The Seat of Consciousness in Ancient Literature Richard E. Lind, 2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart soul In contrast modern culture places consciousness within the brain resulting in a mind body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart consciousness the psychological and spiritual manifestations of the ancient mature heart soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind body dualism of today

The Bread of the Strong Jack Lee Downey, 2015-06-01 Contributing to the ongoing excavation of the spiritual lifeworld of Dorothy Day the most significant interesting and influential person in the history of American Catholicism *The Bread of the Strong* offers compelling new insight into the history of the Catholic Worker movement including the cross pollination between American and Quebecois Catholicism and discourse about Christian antimodernism and radicalism The considerable perseverance in the heroic Christian maximalism that became the hallmark of the Catholic Worker's personalism owes a great debt to the influence of Lacouturisme largely under the stewardship of John Hugo along with Peter Maurin and myriad other critical interventions in Day's spiritual development Day made the retreat regularly for some thirty five years and promoted it vigorously both in person and publicly in the pages of *The Catholic Worker* Exploring the influence of the controversial North American revivalist movement on the spiritual formation of Dorothy Day author Jack Lee Downey investigates the extremist intersection between Roman Catholic contemplative tradition and modern political radicalism Well grounded in an abundance of lesser known primary sources including unpublished letters retreat notes privately published and long out of print archival material and the French language papers of Fr Lacouture *The Bread of the Strong* opens up an entirely new arena of scholarship on the transnational lineages of American Catholic social justice activism Downey also reveals riveting new insights into the movement's founder and namesake Quebecois Jesuit Onesime Lacouture Downey also frames a more reciprocal depiction of Day and Hugo's relationship and influence including the importance of Day's evangelical pacifism on Hugo particularly in shaping his understanding of conscientious objection and Christian antiwar work and how Hugo's ascetical theology animated Day's interior life and spiritually sustained her apostolate A fascinating investigation into the retreat movement Day loved so dearly and which she claimed was integral to her spiritual formation *The Bread of the Strong* explores the relationship between contemplative theology asceticism and radical activism More than a study of Lacouture Hugo and Day this fresh look at Dorothy Day and the complexities and challenges of her spiritual and social expression presents an outward exploration of the early to mid twentieth century dilemmas facing second and third generation American Catholics

The Kantian Sublime and the Revelation of Freedom Robert R. Clewis, 2009-04-09 In this book Robert R. Clewis shows how certain crucial concepts in Kant's aesthetics and practical philosophy the sublime enthusiasm freedom empirical and intellectual interests the idea of a republic fit together and deepen our understanding of Kant's philosophy He examines the ways in which different kinds of sublimity reveal freedom and indirectly contribute to morality and discusses how Kant's account of natural sublimity suggests that we have an indirect duty with regard to nature Unlike many other studies of these themes this book examines both the pre critical *Observations* and the remarks that Kant wrote in his copy of the *Observations* Finally Clewis takes seriously Kant's claim that enthusiasm is aesthetically sublime and shows how this

clarifies Kant's views of the French Revolution. His book will appeal to all who are interested in Kant's philosophy. **The Guide to Catholic Literature** Walter Romig, 1965

The Fifth Monarchy Men Bernard Capp, 2012-03-15 In *The Fifth Monarchy Men* Faber 1972 Professor Capp places the movement in the context of the rise of millenarian thought in Europe from the Reformation and its rapid spread in England during the Civil Wars. For many radicals the execution of King Charles cleared the way for King Jesus and heralded the establishment of a revolutionary millennium. The apparent apostasy of the Rump Parliament and Oliver Cromwell channelled part of the wave of millenarian feeling into the formation of a specific sect. This first comprehensive study of the Fifth Monarchists movement traces its history and examines its social, political, legal and religious proposals. Although it had the support of some gentry and army officers it was essentially an urban movement of artisans, apprentices and even labourers reaching lower down the social scale than any contemporary radical movement with the possible exception of the Diggers. Professor Capp discusses its structure and its relationship to other revolutionary sects notably the Levellers and Quakers. He analyses the social, political and economic programmes of the self-styled saints which though revolutionary were elitist rather than equalitarian. The Fifth Monarchists' militant foreign policy was shaped by the twofold consideration of exporting the revolution and of strengthening the position of English trade. Their much derided call for the re-establishment of the Mosaic Code is the culmination of a long tradition of such thinking amongst Puritan and earlier writers. Appendices provide biographies of almost 280 Fifth Monarchists and the location of all known Fifth Monarchist groups.

