A history of Cambodia-Thailand Diplomatic Relations 1950-2020. Sok Udom Deth, 2020-07-01 This book aims to provide an analysis of Cambodia Thailand diplomatic relations over the past seven decades specifically from 1950 to 2020 While other academic publications have focused on particular aspects of Cambodian Thai relations e g border conflicts or cultural ties this book is the first to cover a comprehensive history of diplomatic relations between the two countries starting from the establishment of official diplomatic ties in 1950 to the present In addition to empirical discussion it seeks to explain why Cambodian Thai relationships have fluctuated and what primary factors caused the shifts during the period discussed In doing so it employs the social conflict analysis which views states not as unitary actors but within which are comprised of different societal forces competing with one another and pursues foreign policies in accordance with their own ideology interest and strategy As such it is postulated that Cambodia Thailand diplomatic relations should not be seen simply as relations between two unitary states cooperating with or securitizing against one another but rather as a matrix of intertwining relationships between various social and political groups in both states harboring competing ideologies and or interests to advance their power positions at home

Kings, Country and Constitutions Kobkua Suwannathat-Pian, 2013-12-16 Provides a detailed analysis of Thailand s political development since 1932 when Thailand became a constitutional monarchy until the present It examines the large number of different versions of the constitution which Thailand has had since 1932 and explains why the constitution has been subject to such frequent change and why there have been so many outbursts of violent political unrest It explores the role of the military and most importantly discusses the role of the monarchy which as the author shows has been crucial in holding Thailand together through the various changes of regime The author brings to light original and largely unseen documents from the Public Records Office

and US National Archives as well as drawing upon her extensive knowledge of politics in Thailand *Praetorian Kingdom: A History of Military Ascendancy in Thailand* Paul Chambers, 2024-08-28 This is one of the most comprehensive studies of contemporary Thai politics seen through the careers of Thai military leaders since 1932 up until now It is of vital importance if one is to understand present day Thai politics Kullada Kesboonchoo Mead Chulalongkorn University retired author of *The Rise and Decline of Thai Absolutism* Paul Chambers has written arguably the most comprehensive and detailed book on the evolution of Thailand's military power from the post World War II era to the present day This lucid book is a compelling read for anyone seeking to gain insight into the transformation of the country into a praetorian kingdom where the monarchy and the military are the most powerful institutions His delicate exploration of the various plots methods strategies twists and betrayals provides readers with valuable perspectives on the inner workings and dynamics of Thailand's praetorian system One of the book's strengths lies in its use of declassified and leaked documents from the US administrations adding a sense of excitement and credibility to the analysis Puangthong Pawakapan Chulalongkorn University author of *Infiltrating Society The Thai Military's Internal Security Affairs* This study on the Thai military does not merely add to the existing critical understandings about its role in the country's politics it tackles the subject in a new light and challenges us to reexamine our appraisal of each military regime Dr Chaayan Rajchagool University of Phayao author of *The Rise and Fall of the Thai Absolute Monarchy* This book does two significant things first cultivating large amounts of primary resources and second providing a sophisticated interpretation of Thai military ascendancy until 2023 Based on these reasons the book is important for insightful and untold stories about the Thai military Ukrist Pathmanand Institute of Asian Studies Chulalongkorn University Thailand Monumental in scope and wondrously researched *Praetorian Kingdom* is much more than the systematic study of the Thai military that has long been needed For it is a volume that will compel readers not only to understand crucial episodes in Thailand's modern history in new ways but also to appreciate the continuities in the country's military politics as never before Michael Montesano Associate Senior Fellow Thailand Studies Programme ISEAS Yusof Ishak Institute

Laos's stunning Vat Phu the small temple platforms of Malaysia's Lembah Bujang Valley the candi of the Dieng Plateau in Java and the ruins of Mingun in Burma and Wiang Kum Kam near Chiang Mai in northern Thailand are also discussed All share a relative isolation from modern urban centers of population sitting in park like settings serving as objects of tourism and as lynchpins for local and even national economies Chapman argues that these sites also remain important to surrounding residents both as a means of income and as continuing sources of spiritual meaning He examines the complexities of heritage efforts in the context of present day expectations by focusing on the roles of both outside and indigenous experts in conservation and management and on attempts by local populations to reclaim their patrimony and play a larger role in protection and interpretation Tracing the history of interventions aimed at halting time's decay Chapman provides a chronicle of conservation efforts over a century and a half highlighting the significant part foreign expertise has played in the region and the ways that national programs have in recent years begun to break from earlier models The book ends with suggestions for how Southeast Asian managers and officials might best protect their incomparable heritage of art and architecture and how this legacy might be preserved for future generations

International Relations as a Discipline in Thailand Chanintira na Thalang, Soravis Jayanama, Jittipat Poonkham, 2018-07-24

There has long been considerable debate about the nature of non Western IR theory Most attempts to understand such a phenomenon begin by taking a top down approach on a country by country basis Instead this book takes a bottom up approach involving specialists from a range of Thai universities revealing the contours of the Thai IR community It examines the state of various sub fields under the IR rubric in Thailand such as foreign policy analysis security studies international political economy and area studies and how Thai thinkers in these fields have contributed to IR as a discipline and IR theory development in Thailand In doing so it identifies factors unique to Thai academia which have hindered the development of an indigenous sourced theory as well as exploring the similarities shared with other non Western contexts that have posed an obstacle to the creation of a more general non Western IR theory Providing both an in depth insight into the specific phenomena of Thai IR theory and a broader perspective on the challenges of formulating non Western IR theory this book aims to push the debate on non Western IR theory forward It will be of particular interest to readers looking for a better understanding of IR theory in Thailand but also for those more generally looking to formulate and characterise non Western approaches to the discipline

Bilateral Legacies in East and Southeast Asia N Ganesan, 2016-04-29

This edited volume examines the concept of overhangs or legacies or negative stereotypical images in international relations and their impact on bilateral relations between geographically proximate states in East Asia The case studies chosen Japan Korea Japan China Vietnam China Thailand Myanmar and Thailand Cambodia demonstrate conclusively that bilateral overhangs or legacies have a significant impact on contemporary international relations Such images are regularly replicated and stoked by a variety of

constituencies including state agencies for their own selfish interests The evidence also points to the fact that such bilateral relationships are relatively self contained and often operate with their own dynamics Powerful condensation symbols are appropriated to weave a story of the virtuous self and the stereotypical other This negative image and its replication is important to an understanding of turbulent bilateral relations in East Asia and also helps to inform how such relations can be brought to an even keel
