The Secret History of Iran Hamad Subani,2013 Iran is an ancient place of extreme contrasts It is both blessed and cursed It is home to both Islam and anti Islam This book attempts to trace out the Secret History of Iran from 500 B C to present This book covers the various secret groups and cabals that continue to dominate Iran from the remnants of Mystery Babylon and the Sabaeans to crypto Byzantines Their little known role in the Mongol Invasion is investigated Connections between such groups and well known poets and intellectuals produced by Iran is methodically examined Under the little known Khwarezm Empire Iran served as the key to the Mongol destruction of the Islamic World Today Iran has once again been thrust into a similar position as the modern day Mongols encircle the Middle East What role will Iran play this time

The Shah Abbas Milani,2011-01-04 The definitive biography of the last Shah of Iran tracing his dramatic rise and fall and his role in the creation of the contemporary Islamic Republic Though his monarchy was toppled in 1979 and he died in 1980 the life of Mohammad Reza Shah Pahlevi the last Shah of Iran continues to resonate today Here internationally respected author Abbas Milani gives us the definitive biography more than ten years in the making of the monarch who shaped Iran s modern age and with it the contemporary politics of the Middle East The Shah s was a life filled with contradiction as a social reformer he built schools increased equality for women and greatly reduced the power of the Shia clergy He made Iran a global power courting Western leaders from Churchill to Carter and nationalized his country s many natural resources But he was deeply conflicted and insecure in his powerful role Intolerant of political dissent he was eventually overthrown by the very people whose loyalty he so desperately sought This comprehensive and gripping account shows us how Iran went from politically moderate monarchy to totalitarian Islamic republic Milani reveals the complex and sweeping road that would bring the U S and Iran to where they are today

The Rise and Fall of the Shah Amin Saikal,2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler s regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran s troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime s dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah s early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished

literature and interviews with officials in Iran Britain and the United States The Rise and Fall of the Shah critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran s past to its political present and future

Women And Revolution In Iran Guity Nashat,2021-11-28 Iranian women acquired greater legal social and economic opportunities during the past three decades than in any other period of history yet they participated in large numbers in the 1979 revolution to overthrow Shah Mohammad Reza Pahlavi Ironically they may have lost more than any other group from the changes introduced and stand to lose even more from changes contemplated by leaders of the current regime The role of women in the revolution the reasons for their participation and their subsequent fate are documented in this volume The authors examine the status of women in pre revolutionary society the ways in which their lives were affected by Islamic principles and the changes that occurred throughout the twentieth century as increasing numbers of women entered the labor force and public life They then turn to recent political events describing the participation of working class rural and educated women and activists from both the right and left Finally they consider the implications of recent government politics aimed at limiting women s activities outside the home and encouraging a return to more traditional roles

Land and Revolution in Iran, 1960-1980 Eric J. Hooglund,2014-07-03 Carried out by the government of the shah between 1962 and 1971 the Iranian land reform was one of the most ambitious such undertakings in modern Middle Eastern history Yet beneath apparent statistical success the actual accomplishments of the program in terms

of positive benefits for the peasantry were negligible. Later the resulting widespread discontent of thousands of Iranian villagers would contribute to the Shah's downfall. In the first major study of the effects of this widely publicized program, Eric Hooglund's analysis demonstrates that the primary motives behind the land reform were political. Attempting to supplant the near absolute authority of the landlord class over the countryside, the central government hoped to extend its own authority throughout rural Iran. While the Pahlavi government accomplished this goal, its failure to implement effective structural reform proved to be a long-term liability. Hooglund, who conducted field research in rural Iran throughout the 1970s and who witnessed the unfolding of the revolution from a small village, provides a careful description of the development of the land reform and of its effects on the main groups involved: landlords, peasants, local officials, merchants, and brokers. He shows how the continuing poverty in the countryside forced the migration of thousands of peasants to the cities, resulting in serious shortages of agricultural workers and an oversupply of unskilled urban labor. When the Shah's government was faced with mass opposition in the cities in 1978, not only did a disillusioned rural population fail to support the regime, but thousands of villagers participated in the protests that hastened the collapse of the monarchy.

The Making Of Iran's Islamic Revolution Mohsen M. Milani, 2018-03-09. In this fully revised and expanded second edition, Dr. Milani offers new insights into the causes and profound consequences of Iran's Islamic Revolution. Drawing on dozens of personal interviews with the officials of the Islamic Republic and on recently released documents, he presents a provocative analysis of the dynamics and characteristics of factional politics in Islamic Iran. Among the new issues covered are the events leading up to the Tehran hostage crisis, Ayatollah Khomeini's life and writings, President Rafsanjani's activities against the Shah, Rafsanjani's recent reforms, Iran's involvement in the Kuwaiti crisis, and the domestic and foreign policy challenges facing Iran in the post-Cold War era. The second edition is specifically revised for use as a text for courses dealing with Iran, the Middle East, and revolutionary movements.

The State and Revolution in Iran (RLE Iran D) Hossein Bashiriyeh, 2012-04-27. This book analyses the distant and proximate causes of the 1978 revolution in Iran, as well as the dynamics of power which it set in motion. The volume explains the complex and far-reaching processes which produced the revolution, beginning in the late nineteenth century. In explaining the more proximate causes of the revolution, the book analyses the nature of the old regime and its internal contradictions, the emergence of some fundamental conflicts of interest between the state and the upper class, the economic crisis of 1975-8 which made possible a revolutionary mass immobilisation, and the emergence of a new religious interpretation of political authority and the unusual spread of the ideology of political Islam among a segment of the modern intelligentsia. The volume relates the diverse aspects of class ideology and economic structure in order to provide an understanding of the political processes.

Agriculture, Poverty and Reform in Iran (RLE Iran D) Mohammad Amad, 2012-04-27. As in many

developing countries the prospects for land reform in Iran seemed promising It was expected to improve rural poverty and stimulate agricultural development by replacing the traditional landlord peasant system with more peasant biased modern farming This book assesses the economic consequences of land reform focusing particularly on its effect on the living standards of the rural poor Amid describes a bimodal system of large and small farms that emerged after the reform Large farms with government support modernized and grew more profitable cash crops whereas small farms found difficulty in obtaining credit and continued to rely on traditional techniques and staple food crops Land reform was not the author argues a success for the majority of the Iranian rural population who experienced virtually no improvement in living standards and a growth of rural inequality as a result *Autocracy, Modernization, and Revolution in Russia and Iran* Tim
