So if you land your dream job, you may find yourself so pleased and satisfied with your achievement that you think you're done. But as Scot Herrick points out in *I've Landed a Dream Job Now What?*, today more than ever before, you need to hit the ground running on day one of your new job. Given current economics, having a new employee get productive super fast is a huge advantage, not only for the employee's manager but for the employee too. This can make the first 30 days at a new job intense and filled with anxiety because virtually everything is new: corporate culture, team dynamics, management styles, and more. It is difficult for you, as a new hire, to nail down what you know, who to ask, and which of your skills are most valued by your new organization.

Scot Herrick's purpose in writing this book is to help people like you who have just landed a job at a large or small corporation to get started on the right foot. Beginning with the often overlooked basics, Scot shows you how to manage the transition from your old job to evaluate the fit between your new workplace and yourself to identify the real decision makers to integrate into your new team's culture and most important to determine which aspects of your new role are most meaningful to your manager and therefore most closely linked to your job security and paycheck. **I've Landed a Dream Job Now** What is designed to be your constant companion during the first thirty days at your new job.
