical turning away from coherent narrative discourse and plot These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such *Library of the World's Best Mystery and Detective Stories* Julian Hawthorne, 1907 Library of the World's Best Mystery and Detective Stories Various, 2021-03-27 Tales of Mystery by Famous Authors of East and West included here are stories by GUY DE MAUPASSANT HONORE DE BALZAC VOLTAIRE and PLINY THE YOUNGER LIBRARY OF THE WORLD'S BEST MYSTERY AND DETECTIVE STORIES Julian Hawthorne, 2021-01-01 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc

The rival detectives; or, Dangerous ground Emma M. Van Deventer, 1887 **Detective Stories** Peter Washington, 2009-10-06 Now in the appealing and collectible Pocket Classics format, an anthology of beloved classic detective stories, riveting and irresistibly addictive tales of crimes and those who unravel them. Beginning with modern masters such as Sara Paretsky, Ruth Rendell, and Ian Rankin, this collection works its way back through the golden age of the 1920s and 30s to the genre's source in Edgar Allan Poe and Arthur Conan Doyle. The famous detectives who stalk these pages range from the brilliant and eccentric Conan Doyle's Sherlock Holmes and Poe's C. Auguste Dupin to the deceptively unlikely G. K. Chesterton's humble priest Father Brown and Agatha Christie's tweedy spinster Miss Marple, from the tough-guy private eyes created by Dashiell Hammett and Raymond Chandler to accidental bystanders such as the perceptive neighbors in Susan Glaspell's haunting *A Jury of Her Peers*. From classic whodunits featuring Erle Stanley Gardner's Perry Mason and Georges Simenon's Inspector Maigret to Jorge Luis Borges's postmodern tribute to Poe in *Death and the Compass*, the stories in this volume will tantalize, perplex, and amaze.
