The Tudors on Film and Television Sue Parrill, William B. Robison, 2013-02-06 With its mix of family drama sex and violence Britain's Tudor dynasty 1485 1603 has long excited the interest of filmmakers and moviegoers Since the birth of movie making technology the lives and times of kings Henry VII Henry VIII and Edward VI and queens Mary I Jane Grey and Elizabeth I have remained popular cinematic themes From 1895's The Execution of Mary Stuart to 2011's Anonymous this comprehensive filmography chronicles every known movie about the Tudor era including feature films made for television films mini series and series documentaries animated films and shorts From royal biographies to period pieces to modern movies with flashbacks or time travel this work reveals how these films both convey the attitudes of Tudor times and reflect the era in which they were made

Pinning Down the Past Mike Corbishley, 2014-04-17 In a relatively short period of time the pursuit of archaeology has evolved from an antiquarian interest to a specialised scientific activity Part of this evolution has always included the interest of the public and archaeologists efforts to educate them As each new method and technique is developed and each new specialism is created the challenge of making archaeology available as a learning resource grows with it Today for example the issues which surround archaeology and heritage such as the pressures of tourism on sites now form part of many formal educational curricula This book the first to deal with the subject in such depth examines the place of education and outreach within the wider archaeological community Written by one of Britain's leading archaeological educationalists it charts the sometimes difficult and painful growth and development of education and archaeology Packed full of informative and enlightening case studies from the circus at Colchester to Sutton Hoo and Hadrian's Wall this work examines exactly how we have reached the

point we are at where that place is and suggests areas for future development By drawing upon many decades of experience at the front line of archaeological education the author has produced a key text that will play a major role in the on going development of the heritage industry Publisher s website **Henry VIII in Twenty-First Century Popular Culture** Jonas Takors,2017-03-23 Each age produces its own Henry s This innovative study in popular culture examines how novels films TV series and historiography shape new versions of Henry VIII for the twenty first century From *The Other Boleyn Girl* to *The Tudors* 2009 s quint centenary celebrations of Henry s coronation and *Wolf Hall* hi stories are produced distributed and used in very different ways In each case the producers intentions the narrative and the targeted audiences all contribute to the discourses on Henry VIII However there no longer exists a universally accepted popularization of Tudor history so certain representations can lead to intense debates for instance in case of the TV show *The Tudors* Detailed studies of how audiences appropriate the narratives complement a thorough analysis of each text In this manner the monograph examines how different sense resources are shaped into histories in various new subgenres and how the audiences too actively compare these histories All of this takes place within an increasingly diverse historical culture Simple notions of history as a top down process are refuted as the role of the consumers and the use which they make of the individual histories is highlighted
