European Right A Historical Profile

Hans Rogger

European Right A Historical Profile:

The European Right Hans Rogger,1965 **The European Right** Hans Rogger,1965 *The European Right* Hans Rogger,Eugen Joseph Weber,1965 *The European Right, a Historical Profile* Hans ROGGER (and WEBER (Eugen Joseph)),1965 *Fascists and Conservatives* Martin Blinkhorn,1990 In this fascinating text thirteen leading authorities on the European right examine the complex relationship between the radical and the conservative in twentieth century Europe exploring the theme across a broad range of European countries **Fascism** Walter Laqueur,1978 *The Oxford Handbook of European History, 1914-1945* Nicholas Doumanis,2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today [The European right ; a historical profile by Hans Rogger and Eugen Weber](#) Hans Rogger,1966 [Encyclopedia of Historians and Historical Writing](#) Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Europe 1880-1945 J.M. Roberts,2013-09-13 Suitable for 19th and 20th century Europe modern Europe undergraduate courses This well established and immensely successful book provides a standard introduction to the subject by one of Britain s most popular historians Social economic and social history are skillfully integrated within a framework of political narrative history [The Social Basis of European Fascist Movements](#) Detlef Mühlberger,2015-10-16 Between 1919 and 1945 most

countries in Europe spawned some form of fascism. Some have become considerably more notorious than others. This book, first published in 1987, sets out to analyse the social forces that went into the making of the fascist parties of the major European countries and to show the similarities and differences in their constitution as well as to suggest reasons for their different degrees of penetration and success. Few books have surveyed the whole field; the team of contributors engaged in the present enterprise offer a systematic and thorough survey of the social characteristics of European fascist movements, a subject of central importance to social and political history.

The Civic Foundations of Fascism in Europe Dylan Riley, 2019-01-29. A historical look at the emergence of fascism in Europe. Drawing on a Gramscian theoretical perspective and development, a systematic comparative approach. The Civic Foundations of Fascism in Europe: Italy, Spain, and Romania, 1870-1945. Challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes, just like mass democracies, depended on well-organized rather than weak and atomized civil societies. In making this argument, the book focuses on three crucial cases of interwar authoritarianism: Italy, Spain, and Romania, selected because they are all counterintuitive from the perspective of established explanations while usefully demonstrating the range of fascist outcomes in interwar Europe. Civic Foundations argues that in all three cases, fascism emerged because of the rapid development of voluntary associations combined with weakly developed political parties among the dominant class, thus creating a crisis of hegemony. Riley then traces the specific form that this crisis took depending on the form of civil society development: autonomous as in Italy, elite-dominated as in Spain, or state-dominated as in Romania in the nineteenth century.

Modern Europe, 1789-Present Asa Briggs, Patricia Clavin, 2014-06-06. Now covering the whole of Europe from the French Revolution to the present day, this major new edition has been completely revised and brought up to date. The approach embraces the whole continent from both national and regional perspectives and combines political survey with grass roots people history. Bringing this history vividly to life, the authors use a very broad range of sources including memoirs, archives, letters, songs, and newspapers. In particular, there is new treatment of the following themes: Religion and the modern Papacy; Immigration in Europe and relationships between minority and majority groups; UNESCO; The European Bill of Rights; The seeds of conflict in Bosnia and Croatia; Europe's relations with the wider world, with particular attention to the Middle East and Japan.

Development of Class Structure in Eastern Europe Aleksander Gella, 1989-01-01. Emphasizing the development of class structure, this book is the first in English to describe the historical and social development of Poland, Czechoslovakia, Hungary, and Romania from medieval feudalism to modern capitalism. Historically, these countries have maintained mostly peaceful relations among themselves in the past and now share the common characteristic of being Soviet satellites. The author has devoted particular attention to Poland because of its unique political system as well as its greater size, population, and cultural influence. The book is divided into three sections: part one reviews the early history and social structure of each country; part two provides a sociological analysis of social classes and their evolution over centuries; and part three examines

the effect that World War II has had on these social classes *Origins of Political Extremism* Manus I. Midlarsky, 2011-03-17

