Johann Sebastian Bach: The Learned Musician Christoph Wolff,2001-09-17 Finalist for the 2001 Pulitzer

Prize in Biography this landmark book was revised in 2013 to include new knowledge discovered after its initial publication

Although we have heard the music of J S Bach in countless performances and recordings the composer himself still comes across only as an enigmatic figure in a single familiar portrait As we mark the 250th anniversary of Bach s death author Christoph Wolff presents a new picture that brings to life this towering figure of the Baroque era This engaging new biography portrays Bach as the living breathing and sometimes imperfect human being that he was while bringing to bear all the advances of the last half century of Bach scholarship Wolff demonstrates the intimate connection between the composer s life and his music showing how Bach s superb inventiveness pervaded his career as musician composer performer scholar and teacher And throughout we see Bach in the broader context of his time its institutions traditions and influences With this

highly readable book Wolff sets a new standard for Bach biography *The New Music Review and Church Music Review*, 1908 Bach Malcolm Boyd, 1997 Boyd's biographical chapters alternate with commentary on the works to demonstrate how the circumstances of Bach's life helped to shape the music he wrote at various periods. We follow Bach as he travels from Arnstadt and Mühlhausen to Weimar, Cöthen and finally Leipzig; these journeys alternating with insightful discussions of the great composer's organ and orchestral compositions. As well as presenting a rounded picture of Bach, his music and his posthumous reputation and influence, Malcolm Boyd considers the sometimes controversial topics of parody and arrangement, number symbolism and the style and meaning of Bach's late works. Recent theories on the constitution of Bach's performing forces at Leipzig are also present **Dzwony starodawne z przed r. 1600 na obszarze B. Galicji** Karol Badecki, 1922

The Music of Johann Sebastian Bach Robert Lewis Marshall, 1989 The 16 essays collected here of two kinds, stylistic and historical inquiries and studies of the original sources. The articles deal with the music and shed new light on the composer's life. Part 1 reconsiders Bach's historical position and assesses the cultural significance of his achievement. Parts 2, 3 and 4 draw upon the original sources to explore the compositional process, questions of authenticity and chronology and controversial issues of performance practice **Frau Musika: 1685-1723** Alberto Bassi, 1979 **Byrd Studies** Alan Brown, 1992-01-09 This book is a collection of twelve essays by British and American writers on William Byrd, one of the greatest of English composers. Snyder, 1987 An enlightening revised edition of the definitive biography on celebrated organist and composer Dieterich Buxtehude. This book is a new edition of the most comprehensive life and works study of the great Baroque era organist and composer Dieterich Buxtehude (ca. 1637-1707) released to celebrate the tercentenary of the composer's death. Originally published in 1987 and long out of print, Dieterich Buxtehude Organist in Lübeck is considered by most musicologists to be the definitive biography. It also includes a close description of Buxtehude's compositional output, from trio sonatas to the famed Abendmusiken. Buxtehude's yearly oratorio presentations. The young J.S. Bach traveled to Lübeck on foot in 1705 to learn as much as he could from the great master of the organ and of Lutheran church music. The revised edition contains new information on the organs that Buxtehude played in Scandinavia and Lübeck, excerpts from the newly available account books from St. Mary's in Lübeck, a discussion of newly discovered sources including one written by J.S. Bach, an evaluation of recent scholarship on Buxtehude, and an extensive bibliography. Written for both the casual reader and the serious scholar, the accompanying music CD (this material is now provided on a companion website) provides examples of all genres discussed in the book: vocal works, a trio sonata, harpsichord music and organ music, newly recorded on the North
