## **Killing Rage Ending Racism:**

Killing Rage bell hooks, 1996-10-15 One of our country's premier cultural and social critics bell hooks has always maintained that eradicating racism and eradicating sexism must go hand in hand But whereas many women have been recognized for their writing on gender politics the female voice has been all but locked out of the public discourse on race Killing Rage speaks to this imbalance These twenty three essays are written from a black and feminist perspective and they tackle the bitter difficulties of racism by envisioning a world without it They address a spectrum of topics having to do with race and racism in the United States psychological trauma among African Americans friendship between black women and white women anti-Semitism and racism and internalized racism in movies and the media And in the title essay hooks writes about the killing rage the fierce anger of black people stung by repeated instances of everyday racism finding in that rage a healing source of love and strength and a catalyst for positive change bell hooks is Distinguished Professor of English at City College of New York She is the author of the memoir Bone Black as well as eleven other books She lives in New York City

**The Physiology of Sexist and Racist Oppression** Shannon Sullivan, 2015-07-01 While gender and race often are considered socially constructed this book argues that they are physiologically constituted through the biopsychosocial effects of sexism and racism This means that to be fully successful critical philosophy of race and feminist philosophy need to examine not only the financial legal political and other forms of racist and sexism oppression but also their physiological operations Examining a complex tangle of affects emotions knowledge and privilege The Physiology of Sexist and Racist Oppression develops an understanding of the human body whose unconscious habits are biological On this account affect and emotion are thoroughly somatic not something mental or extra biological layered on top of the body They also are interpersonal social and can be transactionally transmitted between people Ranging from the stomach and the gut to the hips and the heart from autoimmune diseases to epigenetic markers Sullivan demonstrates the gastrointestinal effects of sexual abuse that disproportionately affect women often manifesting as IBS Crohn's disease or similar functional disorders She also explores the transgenerational effects of racism via epigenetic changes in African American women who experience much higher pre term birth rates than white women do and she reveals the unjust benefits for heart health experienced by white people as a result of their racial privilege Finally developing the notion of a physiological therapy that doesn't prioritize bringing unconscious habits to conscious awareness Sullivan closes with a double barreled approach for both working for institutional change and transforming biologically unconscious habits The Physiology of Sexist and Racist Oppression skillfully combines feminist and critical philosophy of race with the biological and health sciences The result is a critical physiology of race and gender that offers new strategies for fighting male and white privilege *Asian American Literature in Transition, 1965-1996: Volume 3* Asha Nadkarni, Cathy J. Schnell, 2025-02-25 Christian tradition and faith formation often affirm anger as a righteous emotion However women and gender diverse persons typically are conditioned to present themselves as soft and gentle If they do express anger they are conditioned to do so in constricted ways Jan R Schnell argues that such individuals should in fact fully explore anger as a vital part of their Christian vocations In Agapic Anger Schnell explores the religious ethics of virtuous anger to show that expressions of anger can be morally good Schnell weaves the narratives of four female community organizers alongside key principles of Thomas Aquinas s virtue ethics as well as practices gleaned from choreographic performance studies to create a framework that dismantles oppressive traditions regarding anger Schnell identifies three dance like movements that instead cultivate a virtuous habit of anger expression that can fuel the work of communal justice The result is a constructive presentation of a form of anger that is rooted in love is characterized by hope and courage and feeds people s capacity to feel well choose well and do well This book is for community organizers and church leaders who yearn for a liberative embodied response that attends to the gap between the angering realities of our present world and the vision of God s kin dom Readers will find this book an accompaniment and guide that directs anger toward structural issues and nurtures a sustaining participation in systemic change **Art in the After-Culture** Ben Davis, 2022-03-15 It is a peculiar moment for art as it becomes both increasingly rarefied and associated with elite lifestyle culture while simultaneously ubiquitous with the boom of creative industries and the proliferation of new technologies for making art In these important