Political extremism is one of the most pernicious destructive and nihilistic forms of human expression During the twentieth century in excess of 100 million people had their lives taken from them as the result of extremist violence In this wide ranging book Manus I Midlarsky suggests that ephemeral gains together with mortality salience form basic explanations for the origins of political extremism and constitute a theoretical framework that also explains later mass violence Midlarsky applies his framework to multiple forms of political extremism including the rise of Italian Hungarian and Romanian fascism Nazism radical Islamism and Soviet Chinese and Cambodian communism Other applications include a rampaging military Japan Pakistan Indonesia and extreme nationalism in Serbia Croatia the Ottoman Empire and Rwanda Polish anti Semitism after World War II and the rise of separatist violence in Sri Lanka are also examined **Nationalism and Territory** George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war World Fascism Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale World Fascism A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal

Eastern Europe Sabrina P. Ramet, 1998 Eastern Europe addresses the emergence of uncertain pluralism in the region following the disintegration of the communist regimes in 1989 Taking a broad historical approach the volume considers

issues and challenges that have marked Eastern Europe from 1939 through World War II and the era of socialism up to the present Eight comprehensive country studies are augmented by detailed assessments of economic developments security issues religious currents cultural policies and gender relations in the region

America Right or Wrong : An Anatomy of American Nationalism Anatol Lieven Senior Associate for Foreign and Security Policy Carnegie Endowment for International Peace, 2004-10-15 America keeps a fine house Anatol Lieven writes but in its cellar there lives a demon whose name is nationalism In this controversial critique of America's role in the world Lieven contends that U S foreign policy since 9 11 has been shaped by the special character of our national identity which embraces two contradictory features One The American Creed is a civic nationalism which espouses liberty democracy and the rule of law It is our greatest legacy to the world But our almost religious belief in the Creed creates a tendency toward a dangerously messianic element in American nationalism the desire to extend American values and American democracy to the whole world irrespective of the needs and desires of others The other feature populist or what is sometimes called Jacksonian nationalism has its roots in an aggrieved embittered and defensive White America centered largely in the American South Where the Creed is optimistic and triumphalist Jacksonian nationalism is fed by a profound pessimism and a sense of personal social religious and sectional defeat Lieven examines how these two antithetical impulses have played out in recent US policy especially in the Middle East and in the nature of U S support for Israel He suggests that in this region the uneasy combination of policies based on two contradictory traditions have gravely undermined U S credibility and complicated the war against terrorism It has never been more vital that Americans understand our national character This hard hitting critique directs a spotlight on the American political soul and on the curious mixture of chauvinism and idealism that has driven the Bush administration

Outcast Europe: The Balkans, 1789-1989 Tom Gallagher, 2013-11-14 Examining two centuries of Balkan politics from the emergence of nationalism to the retreat of Communist power in 1989 this is the first book to systematically argue that many of the region's problems are external in origin A decade of instability in the Balkan states of southeast Europe has given the region one of the worst images in world politics The Balkans has become synonymous with chaos and extremism Balkanization meaning conflict arising from the fragmentation of political power is a condition feared across the globe This new text assesses the key issues of Balkan politics showing how the development of exclusive nationalism has prevented the region's human and material resources from being harnessed in a constructive way It argues that the proximity of the Balkans to the great powers is the main reason for instability and decline Britain Russia Austria Hungary France and finally the USA had conflicting ambitions and interests in the region Russia had imperial designs before and after the 1917 Revolution The Western powers sometimes tolerated these or encouraged undemocratic local forces to exercise control in order to block further Soviet expansion Leading authority Tom Gallagher examines the origins of these Western prejudices towards the Balkans tracing the damaging effects of policies based on Western lethargy and cynicism and reassesses the negative image

of the region its citizens their leadership skills and their potential to overcome crucial problems

Thank you definitely much for downloading **European Right A Historical Profile**. Maybe you have knowledge that, people have seen numerous times for their favorite books gone this European Right A Historical Profile, but stop stirring in harmful downloads.

Rather than enjoying a good book like a cup of coffee in the afternoon, then again they juggled when some harmful virus inside their computer. **European Right A Historical Profile** is easy to use in our digital library as an online entry to it is set as public correspondingly you can download it instantly. Our digital library saves in multiple countries, allowing you to get the most less latency era to download any of our books taking into account this one. Merely said, the European Right A Historical Profile is universally compatible after any devices to read.
