Arthur Gunlicks

Lander And German Federalism

Charlie Jeffery, Peter Savigear

Länder And German Federalism:

The Länder and German federalism Arthur Gunlicks, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license An illuminating introduction to how the Länder the sixteen states of Germany function not only within the country itself but also within the wider context of European political affairs Looks at the Länder in the constitutional order of the country and the political and administrative system Their organization and administration is fully covered as is their financial administration The role of parties and elections in the Länder is looked at and the importance of their parliaments The first work in the English language that considers the Länder in this depth

Länder and German federalism Arthur B. Gunlicks, 2010 **German Federalism Today** Charlie Jeffery, Peter Savigear, 1991 The central objective of this book is to deepen understanding in the English speaking world of the West German federal system It evaluates the effectiveness of that system in practice both over recent history and in the time of the great challenge of reunification **German Federalism** M. Umbach, 2002-03-13 This book explores the German idea of federalism denoting diversity within unity Historians linguists and political scientists examine how federalism emerged in the Holy Roman Empire was reshaped by nineteenth century cultural movements and was adopted by the unified state in 1871 and again after 1945 The myth of federalism as a safeguard against totalitarianism is tested in regard to the Third Reich and the GDR The book concludes with an outlook on German federalism's future in Europe **The German Länder** Werner Reutter, 2021 The textbook looks at the German federal state from the perspective of the Länder It provides information on the development of the German Länder analyzes their significance for democracy the federal state and the rule of law and introduces the central principles of politics in the Länder It offers those interested in politics as well as teachers and students of political science social science law and the humanities a comprehensive as well as condensed overview of the German Länder This book is a translation of the original German 1st edition *Die deutschen Länder* by Werner Reutter published by Springer Fachmedien Wiesbaden GmbH part of Springer Nature in 2020 The translation was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors The Contents Introduction The German Länder between diversity and unity The Länder how they became what they are Federalism and Länder basic constitutional principles and theories Representative and direct democracy in the Länder Complement or contradiction Parties and party systems in the Länder Parliaments governments and constitutional courts division of powers in the Länder The Länder the Federation and Europe The Länder democracy and federalism in Germany The Author Dr Werner Reutter is a political scientist at the Humboldt University in Berlin **Federalism and the Länder Autonomy** Cesare Onestini, 2018-10-24 An interesting study of the German higher Education system examining the

development of higher education policies from the post war years to the post unification period *German Federalism in Transition* Carolyn Rowe, Wade Jacoby, 2013-10-18 Federalism in Germany has come to be viewed as the root cause of the country's current economic and social malaise. The federal political system which contributed enormously to the economic success and political stability of West Germany is now said to be outdated, overburdened and unworkable. German federalism is now widely seen as being synonymous with Reformstau, reform blockage and Stillstand, inertia. Critics argue that the system urgently needs to change if Germany is to continue to compete in the global system. This major new text offers a unique scholarly evaluation of the major recent attempts to overhaul Germany's federal political architecture. It brings together thematic chapters by leading authorities on German federalism to provide a comprehensive assessment of the reform processes to date, their inception, scope, objectives and outputs. The contributions provide new insights into the dynamics of reform in key policy areas such as economic policy, Europe and the tax equalisation system, as well as in the institutional frameworks for decision making. It will be essential reading for students of Germany, its politics, law and economics. This book was published as a special issue of the German Politics The Bundesrat, the Länder and German Federalism Uwe Thaysen, 1994 *Recasting German Federalism* Charlie Jeffrey, 1999-01-01 Understanding Germany's federal structure is crucial to understanding contemporary Germany. The federal system shaped the way German unification was carried out; it shapes the way in which policies are made and it plays a role in determining the way in which Germany presents its priorities in the EU. The first part of the book analyzes the nature of pre-unification West German federalism and the unique challenge posed for the federal system by unification. Part 2 takes stock of key issues in the operation of post-unification federalism, including the policy process, the role of parties in federalism, conflicts of interest over financial allocations and the impact of deepening European integration. The final part offers a series of critical perspectives which address the long-term legacies of unification and increasing pressures for reform **The German Länder** Werner Reutter, 2021-07-15 The textbook looks at the German federal state from the perspective of the Länder. It provides information on the development of the German Länder, analyzes their significance for democracy, the federal state and the rule of law and introduces the central principles of politics in the Länder. It offers those interested in politics, teachers and students of political science, social science, law and the humanities a comprehensive as well as condensed overview of the German Länder. This book is a translation of the original German 1st edition *Die deutschen Länder* by Werner Reutter, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature, in 2020. The translation was done with the help of artificial intelligence machine translation by the service DeepL.com. A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.

