The Information Society Reader with Raimo Blom, Erkki Karvonen, Harri Melin, Kaarle Nordenstreng, Ensio Puoskari, Frank Webster, Professor Frank Webster, 2020-04-02 There has been much debate over the idea of the information society Some thinkers have argued that information is becoming the key ordering principle in society whereas others suggest that the rise of information has been overstated Whatever the case it cannot be denied that informization has produced vast changes in advanced societies The Information Society Reader pulls together the main contributions to this debate from some of the key figures in the field Major topics addressed include post industrialism surveillance transformations the network society democracy digital divisions virtual relations With a comprehensive introduction from Frank Webster selections from Manuel Castells Anthony Giddens Michel Foucault and Christopher Lasch amongst others and section introductions contextualising the readings this book will be an invaluable resource for students and academics studying contemporary society and all things cyber

Environment and Society Erika Cudworth, 2005-08-04 At the start of the twenty first century it can be argued that human societies have a greater impact on the environment than ever before We have always been dependent upon and interacted with the natural environment However the dramatic social changes of the past three centuries have altered the form of our relationship with non human nature to the extent that some would see people planet relations as in a situation of crisis *Environment and Society* provides a comprehensive and critical account of the ways in which we can think about the relationship between human societies and the environments with which they interact It argues that human societies are ecologically embedded and that environments are often socially embedded and constituted It makes the different theoretical positions and empirical studies accessible to students and includes chapter outlines and summaries annotated further reading boxed case studies and discussion points

The Consumer Society Reader Juliet Schor, Douglas B. Holt, 2011-07-26 The Consumer Society Reader features a range of key works on the nature and evolution of consumer society Included here is much discussed work by leading critics such as Jean Baudrillard Susan Bordo Dick Hebdige bell hooks and Janice Radway Also included is a full range of classics such as Frankfurt School writers Adorno and Horkheimer on the Culture Industry Thorstein Veblen's oft cited writings on conspicuous consumption Betty Friedan on the housewife's central role in consumer society John Kenneth Galbraith's influential analysis of the affluent society and Pierre

Bourdieu on the notion of taste Consumer society the air we breathe as George Orwell has described it disappears during economic downturns and political crises It becomes visible again when prosperity seems secure cultural transformation is too rapid or environmental disasters occur Such is the time in which we now find ourselves As the roads clog with gas guzzling SUVs and McMansions proliferate in the suburbs the nation is once again asking fundamental questions about lifestyle Has luxury fever to use Robert Frank's phrase gotten out of hand Are we really comfortable with the Brand Is Me mentality Have we gone too far in pursuit of the almighty dollar to the detriment of our families communities and natural environment Even politicians ordinarily impermeable to questions about consumerism are voicing doubts and polls suggest majorities of Americans feel the country has become too materialistic too focused on getting and spending and increasingly removed from long standing non materialist values From the introduction by Douglas B Holt and Juliet B Schor [The Law and Society Reader II](#) Erik Larson, Patrick Schmidt, 2016-04-22 A cornucopia of knowledge and insight on the biggest questions in the sociolegal tradition an invaluable resource for researchers and teachers Michael McCann Gordon Hirabayashi Professor for the Advancement of Citizenship University of Washington Law and society scholars challenge the common belief that law is simply a neutral tool by which society sets standards and resolves disputes Decades of research shows how much the nature of communities organizations and the people inhabiting them affect how law works Just as much law shapes beliefs behaviors and wider social structures but the connections are much more nuanced and surprising than many expect Law and Society Reader II provides an accessible overview to the breadth of recent developments in this research tradition bringing to life this dynamic field In this second volume editors Erik W Larson and Patrick D Schmidt have compiled excerpts of 43 illuminating articles published since 1993 in The Law Society Review the flagship journal of the Law and Society Association By its organization and approach this volume enables readers to join in discussing the key ideas of law and society research The selections highlight the core insights and developments in this research tradition making these works indispensable for those exploring the field and ideal for classroom use Across six concisely introduced sections it analyzes inequality lawyering the relation between law and organizations and the place of law in relation to other social institutions [Routledge Handbook of Environment and Society in Asia](#) Paul G. Harris, Graeme Lang, 2014-09-19 Nowhere is the connection between society and the environment more evident and potentially more harmful for the future of the world than in Asia In recent decades rapid development of Asian countries with very large populations has led to an unprecedented increase in environmental problems such as air and water pollution solid and hazardous wastes deforestation depletion of natural resources and extinction of native species This handbook provides a comprehensive survey of the cultural social and policy contexts of environmental change across East Asia The team of international experts critically examine a wide range of environmental problems related to energy climate change air land water fisheries forests and wildlife The editors conclude that with nearly half of the human population of the planet and several rapidly growing economies most notably China Asian

societies will determine much of the future of human impacts on the regional and global environments As climate change related threats to society increase the book strongly argues for increased environmental consciousness and action in Asian societies This handbook is a very valuable companion for students scholars policy makers and researchers working on environmental issues in Asia *Development, Power, and the Environment* Md Saidul Islam,2013-06-07 Unmasking the neoliberal paradox this book provides a robust conceptual and theoretical synthesis of development power and the environment With seven case studies on global challenges such as under development food regime climate change dam building identity politics and security vulnerability the book offers a new framework of a double risk society for the Global South With apparent ecological and social limits to neoliberal globalization and development the current levels of consumption are unsustainable inequitable and inaccessible to the majority of humans Power has a great role to play in this global trajectory Though power is one of most pervasive phenomena of human society it is probably one of the least understood concepts The growth of transnational corporations the dominance of world wide financial and political institutions and the extensive influence of media that are nearly monopolized by corporate interests are key factors shaping our global society today In the growing concentration of power in few hands what is apparent is a non apparent nature of power Understanding the interplay of power in the discourse of development is a crucial matter at a time when our planet is in peril both environmentally and socially This book addresses this current crucial need **Equity and the Environment** Robert C. Wilkinson,William R. Freudenburg,2007-12-12 Soon after the first Earth Day in 1970 the academic world saw a virtual explosion of new interdisciplinary environmental programs many of which took explicit note for the first time of the fact that environmental problems are inherently social problems as well Even in the new programs however issues of equity and the environment were usually relegated to isolated classes on environmental ethics Today they still are *Information Resources in Toxicology* P.J. Bert Hakkinen,Asish Mohapatra,Steven G. G. Gilbert,2009-08-19 This latest version of Information Resources in Toxicology IRT continues a tradition established in 1982 with the publication of the first edition in presenting an extensive itemization review and commentary on the information infrastructure of the field This book is a unique wide ranging international annotated bibliography and compendium of major resources in toxicology and allied fields such as environmental and occupational health chemical safety and risk assessment Thoroughly updated the current edition analyzes technological changes and is rife with online tools and links to Web sites IRT IV is highly structured providing easy access to its information Among the hot topics covered are Disaster Preparedness and Management Nanotechnology Omics the Precautionary Principle Risk Assessment and Biological Chemical and Radioactive Terrorism and Warfare are among the designated International in scope with contributions from over 30 countries Numerous key references and relevant Web links Concise narratives about toxicologic sub disciplines Valuable appendices such as the IUPAC Glossary of Terms in Toxicology Authored by experts in their respective sub disciplines within toxicology **The Language, Discourse, Society Reader**
