Privatization and Entrepreneurship in Post-Socialist Countries Bruno Dallago,Gianmaria Ajani,Bruno Grancelli,1992-06-18 Analyzes the processes of privatization and entrepreneurial formation by countries and subjects and points out the different features they acquire in various post socialist countries through an interdisciplinary and historico comparative approach How Progress Ends Carl Benedikt Frey,2025-09-16 How 1 000 years of global history show why technological and economic progress is often followed by stagnation and even collapse In How Progress Ends Carl Benedikt Frey challenges the conventional belief that economic and technological progress is inevitable For most of human history stagnation was the norm and even today progress and prosperity in the world s largest most advanced economies the United States and China have fallen short of expectations To appreciate why we cannot depend on any AI fueled great leap forward Frey offers a remarkable and fascinating journey across the globe spanning the past 1 000 years to explain why some societies flourish and others fail in the wake of rapid technological change By examining key historical moments from the rise of the steam engine to the dawn of AI Frey shows why technological shifts have shaped and sometimes destabilized entire civilizations He explores why some leading technological powers of the past such as Song China the Dutch Republic and Victorian Britain ultimately lost their innovative edge why some modern nations such as Japan had periods of rapid growth followed by stagnation and why planned economies like the Soviet Union collapsed after brief surges of progress Frey uncovers a recurring tension in history while decentralization fosters the exploration of new technologies bureaucracy is crucial for scaling them When institutions fail to adapt to technological change stagnation inevitably follows Only by carefully balancing decentralization and bureaucracy can nations innovate and grow over the long term findings that have worrying implications for the United States Europe China and other economies today Through a rich narrative that weaves together history economics and technology How Progress Ends reveals that managing the future requires us to draw the right lessons from the past *Cronies or Capitalists? The Russian Bourgeoisie and the Bourgeois Revolution from 1850 to 1917* David Lockwood,2009-05-27 Why wasn t there a successful bourgeois revolution in Russia Was it because Russian capitalists were too servile in their relationship with the Tsarist autocracy Or was it because Russian states Tsarist republican and Soviet were just too strong This book is a political history of the Russian capitalist class from 1850 to 1917 that seeks to answer these questions The book covers the consistent opposition of the Russian bourgeoisie to the Tsarist autocracy up to and including the revolution of 1905 It then considers its alliance from 1909 with new state elements officials politicians army officers and technical experts who were convinced of the possibility of reform and renovation through a radically reorganised state cleansed of its autocratic detritus Such a reorganisation was expected as a result of the Great War While these ideas

came to a temporary fruition in the February Revolution of 1917 they also laid the basis for a much more demanding Soviet state in October and the destruction of the bourgeoisie itself The book ends with a consideration of the wider implications for the concept of the bourgeois revolution implications that stretch well beyond Russia that are revealed by the rise and fall of the Russian bourgeoisie
