**The Film Cheat** Murray Pomerance, 2020-10-15 Murray Pomerance venerated film scholar is the first to take on the cheat in film where cheating constitutes a collection of production performance and structuring maneuvers intended to foster the impression of a screen reality that does not exist as presented This usually calls for a suspension of disbelief in the viewer but that rests on the assumption that disbelief is

problematic for viewership and that we must find some way to suspend or disconnect it in order to allow for the entertainment of the fiction in its own terms The Film Cheat explores forty five aspects of the cheat analyzing classic films such as Singin in the Rain and Chinatown to more contemporary films like The Revenant and Baby Driver with Pomerance engaging his encyclopedic knowledge of film history to point out numerous instances of suspensions of disbelief Whether or not Gene Kelly is actually dancin in the rain or if Elliott is really flying on his bicycle carrying E T these cheats are what make movie magic Elegantly weaving the narrative for one to dip into at random or to read from cover to cover Pomerance turns things upside down so that the audience actually finds pleasure in the cheat itself pleasure in the disbelief To see the elegant fake the supremely accomplished simulacrum is a pleasure in its own right indeed one of the fundamental pleasures of cinema

**Killing It** Camas Davis, 2019-07-23 Camas Davis was at an unhappy crossroads A longtime magazine editor she had left New York City to pursue a simpler life in her home state of Oregon with the man she wanted to marry and taken an appealing job at a Portland magazine But neither job nor man delivered on her dreams and in the span of a year Camas was unemployed on her own with nothing to fall back on Disillusioned by the decade she had spent as a lifestyle journalist advising other people how to live their best lives she had little idea how best to live her own life She did know one thing She no longer wanted to write about the genuine article she wanted to be it So when a friend told her about Kate Hill an American woman living in Gascony France who ran a cooking school and took in strays in exchange for painting fences and making beds it sounded like just what she needed She discovered a forgotten credit card that had just enough credit on it to buy a plane ticket and took it as kismet Upon her arrival Kate introduced her to the Chapolard brothers a family of Gascon pig farmers and butchers who were willing to take Camas under their wing inviting her to work alongside them in their slaughterhouse and cutting room In the process the Chapolards inducted her into their way of life which prizes pleasure compassion community and authenticity above all else forcing Camas to question everything she d believed about life death and dinner So begins Camas Davis s funny heartfelt searching memoir of her unexpected journey from knowing magazine editor to humble butcher It s a story that takes her from an eye opening stint in rural France where deep artisanal craft and whole animal gastronomy thrive despite the rise of mass scale agribusiness back to a Portland in the throes of a food revolution where Camas attempts sometimes successfully sometimes not to translate much of this old world craft and way of life into a new world setting Along the way Camas learns what it really means to pursue the real thing and dedicate your life to it

Motigraphics is the natural complement to demographics and psychographics the completion of a triad For consumers because motives are the most important dimension of human behavior motives lead directly to decisions and decisions lead directly to purchasing behavior Demographics and psychographics tell us the what when where and how of consumer behavior but motigraphics tells us why consumers do what they do Dr Maddock maintains that academic psychology has failed to provide a formal approach to motivation thus marketers have never been able to get a firm grasp on why consumers prefer what they do why they cancel and don't renew and what factors enter into their decision making at the point of sale With Motigraphics we can now measure and compute motives and the strength of motivation allows us to determine how much equity a brand Motigraphics allows us to describe customer loyalty in terms of a quantitative motivational profile and scale Not only does Dr Maddock show how to measure motives he also helps us assess the amount of emotion involved in a product or service Since most consumer decisions are based on emotion not reason the importance of Dr Maddock's book for psychologists marketers and advertising and sales professionals is self evident and inestimable *Armor* ,1998 The
