## **Environment Subsistence And System The Ecology Of Small Scale Social Formations:**

Environment, Subsistence and System R. F. Ellen, 1982-09-30 Human ecology is ultimately part of a general theory of society This is the argument developed here by Roy Ellen whose exploration of the interplay between social organization and ecology in small scale subsistence systems has direct bearings both on the investigation of human environmental relations in general and on contemporary social theory He argues that while ecological study of non industrial societies cannot be elevated to the status of theory domain or discipline it can be represented as a single problematic that historically has acquired some degree of autonomy and which continues to make a significant contribution to a wider anthropology Dr Ellen introduces his subject matter through an extended and systematic discussion of some major frameworks developed within the last hundred years to examine and explain facets of the relationship between culture social organization and the environment determinism possibilism cultural ecology systems theory and ideas derived from modern biology He follows this with a detailed review and appraisal of important recent research involving the use of ecological models methods and data This original and innovative study of the pre eminently social character of human ecological relations will be of considerable interest to all students and researchers concerned with understanding the nature of the relationship between human beings and their environments

**Hunters and Gatherers (Vol I)** Tim Ingold, David Riches, James Woodburn, 2024-11-01 All that is central to the dynamic process in human society is evident in the study of hunter gatherers peoples whose subsistence way of life reflects the original form of human adaptation This is the thesis of these wide ranging volumes in which internationally leading scholars consider hunter gatherer peoples in Africa Asia Australia and North America and reflect theoretically on the hunter gatherer condition Volume 1 Hunters and Gatherers History Evolution and Social Change Volume II Hunters and Gatherers Property Power and Ideology

*Green Delusions* Martin W. Lewis, 1992 Scholars politicians and activists worldwide are finally recognizing the severity of the global environmental crisis yet serious threats to the environmental movement remain Anti environmentalists dismiss the very idea of a crisis as a mirage Much less obvious however is the more subtle threat masquerading under the mantle of environmentalism itself It is this threat that *Green Delusions* addresses Writing from the standpoint of a committed environmentalist Martin W Lewis contends that many of the most devoted and strident greens those who propose a radical environmentalism unwittingly espouse an ill conceived doctrine that has devastating implications for the global ecosystem In this book he distinguishes the main variants of eco extremism exposes the fallacies upon which such views ultimately flounder and demonstrates that the policies advocated by their proponents would if enacted result in unequivocal ecological disaster At once polemic and prescriptive *Green Delusions* is an impassioned attempt to defend the environmental movement against extremist ideas that would lead to self defeating political strategies

Critical Anthropological Engagements in Human Alterity and Difference Bjørn Enge Bertelsen, Synnøve Bendixsen, 2017-01-03 This book explores how one measures and analyzes human alterity and difference

in an interconnected and ever globalizing world This book critically assesses the impact of what has often been dubbed the ontological turn within anthropology in order to provide some answers to these questions In doing so the book explores the turn s empirical and theoretical limits accomplishments and potential The book distinguishes between three central strands of the ontological turn namely worldviews materialities and politics It presents empirically rich case studies which help to elaborate on the potentiality and challenges which the ontological turn s perspectives and approaches may have to offer

**The Commons in a Glocal World** Tobias Haller,Thomas Breu,Tine De Moor,Christian Rohr,Heinzpeter Znoj,2019-04-30 This volume focuses on how in Europe the debate on the commons is discussed in regard to historical and contemporary dimensions critically referencing the work of Elinor Ostrom It also explores from the perspective of new institutional political ecology NIPE how Europe directly and indirectly affected and affects the commons globally Most of the research on the management of commons pool resources is limited to dealing with one of two topics either the interaction between local participatory governance and development of institutions for commons management or a political economy approach that focuses on global change as it is related to the increasingly globalised expansion of capitalist modes of production consumption and societal reproduction This volume bridges the two addressing how global players affect the commons worldwide and how they relate to responses emerging from within the commons in a global local glocal world Authors from a range of academic disciplines present research findings on recent developments on the commons including historical insights new innovations for participatory institutions building in Europe or several types of commons grabbing especially in Africa related to European investments and restrictions on the management of commons at the international level European case studies are included providing interesting examples of local participation in commons resource management while simultaneously showing Europe as a centre for globalized capitalism and its norms and values affecting the rest of the world particularly developing countries This book will be of interest to students and researchers from a wide range of disciplines including natural resource management environmental governance political geography and environmental history

Environmentalism and Cultural Theory Kay Milton,2002-09-11 The last decade has seen a dramatic increase in the attention paid by social scientists to environmental issues and a gradual acknowledgement in the wider community of the role of social science in the public debate on sustainability At the same time the concept of culture once the property of anthropologists has gained wide currency among social scientist These trends have taken place against a growing perception among specialist and public of the global nature of contemporary issues This book shows how an understanding of culture can throw light on the way environmental issues are perceived and interpreted both by local communities and within the contemporary global arena Taking an anthropological approach the book examines the relationship between human culture and human ecology and considers how a cultural approach to the study of environmental issues differs from other established approaches in social science This book adds significantly to our understanding of environmentalism as a contemporary

phenomenon by demonstrating the distinctive contribution of social and cultural anthropology to the environmental debate It will be of particular interest to students and researchers in the fields of social science and the environment Global Climate Change Sharon L. Spray, Karen Leah McGlothlin, 2002 This collection of essays is designed to introduce students to the topic of global climate change from multidisciplinary perspectives The contributors approach the topic with the belief that the more knowledgeable students are about the topic the better equipped they will be for meeting the challenge of changing global climate

*A Post-Exotic Anthropology of Soqatra, Volume II* Serge D. Elie, 2020-06-22 This two volume book offers a panoramic explanatory narrative of Soqatra Island s rediscovery based on the global significance of its endemic biodiversity The first volume *A Post Exotic Anthropology of Soqatra A Mesography of an Indigenous Polity in Yemen* initiated the analytical inventory of the four key vectors of Soqatra s transition process through a discussion of the first two economic disarticulation and political incorporation This volume *A Post Exotic Anthropology of Soqatra Cultural Environmental Annexation of an Indigenous Community* completes the analytical inventory by exploring the other two pivotal vectors of transition cultural

modernization and environmental annexation These two vectors encompass the critical sociocultural spheres and environmental domains in which Soqotra's transformation process is unfolding The origin of these vectors is situated within Soqotra's long history of exogenous mediations by external actors and their symbolic appropriation of the island into an imaginative geography The legacy is a symbolic curse which has made Soqotra into an ideal playground for fantasist cultural or environmental experiments Accordingly this volume undertakes first a systematic inventory of the communal effects engendered within the domains of cultural modernization dissonant linguistic attitudes alienating consumption practices divergent religious affiliations and differentiating economic aspirations Second it anatomizes the process of environmental annexation through the reconstruction of the formulation and implementation process of a biodiversity conservation and sustainable development experiment in which the island and its residents are appropriated into an anachronistic paradigm a pastoral ecotopia as a blueprint of their future *Towards Shared Research* Tobias Haller, Claudia Zingerli, 2020-03-03

Intercultural interdisciplinary and transdisciplinary research interfaces confront researchers with considerable challenges *Towards Shared Research* portrays how scholars from different disciplinary and geographical origins and at various academic career stages strive for a more inclusive and better understanding of knowledge about African environments The book is addressed to researchers facilitators and policy makers to make a case for participatory and integrative approaches resulting in systemic and co-created analyses
