## **Hong Kong Management Cases In Hotel Management Management Development Series:**

**Hong Kong Management Cases in Hotel Management** Management Development Centre of Hong Kong, 1996 Until recently very few case books are written about Hong Kong's hotel management. Most case books have drawn their materials from North America and Europe. There are very few which reflect the local situation familiar to readers in Hong Kong. To remedy this situation the Case Clearing House of Hong Kong encouraged local authors to write cases based on true to life Hong Kong situations. Managers in the hospitality industry will find the situations presented in the book similar to those they face in their work and will be able to learn from the discussions of the cases presented. Students will find the cases a useful means of enhancing their understanding of hospitality management practice in Hong Kong. *Hong Kong Management Cases in Information Systems Management*, 1996 *Hong Kong Cases in Human Resources Management*, 1998 Until recently few case books have been written about human resources management in Hong Kong. To address this situation the Case Clearing House of Hong Kong has encouraged local authors to write cases based on true to life Hong Kong situations. In this volume eighteen cases are selected from the library of the Case Clearing House. Areas covered include introduction to human resources management, human resources planning, staffing, orientation and placement, management and development, compensation and benefits, employee management and occupational safety. Managers in the human resources related industry will find the situations presented in the book similar to those they face in their work and will be able to learn from the discussions of the cases presented. Students will find the cases a valuable means of developing their understanding of human resources practice in Hong Kong. The book will also benefit trainers who will be able to make use of the cases on training programmes. **Business English and Communication** Moira Sambey, 1999 The book begins with the basics of communication and sentence structure in English and leads the reader step by step through to the formal report writing and public speaking with the aim of improving the reader's speaking, listening, reading and writing skills essential in today's global business world.
