European Misunderstanding:

European Misunderstanding André Gauron, 2000 An advisor to Lionel Jospin this author paints a picture of the messy march toward a unified Europe and calls for a more representative system starting with a Constitution for all of Europe

Making Sense of the European Union Richard McMahon, Hongsong Liu, 2024-12-18 This book explores how different Chinese social groups portray or discuss the European Union The authors engage with issues such as trade populism EU crises systemic rivalry and the Chinese media's representation of European integration and Brexit They use qualitative quantitative and mixed methods empirical research to show that despite China's authoritarian political system social actors construct complex representations of the EU that may influence government policy Rather than dismissing Chinese scholars as little more than state agents one can benefit from their unique insights by analysing the prisms through which they view the world In doing so Western scholars can better understand the distinct institutional and cultural traditions that filter their own views of China

The History of European Integration Ivan T. Berend, 2016-05-20 The foundation of the European Union was one of the most important historical events in the second half of the 20th century In order to fully appreciate the modern state of the EU it is crucial to understand the history of European integration This accessible overview differs from other studies in its focus on the major roles played by both the United States and European multinational corporations in the development of the European Union Chronologically written and drawing on new findings from two major archives the archives of the US State Department and Archive of European Integration this book sheds crucial new light on the integration process The History of European Integration offers a major contribution to our understanding of Europe's postwar history and will be essential reading for any student of postwar European History Contemporary History European Politics and European Studies

The Temptation of Innocence Pascal Bruckner, 2000 A handbook on how to live right and an antidote for today's Prozac society the book decries today's evasions and prevarications the poor little me mentality that allows us to cop out when we should be taking responsibility for shaping our lives

Re-founding the World Jean-Claude Guillebaud, 2001 Is it time to dump Western capitalism's values Or on the contrary to re-found our market based society by dumping its distortions and returning to the fundamental values of our Greek Judeo-Christian heritage

Deconstructing Pierre Bourdieu Jeannine Verdès-Leroux, 2007 French sociologist Pierre Bourdieu stands for the European form of Clinton style big government spending World famous in sociology and philosophy circles he has been untouchable until now Author Verdès-Leroux paints a highly charged portrait denouncing his militancy hypocrisy elitism and shallowness Witty sharp and rigorous the author gives ammunition against Clinton style mumbo jumbo If you hate Clinton you will love this book

Journey To The Heart Of Cuba Carlos Alberto Montaner, 2001 This is the story of the Cuban Revolution and what caused it the psychology of its protagonists and a critical assessment of its results by a Cuban born journalist author and professor residing in Spain In a disquieting epilogue the author dares to

French Connections Sophie

Coignard, Marie-Thérèse Guichard, 2000 To write this secret history the authors questioned participants and observers of arcane groups in every milieu and every class in France From the mountain red necks to the brotherhood of the Mediterranean Coast from the Charente clan to the new capitalists club they lift the veil from all these subterranean understandings that glue together society

Advisory Commission on Information, 1957 **How European Citizens Understand the Economy** Dorian Alt, 2023-06-02 This book argues that the European public sphere functions to help citizens understand complex economic issues and discuss them meaningfully across borders Through original research conducted on citizens perceptions of European economic issues it explores a mechanism that allows people to make sense of such complex issues national anchoring and shows that the way issues are politicized today in a national public sphere will shape citizens understandings of novel issues tomorrow The book demonstrates that debates in the European public sphere spread knowledge to the population just as national debates do thus allowing transnational deliberation to function in the EU and potentially advance a European identity The book thus draws optimistic conclusions with regard to EU legitimacy with the European public sphere functioning rather well and problems of complexity and compatibility seeming less pronounced than often expected in public opinion research and European studies This book will be of key interest to scholars and students of public opinion European studies political attitudes austerity politics and more broadly to political science sociology and social psychology

The first referendum Lindsay AQUI, 2020-08-04 Although the United Kingdom s entry to the European Community EC in 1973 was initially celebrated by the end of the first year the mood in the UK had changed from

hope to uncertainty When Edward Heath lost the 1974 General Election Harold Wilson returned to No 10 promising a fundamental renegotiation and referendum on EC membership By the end of the first year of membership 67% of voters had said yes to Europe in the UK's first ever national referendum Examining the relationship between diplomacy and domestic debate this book explores the continuities between the European policies pursued by Heath and Wilson in this period Despite the majority vote in favour of maintaining membership Lindsay Aquiri argues that this majority was underpinned by a degree of uncertainty and that ultimately neither Heath nor Wilson managed to transform the UK's relationship with the EC in the ways they had hoped possible

Ethiopian Warriorhood Tsehai Berhane-Selassie, 2018 The history of the often overlooked Chewa Ethiopian warriors and their crucial role in defending their homeland against invasion as well as their strong influence on political identity and the social infrastructure

America and Its Critics Sergio Fabbrini, 2008-09-15 No other country in the world evokes such contrasting sentiments as the United States of America This is not new but it has become particularly virulent in recent years The reason is simple after the end of the cold war America has remained the only super power in the world Or rather it has become a veritable hyper power without apparent limits to the exercise of its power The fate of the world lies in large part in its hands This book analyses the most widespread criticisms of American democracy namely that it is plebiscitary devoid of voters unduly favours the rich and imperial It shows that these criticisms fail to hit the mark Yet even if its vices are fewer and different from what its critics often claim American democracy cannot be read as an exemplary catalogue of virtues as its apologists would have it Resting on contradictions rather than coherence American democracy cannot be seen as a model and even less as an ideology Rather it should be understood as a method Clearing away the misunderstandings and prejudices that cloud contemporary debates about America this book brings out with exceptional clarity the strengths as well as the weaknesses of the American democratic experience In a century when no country can hope to escape from the influence of American power it is vital to understand both