Political Parties and Public Policy in the German Länder E. Turner, 2011-08-26 Political Parties and Public Policy in the

German Länder considers the extent to which and in what circumstances political parties affect public policy Exploring the regional level in Germany using case studies in the areas of education childcare and family and labour market policy

German Public Policy and Federalism Arthur B. Gunlicks, 2003 Since unification German society and institutions have been challenged by various transformations and the need to adjust to changing conditions While much has been accomplished many political legal and institutional problems remain This volume deals with selected aspects of domestic and European policy political parties the challenge of direct democracy and federalism in unified Germany all issues that have been the subject of much discussion political posturing legislation and to some extent constitutional amendments and court decision for many years if not decades In conclusion a British scholar looks at German federalism and a number of public policy issues from a comparative perspective and arrives at some surprising and encouraging results **Legislative,**

Executive, and Judicial Governance in Federal Countries Katy Le Roy, 2006-09-19 Comparative studies examine the constitutional design and actual operation of governments in Argentina Australia Austria Canada Germany India Nigeria Russia South Africa Switzerland and the United States Contributors analyze the structures and workings of legislative executive and judicial institutions in each sphere of government They also explore how the federal nature of the polity affects those institutions and how the institutions in turn affect federalism The book concludes with reflections on possible future trends **Policy Analysis in Germany** Sonja Blum, Klaus Schubert, 2018-03-01 This comprehensive study part of the

International Library of Policy Analysis brings together for the first time a systemic overview of policy analysis activities in Germany Written by leading experts in the field including informed practitioners it outlines the development of the discipline identifies its role in academic education and research and examines its styles and methods The book also focuses on the role of policy analysis for governments and parliaments for parties social partners and interest groups By offering a rich and timely analysis of policy analysis in Germany this book is a valuable resource for academic exchange and for teaching particularly in the fields of political science social sciences economics and geography Moreover by its broad comprehensive understanding of policy analysis the book will be of practical relevance and shape the debate for the future development of policy analysis in Germany and the different spheres where it is practised Developments in German Politics 4 Stephen

Padgett, William E. Paterson, Reimut Zohlnhöfer, 2014-07-24 This provides authoritative coverage as well as wide ranging and integrated analysis of politics and policy in Germany today and of its role in Europe and the wider world Bringing together extensively revised and updated chapters by leading authorities it will be essential for students and anyone interested in European politics **Diversity and Unity in Federal Countries** Luis Moreno, César Colino, 2010-07-01 In Diversity and

Unity in Federal Countries leading scholars and practitioners analyse the current political socio economic spatial and cultural diversity in the countries under consideration before delving into the role that social historical and political factors have had in shaping the balance of diversity and unity The authors assess the value placed on diversity by examining whether present

institutional arrangements and public policies restrict or enhance diversity and address the future challenges of balancing diversity and unity in an increasingly populated and mobile world

Federalism and Länder Autonomy Cesare Onestini, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company *Routledge Handbook of Regionalism & Federalism* John Loughlin, John Kincaid, Wilfried Swenden, 2013-07-18 Almost all states are either federal or regionalized in some sense It is difficult to find a state that is entirely unitary and the Routledge Handbook of Regionalism and Federalism necessarily takes in almost the entire world Both federalism and regionalism have been subjects of a vast academic literature mainly from political science but sometimes also from history economics and geography This cutting edge examination seeks to evaluate the two types of state organization from the perspective of political science producing a work that is analytical rather than simply descriptive The Handbook presents some of the latest theoretical reflections on regionalism and federalism and then moves on to discuss cases of both regionalism and federalism in key countries chosen from the world's macro regions Assembling this wide range of case studies allows the book to present a general picture of current trends in territorial governance The final chapters then examine failed federations such as Czechoslovakia and examples of transnational regionalism the EU NAFTA and the African Union Covering evolving forms of federalism and regionalism in all parts of the world and featuring a comprehensive range of case studies by leading international scholars this work will be an essential reference source for all students and scholars of international politics comparative politics and international relations

Constructing Tomorrow's Federalism Ian Peach, 2007-03-15 Governance of the federation is more complex today than ever before perennial issues of federalism remain unresolved conflicts continue over the legitimacy of federal spending power and the accommodation of Quebec nationalism and Aboriginal self government within the federation is a persistent and precarious concern From discussions on democracy and distinctiveness to explorations of self governance and power imbalances Constructing Tomorrow's Federalism tests assertions from scholars and practitioners on the legitimacy and future of the state of the federation In this broad collection of essays fifteen scholars and political leaders identify options for the future governance of Canada and contribute to a renewed civic discourse on what it means to govern ourselves as a liberal democracy and a multinational federation

The Oxford Handbook of German Politics Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022 Few countries have caused or experienced more calamities in the 20th century than Germany This handbook provides a comprehensive overview of some of the major issues of German domestic politics economics foreign policy and culture by leading experts in their respective fields
