variant forms Included will be biographies chronologies special interest inset boxes up to 100 photos comprehensive article bibliographies and appendices for things like famous unsolved cases celebrity murders assassinations original source documents and online sources for information Crime, Justice, History Eric H. Monkkonen, 2002 Crime in the U S and the institutions for its control are deeply embedded in and shaped by history The historical origins have often become invisible and their recovery difficult but any understanding of the contemporary situation requires historical context For over twenty five years Eric H Monkkonen has worked on some of the puzzles and problems in recovering the history of crime and police Much of his work has appeared in articles often in specialized journals or not in English which this book collects for the first time In addition to Monkkonen s major published articles this volume includes several new ones The topics embrace violence public disorder policing popular culture and contrasts between the U S and Europe Some articles illuminate special methodological and source issues that challenge historians of criminal justice As well as dealing with serious crime this book includes several articles on specifically urban problems and solutions associated with disorder crime and poverty In contrast to the more technical articles several chapters which originally appeared as op ed pieces show how historical understanding can help address current policy issues in crime and crime control All too often current policy debates occur without proper historical background As a result old ideas that have been tried and rejected are re introduced or new and sometimes simple ideas are ignored
