The Politics of Management Knowledge in Times of Austerity Ewan Ferlie, Sue Dopson, Chris Bennett, Michael Fischer, Jean Ledger, Gerry McGivern, 2018-11-01 While the implementation of evidence based medicine guidelines is well studied there has been little investigation into the extent to which a parallel evidence based management movement has been influential within health care organizations This book explores the various management knowledges and associated texts apparent in English health care organizations and considers how the local reception of these texts was influenced by the macro level political economy of public services reform evident during the period of the politics of austerity The research outlined in this volume shows that very few evidence based management texts are apparent

within health care organizations despite the influence of certain knowledge producers such as national agencies think tanks management consultancies and business schools in the industry Bringing together the often disconnected academic literature on management knowledge and public policy the volume addresses the ways in which preferred management knowledges and texts in these publicly funded settings are sensitive to the macro level political economy of public services reform offering an empirically grounded critique of the evidence based management movement **The Inland Printer** ,1902

Reviewing Research in Special Education Jennifer Doran,Seamus Hegarty,2016-04-08 This innovative collection combines research reviews in special education and an exploration of the findings from these reviews from practitioner and policy maker perspectives It consists of five sets of papers the first of which in each set presents a summary of a conventional research review and the second commonly produced in collaboration with teachers translates the review findings into classroom and policy making implications The first four sets of papers derive from work commissioned by the National Council for Special Education in Ireland They deal with best practice and outcomes in the education of pupils who are deaf visually impaired on the autistic spectrum or have emotional and behavioural difficulties The fifth set is based on a review of explicit memory studies in populations with intellectual disabilities that was submitted to the European Journal of Special Needs Education This direct pairing of technical and practitioner oriented perspectives is relatively unusual and the collection will be a useful addition to the literature for academics practitioners and policy makers This book was originally published as a special issue of the European Journal of Special Needs Education **Share your Knowledge review** ,1955
