Karmic Tarot William C. Lammey,1988 **Re-Symbolization of the Self: Human Development and Tarot Hermeneutic** I. Semetsky,2011-07-23 Bringing together popular and academic cultures Inna Semetsky presents Tarot as a system of transformative hermeneutics for adult self education and cultural pedagogy Her research is a decisive and intelligent step ahead from the reductive stereotype of Tarot as fortune telling The fifteen life stories at the heart of the book exemplify the author s commitment to alternative modes of education and counseling that transcend individual cultural or language barriers Assembling a rich array of sources from Hermeticism to Jungian depth psychology the philosophies of Noddings Buber and Deleuze and the science of self organization this book opens a new path to personal and social revitalization It should be widely read across disciplinary divides by scholars students and professionals alike [The Other Side](#) Jennifer Higgie,2024-01-02 The first major work of art history to focus on women artists and their engagement with the spirit world by the author of *The Mirror and the Palette* It s not so long ago that a woman s expressed interest in other realms would have ruined her reputation or even killed her And yet spiritualism in various incarnations has influenced numerous men including lauded modernist artists such as Wassily Kandinsky Piet Mondrian Kazimir Malevich and Paul Klee without repercussion The fact that so many radical female artists of their generation and earlier also drank deeply from the same spiritual well has been sorely neglected for too long In *The Other Side* we explore the lives and work of a group of extraordinary women from the twelfth century mystic composer and artist Hildegard of Bingen to the nineteenth century English spiritualist Georgiana Houghton whose paintings swirl like a cosmic Jackson Pollock the early twentieth century

Swedish artist Hilma af Klint who painted with the help of her spirit guides and whose recent exhibition at New York's Guggenheim broke all attendance records to the Desert Transcendentalist Agnes Pelton who painted her visions beneath the vast skies of California We also learn about the Swiss healer Emma Kunz who used geometric drawings to treat her patients and the British surrealist and occultist Ithell Colquhoun whose estate of more than 5 000 works recently entered the Tate gallery collection While the individual work of these artists is unique the women loosely shared the same goal to communicate with and learn from other dimensions Weaving in and out of these myriad lives while sharing her own memories of otherworldly experiences Jennifer Higgie discusses the solace of ritual the gender exclusions of art history the contemporary relevance of myth the boom in alternative ways of understanding the world and the impact of spiritualism on feminism and contemporary art A radical reappraisal of a marginalized group of artists *The Other Side* is an intoxicating blend of memoir biography and art history

Religion for Scientists Frank Henry, 2024-02-02 Following Fritjof Capra's arguments in *The Tao of Physics* this book seeks to draw a connection between Western mysticism and theoretical physics specifically between string theory and the Hebrew esoteric tradition of Qabala arguing that the structure of space time is defined by the Qabalistic Tree of Life Modern theories developed to combine the incompatible theories of relativity and quantum mechanics nearly always postulate that the Universe is defined in more dimensions than we are aware of 10 in the super symmetrical string theories and 11 in M theory and 11D supergravity This implies that in addition to the four dimensions from special relativity there exist six more compactified onto a 6D complex geometry
