Chalk,1996-09-18 The book examines the dynamic of West European terrorism and counter terrorism as it has evolved since the late 1960s It assesses past present and future terrorist trends and analyzes the internal security policies that have been initiated by the member states of the European Union EU both singularly and collectively to combat terrorism in Western Europe Throughout the book the theme of liberal democratic legitimacy and accountability is stressed something that is brought particularly to bear on the latest EU internal security provision the Maastricht Third Pillar    **Europe's Red Terrorists** Yonah Alexander,Dennis A. Pluchinsky,2012-11-12 This unique volume explores Europe s most dangerous communist terrorist organizations and reveals how they use violence as a means of political communication and persuasion It outlines seven terrorist groups from Germany Greece Spain France Belgium Italy and Turkey and gives their modus operandi rationale and political messages in translated communiqu s never before available in English    *Europe's Last Red Terrorists* George Kassimeris,2001-12 Since the 1970s Europe s last Marxist Leninist terroriststhe Greek Revolutionary Organization 17 November have waged a violent campaign against US and NATO personnel Turkish diplomats and members of the Greeks military and business elite In May 2000 they assassinated a top British diplomat in Athens in a daring daylight attack Yet no one suspected of belonging to the organization let alone of being involved in its terror campaign has ever been arrested This is the first book to deal with revolutionary terrorism in Greece Tracing the history of 17 November Kassimeris demonstrates how it has persevered with a one dimensional view of a world peopled by heroes and villains that has precluded the emergence of a coherent ideology Combining fanatical nationalism contempt for the existing order and the cult of violence for its own sake 17 November has stubbornly refused to accept that

its eclectic belief system is incompatible with modern democratic principles Unlike Italy s Red Brigades or Germany s Red Army Faction which both assailed the capitalist state and its agents 17 November hopes to create an insurrectionary mood that will propel the Greeks into revolutionary political action without disrupting society as a whole As such 17 November s terror campaign has been an audacious protest aimed at discrediting and humiliating the Greek establishment and the US government but one that has never sought to develop widespread revolutionary guerrilla warfare    <u>Military Review</u> ,1994

     Coalitions Between Terrorist Organizations Ely Karmon,2005-06-01 This volume proposes some theories on the conditions that favor the formation of coalitions between terrorist organizations and how they function within the changing international system These theories are tested against empirical data on actual cooperation between European and Palestinian terrorist organizations from 1968 to 1990 and cooperation between European left wing terrorist organizations the phenomenon known as Euro terrorism from 1984 to 1988 These findings form the basis of a broader theory concerning cooperation and coalitions between organizations involved in international terrorism Finally an attempt is made to verify whether the new terrorist players driven at least theoretically by religious motivation will imitate the behavior of the ideological or nationalist organizations and to test whether the theories concerning cooperation and coalitions developed in this volume apply to the new reality      *The American Bibliography of Slavic and East European Studies* Patt Leonard,Rebecca Routh,2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology      Terrorists' Target Selection C.