John Owen between Orthodoxy and Modernity, 2019-02-11 This volume offers fresh reflections on John Owen, a leading Reformed theologian who sat on the brink of a new age. His seventeenth-century theology and spirituality reflect the growing tensions and pre-modern and modern tendencies. Exploring Owen in this context helps readers better understand the seventeenth-century dynamics of individualization and rationalization, the views of God and self, community and the world. The authors of this volume investigate Owen's approach to various key themes including his Trinitarian piety, catholicity, doctrine of scripture and public prayer. Owen's international reception and current historiographical challenges are also highlighted. Contributors are Joel R. Beeke, Henk van den Belt, Gert A. van den Brink, Hans Burger, Daniel R. Hyde, Kelly M. Kapic, Reinier W. de Koeijer, Ryan M. McGraw, David P. Murray, Carl R. Trueman, Willem van Vlastuin.

Religion, Language, and Power Nile Green, Mary Searle-Chatterjee, 2008-07-15 *Religion, Language and Power* shows that the language of religion is far from neutral and that the packaging and naming of what English

speakers call religious groups or identities is imbued with the play of power Religious Studies has all too often served to amplify voices from other centers of power whether scripturalist or otherwise normative and dominant This book's decentering of English classifications goes beyond the remit of most postcolonial studies in that it explores the classifications used in a range of languages including Arabic Sanskrit Chinese Greek and English to achieve a comparative survey of the roles of language and power in the making of religion In contextualizing these uses of language the ten contributors explore how labels are either imposed or emerge interactively through discursive struggles between dominant and marginal groups In dealing with the interplay of religion language and power there is no other book with the breadth of this volume

Richard Hooker, the Rule of Faith, and the Rise of Religious Evidentialism Nigel Voak, 2025-03-10 Nigel Voak examines the genesis and evolution of religious evidentialism in England from 1585 to 1700 a deeply influential epistemology which claims that religious beliefs are only justified to the extent that we have evidence to substantiate them and that we have an obligation to proportion our assent to the strength of our evidence Given the propositions of faith lack the evidentness of objects of scientific knowledge absolutely certain assent to such beliefs is therefore epistemically unjustifiable This epistemology which breaks with the previous Christian tradition is classically formulated in John Locke's *An Essay concerning Human Understanding* first edition 1690 This study argues that this epistemology of belief can be traced back to the English theologian Richard Hooker 1554 1600 whose thought was then developed over the course of the seventeenth century Rule of Faith Controversy which acted as the crucible for these new ideas on faith evidence and certainty Voak shows that the key thinkers in this process including Locke himself were aware that this epistemology came from Hooker and used him in formulating their own influential positions **Catalogue of Books Arranged by Subjects** Library Board of Western Australia, 1966

Caravaggio in Context John F. Moffitt, 2015-02-18 Michelangelo Merisi da Caravaggio 1571 1610 has long been recognized as one of the great innovators in the history of art Through detailed analysis of paintings from his early Roman period 1594 1602 this study now situates his art firmly within both its humanistic and its scientific context Here both his revolutionary painterly techniques pronounced naturalism and dramatic chiaroscuro and his novel subject matter still life compositions and genre scenes are finally put into their proper cultural and contemporary environment This environment included the contemporary rise of empirical scientific observation a procedure like Caravaggio's naturalism committed to a close study of the phenomenal world It also included the interests of his erudite aristocratic patrons
