Bison and People on the North American Great Plains Geoff Cunfer,Bill Waiser,2016-10-25 The near disappearance of the American bison in the nineteenth century is commonly understood to be the result of over hunting capitalist greed and all but

genocidal military policy This interpretation remains seductive because of its simplicity there are villains and victims in this familiar cautionary tale of the American frontier But as this volume of groundbreaking scholarship shows the story of the bison s demise is actually quite nuanced *Bison and People on the North American Great Plains* brings together voices from several disciplines to offer new insights on the relationship between humans and animals that approached extinction The essays here transcend the border between the United States and Canada to provide a continental context Contributors include historians archaeologists anthropologists paleontologists and Native American perspectives This book explores the deep past and examines the latest knowledge on bison anatomy and physiology how bison responded to climate change especially drought and early bison hunters and pre contact trade It also focuses on the era of European contact in particular the arrival of the horse and some of the first known instances of over hunting By the nineteenth century bison reached a tipping point as a result of new tanning practices an early attempt at protective legislation and ventures to introducing cattle as a replacement stock The book concludes with a Lakota perspective featuring new ethnohistorical research *Bison and People on the North American Great Plains* is a major contribution to environmental history western history and the growing field of transnational history [“Strong Men of the Regiment Sobbed Like Children”](#) John Michael Priest, 2024-06-30 The fighting on the first day at Gettysburg on July 1 1863 was unexpected heavy confusing and in many ways decisive Much of it consisted of short and often separate simultaneous engagements or firefights a term soldiers often use to describe close vicious and bloody combat Several books have studied this important inaugural day of Gettysburg but none have done so from the perspective of the rank and file of both armies John Michael Priest s *Strong Men of the Regiment Sobbed Like Children* John Reynolds I Corps at Gettysburg on July 1 1863 rectifies this oversight in splendid style When dawn broke on July 1 no one on either side could have conceived what was about to take place Anticipating a fight and with a keen appreciation for terrain Brig Gen John Buford deployed his Union cavalry in a giant arc north and west of Gettysburg to slow down any Confederate advance until Maj Gen John Reynolds could bring up his infantry By the time the foot soldiers of the I Corps arrived A P Hill s heavy Confederate formations had pushed back the troopers from the west Richard Ewell s troops would soon arrive from the north threatening the town and its key road network Reynolds who would die early in the fighting poured his troops in as they arrived The road system and undulating ground broke up command control and the various ridges tall ground cover and powder smoke made target recognition difficult Brigades and regiments often engaged on their own initiatives without the direction of a division or corps commander The men of both armies fought with determination born of desperation valor and fear By the time the fighting ended the I Corps was in shambles and in pell mell retreat for Cemetery Hill Its bold stand together with the XI Corps north of town bought precious hours for the rest of the Army of the Potomac to arrive and occupy good defensive ground Priest who Edwin Bearss hailed as the Ernie Pyle of the Civil War spent a decade researching this study and walking the ground to immerse readers into the uncertain world of the rank and file
