Environmental Issues And Sustainable Futures:

Environmental Issues and Sustainable Futures Michael Marien, 1996 This guide seeks to sort the flood of information written about environmental issues and sustainable societies in recent years and order it in some way A total of 450 document abstracts are presented here most of which are on books and think tank reports These items first appeared in Future Survey journal and were published between 1991 and 1995 Many of these items focus on American issues however in most instances both the problems and the proposed remedies may be of great relevance to other countries The abstracts are grouped into three broad categories 1 Environmental Issues in which the primary focus is on a particular problem or set of problems 2 Toward Sustainability where the primary focus is on a sustainable society or some key aspect of it and 3 Politics and Planning in which the focus is on political context environmental critics environmentalist groups and actions to be taken at the global national regional and local levels A total of 170 periodicals related to the environment are also identified including two dozen general interest publications four dozen publications with an environmental focus and 100 specialized environmental publications such as those devoted to soil conservation waste disposal environmental education or environmental politics A publisher title index and a subject index are also included PVD

Ensuring a Sustainable Future

Jody Heymann, Magda Barrera, 2013-09-13 There is very little argument that the world is facing severe environmental challenges Ongoing air and water pollution increasing energy consumption and the depletion of natural resources have all placed considerable stress on the capacity of our environment to support the present quality of human life in a sustainable manner Ensuring a Sustainable Future does what few previous works have it examines these trends disproportionate impact on the poor and the economically viable solutions that can serve to remedy them solutions that simultaneously address environmental and economic problems This gap in previous research evidence and writing has left low income countries often unwilling to take on major environmental problems and many poor communities believing they faced impossible choices between improving the environment in which they live and increasing the jobs and income available Bringing together evidence based recommendations and in depth case studies of successful policies and programs around the world Ensuring a Sustainable Future examines innovative solutions to this crucial challenge In doing so it addresses a comprehensive range of environmental sustainability challenges affecting low middle and high income countries

The Environment: Towards a Sustainable Future

Dutch Committee for Long-Term Environmental Policy, 2012-12-06 A sustainable future a world in which sustainable development is possible and guaranteed In this book the Dutch Committee for Long Term Environmental Policy an expert advisory board to the Dutch Minister of Housing Physical Planning and Environment shows possible ways in which society can move towards a sustainable future The book goes in search of a new social order an order in which sustainability is guaranteed This search holds four main elements signs of hope which positive initiatives and developments exist which will lead to a sustainable future transformations which transformations are needed to reach a sustainable future

philosophical and methodological reflections can one predict the future institutions what are the necessary changes in the basic institutions of society to reach a sustainable future The committee has invited well known experts from different disciplinary backgrounds to check the existing social order from a point of sustainability and to give recommendations for a sustainable future The central conclusion is that we are in need of an evolving green strategy aimed at sustainability The contours of this strategy are described and a large set of recommendations to reach a sustainable future are given As the committee states There is no certainty and no statistical probability for a sustainable future but there is at least a chance