**We Just Keep Running the Line** LaGuana Gray, 2014-11-05 The poultry processing industry in El Dorado Arkansas was an economic powerhouse in the latter half of the twentieth century It was the largest employer in the interconnected region of South Arkansas and North Louisiana surrounding El Dorado and the fates of many related companies and farms depended on its continued financial success We Just Keep Running the Line is the story of the rise of the poultry processing industry in El Dorado and the labor force composed primarily of black women upon which it came to rely At a time when agricultural jobs were in decline and Louisiana stood at the forefront of rising anti welfare sentiment much of the work available in the area went to men driving women into less attractive labor intensive jobs LaGuana Gray argues that the justification for placing African American women in the lowest paying and most dangerous of these jobs like poultry processing derives from longstanding mischaracterizations of black women by those in power In evaluating the perception of black women as less than white women less feminine less moral less deserving of social assistance and less invested in their families and communities well being Gray illuminates the often exploitative nature of southern labor the growth of the agribusiness model of food production and the role of women of color in such food industries Using collected oral histories to allow marginalized women of color to tell their own stories and to contest and reshape narratives commonly used against them We Just Keep Running the Line explores the physical and psychological toll this work took on black women analyzing their survival strategies and

their fight to retain their humanity in an exploitative industry      **Wake Up** Rev. Marlon F. Hall, Dr. Cheryl Kirk-Duggan, 2011-06-01 First an expression of black urban youth Hip Hop music continues to expand as a cultural expression of youth and now young adults more generally As a cultural phenomenon it has even become integral to the worship experience of a growing number of churches who are reaching out to these groups This includes not just African American churches but churches of all ethnic groups Once seen as advocating violence Hip Hop can be the Church's agent of salvation and praise to transform society and reach youth and young adults in greater numbers After looking at Hip Hop's socio-historical context including its African roots *Wake Up* shows how Hip Hop has come to embody the worldview of growing numbers of youth and young adults in today's church The authors make the case that Hip Hop represents the angst and hope of many youth and young adults and that by examining the inherent religious themes embedded in the music the church can help shape the culture of hip hop by changing its own forms of preaching and worship so that it can more effectively offer a message of repentance and liberation      *The Agony of Education* Joe R. Feagin, Hernan Vera, Nikitah Imani, 2014-04-23 *The Agony of Education* is about the life experience of African American students attending a historically white university Based on seventy-seven interviews conducted with black students and parents concerning their experiences with one state university as well as published and unpublished studies of the black experience at state universities at large this study captures the painful choices and agonizing dilemmas at the heart of the decisions African Americans must make about higher education      *Prison Power* Lisa M. Corrigan, 2016-11-04 Winner of the 2017 Diamond Anniversary Book Award and the African American Communication and Culture Division's 2017 Outstanding Book Award both from the National Communication Association In the Black liberation movement imprisonment emerged as a key rhetorical theoretical and media resource Imprisoned activists developed tactics and ideology to counter white supremacy Lisa M Corrigan underscores how imprisonment a site for both political and personal transformation shaped movement leaders by influencing their political analysis and organizational strategies Prison became the critical space for the transformation from civil rights to Black Power especially as southern civil rights activists faced setbacks Black Power activists produced autobiographical writings essays and letters about and from prison beginning with the early sit-in movement Examining the iconic prison autobiographies of H Rap Brown Mumia Abu Jamal and Assata Shakur Corrigan conducts rhetorical analyses of these extremely popular though understudied accounts of the Black Power movement She introduces the notion of the Black Power vernacular as a term for the prison memoirists' rhetorical innovations to explain how the movement adapted to an increasingly hostile environment in both the Johnson and Nixon administrations Through prison writings these activists deployed narrative features supporting certain tenets of Black Power pride in Blackness disavowal of nonviolence identification with the Third World and identity strategies focused on Black masculinity Corrigan fills gaps between Black Power historiography and prison studies by scrutinizing the rhetorical forms and strategies of the Black Power ideology that

arose from prison politics These discourses demonstrate how Black Power activism shifted its tactics to regenerate even after the FBI sought to disrupt discredit and destroy the movement      **Radical Philosophy** Chad Kautzer, 2015-11-17 In this concise introduction Chad Kautzer demonstrates the shared emancipatory goals and methods of several radical philosophies from Marxism and feminism to critical race and queer theory Radical Philosophy examines the relations of theory and practice knowledge and power as well as the function of law in creating extralegal forms of domination Through a critical engagement with the history of philosophy Kautzer reconstructs important counter traditions of historical dialectical and reflexive forms of critique relevant to contemporary social struggles The result is an innovative systematic guide to radical theory and critical resistance
