## Evacuees Journey:

*The evacuee girl's centennial journey* Risto Pönö, 2025-05-30 As if from one mouth without prior agreement and spontaneously the song In the Villages of Karelia echoed into the air For each bus passenger from their home region the song meant their own intimate memory of their childhood home and family its fields and pastures Still now sung together it also meant an inseparable sense of community Ladoga Karelianism What is the secret to longevity It is a question that is most often posed to 100 year olds It is difficult to give an explanation based solely on historical background and the experiences of siblings or one's parents Early youth and adulthood ruined by war and the deprivation of one's roots from the soil of lost Karelia for the Soviet Union could not have been a safe starting point for a long life Finns born in 1925 were the youngest entire generation that had to bear the responsibility that adults had been given for defending Finland both on the war and home fronts This biography explores the survival story of one representative of that generation from the war years to the present day

*Britain's Wartime Evacuees* Gillian Mawson, 2016-11-30 With the declaration of war in September 1939 the Government Evacuation Scheme was implemented in which almost one and a half million civilians mostly children were evacuated from the British cities thought most likely to be the targets of aerial bombing The fear of invasion the following year resulted in another mass evacuation from the coastal towns Hundreds of thousands of school children and mothers with babies and infants were removed from their homes and families and sent to live with strangers in distant rural areas and to entirely unfamiliar environments Some children were also sent to countries of the Commonwealth such as Canada and Australia The evacuations had an enormous impact upon millions of individuals both those that were evacuated and those that had to accommodate and care for the displaced multitude Over the course of eight years research Gillian Mawson has interviewed hundreds of evacuees from England Northern Ireland Scotland and Wales Families have also allowed her access to the testimony of those who have passed away Coupled with the extensive newspaper coverage of the day and official documents Britains Wartime Evacuees provides not just a comprehensive study of the evacuations but also relates some of the most moving and emotive stories of the Second World War

**World War Zoos** John M. Kinder, 2025-04-22 A new and heartbreaking history of World War II as told through the shocking experiences of zoos across the globe As Europe lurched into war in 1939

zookeepers started killing their animals On September 1 as German forces invaded Poland Warsaw began with its reptiles Two days later workers at the London Zoo launched a similar spree dispatching six alligators seven iguanas sixteen southern anacondas six Indian fruit bats a fishing cat a binturong a Siberian tiger five magpies an Alexandrine parakeet two bullfrogs three lion cubs a cheetah four wolves and a manatee over the next few months Zoos worldwide did the same The reasons were many but the pattern was clear The war that was about to kill so many people started by killing so many animals Why And how did zoos nevertheless not just survive the war but play a key role in how people did too A harrowing yet surprisingly uplifting chronicle Kinder s World War Zoos traces how zoos survived the deadliest decades of global history from the Great Depression through the terrors of World War II to the dawn of the Cold War More than anything before or since World War II represented an existential threat to the world s zoological institutions Some zoos were bombed others bore the indignities of foreign occupation Even zoos that were spared had to wrestle with questions rarely asked in public What should they do when supplies ran low Which animals should be killed to protect the lives of others And how could zoos justify keeping dangerous animals that might escape and run wild during an aerial attack Zoos in wartime reveal the shared vulnerabilities of humans and animals during periods of social unrest and environmental peril World War II era zoos offered people ways to think about and grapple with imprisonment powerlessness and degradation Viewed today the story of zoos during World War II can be read as an allegory of twenty first century crises as the effects of climate change threaten all life across the planet A one of a kind history World War Zoos is the story of how the world s zoos survived the deadliest conflict of the twentieth century and what was lost along the way
