Entrepreneurship And Economic Development In Hong Kong

Adam Szirmai, Wim Naudé, Micheline Goedhuys

Entrepreneurship And Economic Development In Hong Kong:

Studies in Entrepreneurship, Business and Government in Hong Kong Fu-Lai Tony Yu, 2006 Using institutional and Austrian theories this book analyzes Hong Kong's economic transformation. It focuses on knowledge and coordination problems and examines the role of entrepreneurship, small Chinese family enterprises and government policies in the economic development of Hong Kong. Entrepreneurship and Economic Development in Hong Kong Tony Fu-Lai Yu, 1997-07-31 This is the first systematic study of the nature, operation and contribution of entrepreneurship to the growth of Hong Kong. From a new entrepreneurial perspective of economic development, the author argues that the success of Hong Kong is attributable principally to adaptive entrepreneurship, product imitation, small scale enterprise subcontracting, Institutions, Entrepreneurship, and Economic Performance David Urbano, Sebastian Aparicio, David B.

Audretsch, 2019-04-11 Using institutional economics as a theoretical framework, this book analyzes the institutional environment conducive to entrepreneurial activity in order to enhance economic performance across countries. In particular, the main contributions of this book to the entrepreneurship literature are the following: Identify past and current research about the institutional context shaping entrepreneurial activity and its effect on economic growth. Examine social progress orientation as those institutional factors that are shaping innovative entrepreneurial activity. Explore the effect of different types of entrepreneurial activities on economic growth. Examine how social progress orientation through opportunity-driven entrepreneurship affects economic development. Analyze the interrelationships between institutions, entrepreneurial activity and economic development across countries. Study how the country's institutional context influences the way in which entrepreneurial activity affects social progress. Two sides of the same coin might be observed when analyzing policy aspects of those institutions affecting entrepreneurial activity. On the one hand, effective public policy to promote entrepreneurship is predicated on understanding the underlying forces as well as the consequences and impacts of entrepreneurship. On the other hand, different endeavors to promote entrepreneurial activity might have deleterious economic effects since they could actually reduce employment in the long term. Thus, it is crucial to understand the institutional environment in which entrepreneurs are interacting and making decisions. The comprehension of these phenomena serves to move forward the theoretical, practical and policy debate on entrepreneurship as a mechanism to achieve higher economic performance.

Modeling Economic Growth in Contemporary Hong Kong Michael K. Fung, Bruno S. Sergi, 2021-01-29 Serving up fresh insights on Hong Kong's economic growth, this book investigates issues such as housing, immigration, monetary and financial systems, the business environment and international trade and finance to provide a coherent and comprehensive overview of Hong Kong's position in the global economy. Entrepreneurship and Economic Development Steven G. Koven, 2021-06-28 Entrepreneurs drive economic development in the U.S. and elsewhere. Entrepreneurship and Economic Development: The People and their Environment argues that while individual talent is relevant, environments or ecosystems

are of equal and perhaps more important value **Adaptive Entrepreneurship and the Economic Development of Hong Kong** Tony Fu-Lai Yu,1998 **Entrepreneurship and Institutions** Nick Williams,Tim Vorley,Colin Williams,2017-07-13 Entrepreneurship does not occur in a vacuum The institutions which provide the framework for economic activity matter As countries around the world strive for economic growth this book examines how institutional arrangements are critical in fostering entrepreneurship Through 12 case studies drawn from Asia Europe and America the book demonstrates how different institutional arrangements impact the nature scope and scale of entrepreneurial activity Each chapter highlights how the prevailing formal and informal institutional arrangements interact and how this has consequences for the development of more entrepreneurial economies By synthesizing empirical and theoretical insights the book explores how fostering more entrepreneurial economies is as much a question of institutional alignment as it is the creation of more supportive formal and informal institutions Modernization And Chinese Entrepreneurship East Asian Institute,1998-05-13 Does modernization in Asia mean westernization Can Asia achieve modernity without westernization How can Asia maintain its own cultural traditions in an age of globalization How can Asian cultures especially Chinese culture facilitate modernization The two articles in this publication address these questions by examining various links between culture modernity and development Entrepreneurship and the Internationalisation of Asian Firms Henry Wai-Chung Yeung,2002-01-01 Entrepreneurs engaging in international business face business environments that are fundamentally different from their home countries Despite decades of entrepreneurship research we know little about these entrepreneurs and their strategic behaviour in establishing and managing transnational operations Entrepreneurship, Innovation, and Economic Development Adam Szirmai,Wim Naudé,Micheline Goedhuys,2011-04-28 Three sets of questions are addressed **Managed in Hong Kong** Robert Fitzgerald,Chris Rowley,2013-10-18 Hong Kong faces a new or renewed set of challenges linked to the up grading of human resources shifts in industrial structure and emerging market demands The contributors examine and analyse aspects of business and management in Hong Kong Entrepreneurship and Economic Growth in China Ting Zhang,Roger Stough,2013 This book provides an analysis of the existing economic dynamics and factors contributing to entrepreneurship in China Featuring contributions from prominent authors such as Zoltan Acs and Jian Gao it first poses a theoretical question of whether entrepreneurship exists in China and if so the extent and form it takes This book also examines whether the nature of entrepreneurship in China differs from that elsewhere Following this investigation empirical tests and analyses focus on important issues such as What is the special value of entrepreneurship in China Does entrepreneurship in China drive economic growth like it does in other more market oriented economies What is entrepreneurship in China like What is its history nature environment and what are some of the underlying diversities or challenges it is facing Assuming entrepreneurship in China is important to economic growth how can public policy help to enhance the entrepreneurship milieu in China Finally based on the empirical findings and potential policy implications future

