Hopper Drawings:

Hopper Drawings Edward Hopper, 1989-01-01 Edward Hopper holds an important place in twentieth century American art. In his scenes of urban and rural life, canvases that reveal his rare, highly focused technical accomplishment and his deep psychological penetration, he created indelible images that often convey the loneliness of persons within their environment. Highly individual, instantly recognizable, his works are among the most esteemed in collections of American art. The Whitney Museum of American Art is the biggest repository of works by Edward Hopper. In its collection are a large number of Hopper drawings, powerful works that teach us not only about Hopper's technique and vision but also about the art of drawing itself. This book presents 44 major Hopper drawings executed in crayon, charcoal, pencil, and other primarily monochromatic media, most of them reproduced directly from originals in the museum's collection. Some of these compelling works are studies for paintings. Many reveal familiar Hopper territory: Manhattan streets, a lighthouse on the Atlantic seacoast, the rural Northeast, and more. This inexpensive edition offers a wonderful opportunity for artists and art lovers to study the unique range and evocative power of Hopper's draftsmanship. Those mastering and refining their drawing skills will discover in these pages a rich source of inspiration and instruction. Dover, 1989, original publication. *Hopper Drawing*, Carter E. Edward and Jo Hopper first discovered Vermont in 1927, making day trips from the Whitney Studio Club's summer retreat for New York artists in Charlestown, New Hampshire. In 1935 and 1936, the Hoppers again traveled to Vermont, this time from their summer home in Cape Cod. In Edward's continuing search for new places to paint, during these quests they identified the White River and what Edward considered to be Vermont's finest river valley, and they returned there for longer visits in 1937 and 1938, boarding at Robert and Irene Slater's Wagon Wheels farm in South Royalton. These vacations were a change from the usual tempo of their lives: a break from the studio-bound easels, canvas, and oils, and an opportunity to paint something different, to be in a new place and paint en plein air. Over the course of his Vermont sojourns, Edward Hopper produced some two dozen paintings, watercolors that are among the most distinctive of his regional works, strongly characterized by place. In this accessible volume, Bonnie Tocher Clause tells the story of the Hoppers' visits to Vermont, their stays on the Slater farm, and their introduction to farm life. She locates the sites shown in Hopper's Vermont paintings, identifies two watercolors not previously recognized as Vermont scenes, and traces the development of Hopper's singular interpretations of the Vermont landscape. In *Edward Hopper in Vermont*, Clause details the provenance of the Vermont paintings through the years, tracking the history of sales.
