Readjusting the Council Presidency Peter Bursens, Steven Van Hecke, 2011 In 2009 the Lisbon Treaty became effective within the European Union substantially changing the existing institution through its amendments and this book investigates how the rotating presidency is affected by the Lisbon Treaty and how the Belgian presidency the first under the new rule book has implemented changes for the 21st century It shows that Belgium has created a new style of rotating presidency going back to the basics of chairing the Council while adjusting to its new political and institutional environment and setting precedents for the future This examination will appeal to students and scholars of European Union politics well beyond the Member States

The European Council and European Governance François Foret, Yann-Sven Rittelmeyer, 2013-12-04 In recent years the failure of the constitutional process the difficult ratification and implementation of the Lisbon Treaty as well as the several crises affecting Europe have revitalized the debate on the nature of the European polity and the balance of powers in Brussels This book explains the redistribution of power in the post Lisbon EU with a focus on the European Council Reform of institutions and the creation of new political functions at the top of the European Union have raised fresh questions about leadership and accountability This book argues that the European Union exhibits a political order with hierarchies mechanisms of domination and legitimating narratives As such it can be understood by analysing what happens at its summit Taking the European Council as the nexus of European political governance contributors consider council and rotating presidencies co operation rivalry and opposition The book combines approaches through events processes and political structures issues and the biographical trajectories of actors and explores how the founding compromise of European integration between sovereignty and supranationality is affected by the evolving nature of this new European political model which aims to combine cooperation and integration The European Council and European Governance will be of strong interest to students and scholars of European studies political science political sociology public policy and international relations

Towards A New Executive Order In Europe? Deirdre Curtin, Morten Egeberg, 2013-09-13 The executive branch of government in Europe is being gradually transformed in several significant respects First executive power has been continuously strengthened at the EU level in the form of the European Commission EU level agencies and diplomatic and military staff in the Union Council secretariat Second EU executive bodies relate directly to regulatory authorities at the national level in charge of applying and partly preparing EU laws and programmes partly circumventing ministerial departments Thus parts of national administrations become parts of an integrated and multi level Union administration as well as parts of national executives Such a system with multiple political masters raises delicate questions about political steering and accountability This book focuses on this fascinating development both from a political science and a legal perspective encompassing the consolidation of the supranational executive as well as its relationships with its partners at the national level This book was published as a special issue of West European Politics
