Star Map Fabienne Gschwind, 2021-05-18. When Captain Jay Shackleton of the cartography starship Abhysal finds himself and his crew thrown across the galaxy, he has no idea how they are going to get back home to earth. Although his five member crew are gifted space travellers and scientists, the situation seems hopeless. However, their luck seems to change when a seemingly friendly alien trade association, the Squeltrems, picks them up. In exchange for their technical knowledge, they'll be able to hitch a ride back to earth. This seems to be a good deal, and the crew starts full of enthusiasm for the development of new subspace technologies together with their new Alien friends from the research department. Until they realize that the peaceful Squeltrem Association is not so peaceful after all, and that they are space pirates who like to plunder whole planets. As if that is not bad enough, another species is in the process of hijacking planets to steal their resources. Set in the 24th century, Fabienne Gschwind's Star Map is an epic science fiction adventure novel that will captivate readers and transport them to another world.