directions of investigation are suggested Chinese and Indian Business Medha Malik Kudaisya, Chin-keong Ng, 2009-03-16 In recent years the phenomenal rise of the economies of China and India has led to a proliferation of academic studies Much of the focus has been on economic performance development strategies and the comparative advantage of the two economies A comparative study of business as an agent of change has been lacking This volume brings together articles by leading scholars in the field of Chinese and Indian business who offer fresh perspectives on the historical antecedents of business in the two economies **Chinese Enterprise, Transnationalism and Identity** Terence Gomez, Hsin-Huang Michael Hsiao, 2004-03-01 First Published in 2004 Chinese Enterprise Transnationalism and Identity focuses on one ethnic community the Chinese and examines the variety of issues surrounding enterprise development from national and transnational perspectives starting with the role played by Chinese entrepreneurs in the 1997 Asian financial crisis Using empirical evidence and theoretical debate the contributors argue that Chinese enterprise is accelerated by intra ethnic competition rather than intra ethnic cooperation and that businessmen work in their own interest not that of the Chinese community as other literature dealing with the subject suggests Themes which this book radically reviews include Culture and networks Family business Ownership and control Transnationalism and identity By carefully tracing the emergence of new generations the contributors suggest that new forms of ethnic identification and of national identity and affiliation have emerged With its combined analysis of ethnic minorities in Asia and of Chinese business this book will appeal to scholars of Asian and business studies alike *East Asian Business Systems in Evolutionary Perspective* Fu-Lai Tony Yu, 2003 Economic studies on East Asia economies in general and Chinese economies are not lacking However most studies hitherto adopt the conventional neo classical economic approach In particular the Cobb Douglas production function and or theory of comparative advantage are often applied to explain economic growth of an Asian economy In international business Dunning's eclectic theory is also widely adopted to understand the pattern of foreign direct investments in East Asian economies Yet it is generally agreed that the mainstream neo classical approach has severe drawbacks and limitations In particular it does not consider the role of knowledge and uncertainty Entrepreneurship which is the true engine of growth is largely missing in neo classical economics This book uses the evolutionary approach to analyse economic and business activities in East Asian economies Specifically the book focuses on knowledge and coordination problems and examines the role of entrepreneurship in economic affairs Female Immigrant Entrepreneurs Daphne Halkias, Paul Thurman, Sylva Caracatsanis, Nicholas Harkiolakis, 2016-04-15 A third of the world's entrepreneurial activity is driven by women With the mass movement of people now commonplace the role of female entrepreneurs in immigrant communities has become an increasingly important component of the world economy its productivity and the struggle against poverty Throwing light on the dynamics of entrepreneurship generally and on immigrant and female entrepreneurship in particular the global Female Immigrant Entrepreneurship FIE project is a huge and exciting research undertaking Written by the project's team of researchers based

in prestigious business schools and universities on almost every continent this important book begins the process of discovering why and how female driven business start ups often seem to spontaneously emerge in adverse environments Is it randomness luck or chance that determine success or failure or vital critical forces and the inherent qualities of the women involved The research emerging from the FIE project points to answers to questions about the integration of immigrant communities their interaction with host economic and business environments and the role of women in that interaction With findings from more than fifteen countries from the USA with some of the world s oldest and largest immigrant communities to African countries that are the newest destination for Asian migrants this book will help inform social and economic policy in communities and countries searching for prosperity More than that the book offers policy makers business leaders and those concerned with business development the chance to uncover some of the mystery around the complex phenomenon of entrepreneurship itself

Globalization and Competitiveness Chris Rowley, Malcolm Warner, 2013-09-13 This book evaluates the evolution of Big Business in Asia as we enter the new millennium It focuses on recent issues affecting large corporations both indigenous and foreign owned such as multinational companies and international joint ventures as well as on key events such as the Asian Crisis and its aftermath China s entry into the WTO the recent downturn in the world economy and the onset of SARS A special issue of the journal Asia Pacific Business Review
