Book Markets in Mediterranean Europe and Latin America

Montserrat Cachero, Natalia Maillard-Álvarez, 2023-01-19 This book depicts the Early Modern book markets in Europe and colonial Latin America The nature of book production and distribution in this period resulted in the development of a truly international market The integration of the book market was facilitated by networks of printers and booksellers who were responsible for the connection of distant places as well as local producers and merchants At the same time due to the particular nature of books

political and religious institutions intervened in book markets Printers and booksellers lived in a politically fragmented world where religious boundaries often shifted This book explores both the development of commercial networks as well as how the changing institutional settings shaped relationships in the book market Between Europeanization and Local Societies Jeanie J. Bukowski, Simona Piattoni, Marc E. Smyrl, 2003 The contributors of this thoughtful book explore the role and influence of political leadership through a rigorous comparative analysis of regional level dynamics in Europe Visit our website for sample chapters **European Political Institutions**, 1962 The Political Economy of Integration Jeffrey W. Cason, 2010-10-04 This book assesses South America's most ambitious attempt at economic integration Mercosur It explains the main and inherent weaknesses of the integration effort through explicit comparison with the European experience with integration Jeffrey Cason argues that the three main reasons for Mercosur's limited success are weak domestic political institutions in the member countries vulnerability in the global political economy and a serious imbalance in the economic and political weight of the member countries In addition to providing this overarching explanation for Mercosur's limitations the book tells the story of Mercosur's genesis development and frustrations This book provides both an explanatory framework for understanding Mercosur and a story It considers how Mercosur emerged why it was greeted with great enthusiasm and huge trade growth and how it hit stumbling blocks as it sought to be more than it was capable of being The book also focuses on how and why developing countries are inherently limited in any economic integration project
