Concordance in Medical Consultations Kristian Pollock, 2018-10-08 The capacity of professional medicine to resist change and also concordance is impressive but perplexing It is one of the issues I seek to address in this book I suggest that a preoccupation with trying to change the relationship between the professional patient dyad has deflected attention from the extent to which such relations are embedded in and constrained by wider administrative and organisational structures especially as these relate to the operation of professional hierarchies and interprofessional deference and allegiances Barriers to change also result from the inertia of a system which has evolved a highly stylised etiquette as an adaptive mechanism to contain the difficulties and tensions intrinsic to the medical consultation Its therapeutic purpose and potential are often subordinate to the goal of achieving success as a social encounter The principles of concordance are deeply challenging to traditional professional roles and status However medicine has always displayed an ability to block change through tactics of appropriation and incorporation Professionals have often shown particular difficulty giving up their monopoly of expertise and in acknowledging the legitimacy of the patient perspective Although the term concordance has become quite widely used its meaning is usually subverted by its employment as a synonym for compliance albeit informed compliance A slightly more sophisticated version values professional elicitation of the patient perspective in order to more accurately tailor information as a means of overcoming the unhelpful misconceptions that impede compliance The original emphasis on the consultation as a negotiated exchange in which the professional has something of value to learn from the patient has largely been lost The rhetoric of modernity and

change provides an effective mask for inertia and conservatism Preface **Women and Smoking: A Report of the Surgeon General** David Satcher, 2008-05 This is the second report of the U S Surgeon Gen devoted to women smoking The first was pub in 1980 16 years after the initial landmark report on smoking health appeared in 1964 which demonstrated that smoking was a cause of human cancer other diseases Most of the early evidence was based on men By the time of the 1980 report the evidence clearly showed that women were also experiencing devastating health consequences from smoking that the first signs of an epidemic of smoking related disease among women are now appearing This report reviews the now massive body of evidence on women smoking evidence that compels us to make reducing preventing smoking one of the highest priorities for women s health *After Adoption* Janette Logan, Carole Smith, 2013-01-11 Few children nowadays are placed for adoption with no form of contact planned with birth relatives and it has become common professional practice to advocate direct rather than indirect contact Practice has outstripped evidence in this respect and not enough is known about how contact arrangements actually work out particularly for older children adopted from state care Such children have often experienced neglect and sometimes abuse and have frequently been adopted without parental agreement Based on research with a large number of adoptive parents children and birth relatives *After Adoption* considers the impact of direct post adoption contact on all concerned in such cases It also discusses the development of adoption policy and law particularly with regard to the legal and social consequences reviews the research evidence on adopted children s contact with their birth families explores through interviews participants feelings about adoption and direct contact their relationships with each other what hinders and what helps *After Adoption* challenges readers to re think the relationship between adoption and the possibility of direct post adoption contact and at the same time provides a comprehensive understanding of adoption issues It is a timely and valuable addition to the literature on adoption making a substantial contribution to policy and practice Evaluating Public Management Reforms George Boyne, Catherine Farrell, Jennifer Law, Martin Powell, Richard Walker, 2003-01-16 Governments across the world are pursuing reform in an effort to improve public services But have these reforms actually led to improvements in services *Evaluating Public Management Reforms* develops a framework for a theory based evaluation of reforms and then uses this framework to assess the impact of new arrangements for public service delivery in the UK This book identifies the conceptual and practical problems of finding clear criteria for evaluating reforms focuses on the shifts in public management towards markets and competition towards the publication of performance indicators and from larger to smaller organizations considers what impact these reforms have had on the efficiency responsiveness and equity of services comprehensively reviews the evidence on the effects of reform on health care housing and education discusses the implications for public sector management *Interprofessional Collaboration* Audrey Leathard, 2004-03-01 Interprofessional collaboration in the health and social care services has become a commanding force spear headed by the Government s modernisation programme to improve partnership *Interprofessional Collaboration*
