Early Development of Sound Processing in the Service of Speech and Music Perception István Winkler, Judit Gervain, Marcela Pena, Laurel J. Trainor, Teija Kujala, 2024-08-23 Infants have astonishingly sophisticated abilities to process speech and music It is as if many of the higher order capabilities such as regularity detection auditory stream segregation statistical learning and rhythm processing are already present at birth or develop quite early during infancy while some simple abilities such as

feature discrimination show a much longer developmental trajectory These higher order abilities also provide the basis of further cognitive emotional and social development as they form the basis for communicating and thus learning from caretakers and peers Therefore understanding the underlying processes is a prime goal of developmental psychology and neuroscience and it is also essential for creating early interventions for atypically developing infants such as designing training protocols for infants at risk of auditory developmental deficits Human Rights Violations in the United States

commemorates the 50th anniversary of an important but almost forgotten U S Supreme court case Hernandez v Texas 347 US 475 1954 the major case involving Mexican Americans and jury selection published just before Brown v Board of Education in the 1954 Supreme Court reporter This landmark case the first to be tried by Mexican American lawyers before the U S Supreme Court held that Mexican Americans were a discrete group for purposes of applying Equal Protection Although the case was about discriminatory state jury selection and trial practices it has been cited for many other civil rights precedents in the intervening 50 years Even so it has not been given the prominence it deserves in part because it lives in the shadow of the more compelling Brown v Board case There had been earlier efforts to diversify juries reaching back at least to the trial of Gregorio Cortez in 1901 and continuing with efforts by the legendary Oscar Zeta Acosta in Los Angeles in the 1960s Even as recently as 2005 there has been clear evidence that Latino participation in the Texas jury system is still substantially unrepresentative of the growing population But in a brief and shining moment in 1954 Mexican American lawyers prevailed in a system that accorded their community no legal status and no respect Through sheer tenacity brilliance and some luck they showed that it is possible to tilt against windmills and slay the dragon Edited and with an introduction by University of Houston law scholar Michael A Olivas *Colored Men and Hombres Aquí* is the first full length book on this case This volume contains the papers presented at the Hernandez at 50 conference which took place in 2004 at
