Assessing Students with Special Needs John Venn, 2000 A comprehensive coverage of assessment theories methods and interpretations for assessing a broad range of performance abilities Includes reviews of tests and expanded information on IEPs and assessments and cultural diversity Self-Regulation and Early School Success Megan M. McClelland, Shauna L. Tominey, 2016-04-08 Self regulation has been identified as an important predictor of school readiness and academic achievement in young children Children who struggle with self regulation are at risk of experiencing peer rejection and academic difficulties Teachers report that there is high variability in children s self regulatory abilities at school entry and that children with an accumulation of risk factors are especially likely to enter school without adequate self regulation skills Moreover early academic skills are often cumulative so children who fail to acquire early skills are at risk of falling behind their peers academically and facing achievement gaps that widen over time Although the relation between self regulation and school related outcomes has been clearly documented our understanding of the pathways through which self regulation influences early achievement and school success remains unclear This special issue considers previously neglected areas in the current understanding of self regulation The seven articles focus on issues including a the complex relations between self regulation and school readiness b predictors of self regulation and academic achievement and c advances in measurement of self regulation and related skills Research that continues to investigate the complex relations and mechanisms that influence early self regulation and related outcomes will inform policy and practice in ways that help all children develop the self regulation skills they need The volume will be of interest to researchers in the field of child development or education and educators and policy makers who are interested in promoting school readiness and academic success This book was originally published as a special issue of Early Education and Development *Early Childhood Assessment* Carol S. Lidz, 2002-12-16 A new guide to conducting more comprehensive and meaningful psychological assessments of young children Early Childhood Assessment presents a thorough step by step approach to the comprehensive psychological assessment of young children In addition to covering major psychological tests this invaluable resource includes specific guidelines and formats for interviewing parents and other caregivers observing children and caregiver child interaction conducting dynamic assessments writing reports and evaluating outcomes of recommended interventions Dr Lidz s approach encourages a broad range of observation with an overarching objective of completing a picture of the whole child from family life to social emotional and neuropsychological functioning She leads the reader through each step of a comprehensive assessment touching on the major data sources necessary for a full understanding of the child within different environments Throughout the book Dr Lidz advocates best assessment practices that reflect the interests of children and families Features useful information on Conducting initial interviews and observations for setting the course of the assessment Using standardized and nonstandardized approaches to generate both qualitative and quantitative data Viewing children and families within their

cultural contexts Integrating assessment data sources to generate meaningful recommendations and readable reports Plus Includes unique chapters on play observation of parent child and teacher child interactions and dynamic assessment Early Childhood Assessment is a valuable tool for professionals and students who are concerned about the richness and complexity of children's development within their families and communities Linking Assessment and Early Intervention Stephen J. Bagnato, John T. Neisworth, Susan M. Munson, 1997 A natural progression from the authors widely known work on assessment and programming in early intervention LINK is a revolutionary process that hurdles traditional obstacles to selecting and using authentic assessment intervention evaluation procedures for young children Pulling the best properties from well known assessment and curriculum models LINK identifies critical markers for judging quality and effectiveness authenticity collaboration convergence equity sensitivity and congruence The authors apply this unique six standard index to more than 50 different curriculum embedded and curriculum compatible assessment and intervention systems rating and analyzing each In addition they explain how early childhood professionals can perform their own quality reviews and then customize the system's of their choice to specific populations or programs With this essential resource in hand early intervention team members and administrators can ensure the individualized support opportunities every child needs for healthy development
