Irans Developing Military Capabilities:

Iran's Developing Military Capabilities Anthony H. Cordesman, 2005-05-06 Joint Force Quarterly, 2008 *Iran's Weapons of Mass Destruction* Anthony H. Cordesman, Khalid R. Al-Rodhan, 2006-06 **Iran's Nuclear Program** Farhad Rezaei, 2017-01-05 This book presents the first full and systematic account of Iran's nuclear program from 1979 to 2015. Throughout this time foreign policy makers, intelligence experts and scholars on the subject have repeatedly failed to understand the internal dynamics behind Iran's nuclear project and have underestimated the depth of the regime's commitment to develop nuclear weapons. The author presents an account of little understood episodes in the history of the nuclear project including an analysis of the decision making process of the nuclear sanctum. A full account is given of the organizations that ran the project and a listing of the suppliers that made the project possible. Finally the book offers a detailed analysis of the international sanctions placed on Iran including the induced anomie and legitimacy crisis which expedited the decision to rollback. *Iran, Israel, and the United States* Ofira Seliktar, Farhad Rezaei, 2018-06-20 This book analyzes the process of evaluating Iran's nuclear project and the efforts to roll it back resulting in the 2015 nuclear agreement known as the Joint Comprehensive Plan of Action (JCPOA). Despite its aura of scientific exactitude nuclear intelligence is complex and susceptible to methodological disagreements and political bias at the international oversight level, the International Atomic Energy Agency (IAEA) and within the countries involved in the rollback project: Israel and the United States. To highlight both the technological problems of assessing compliance and the politicization, each chapter in the book uses a real time comparison of the nuclear developments in Iran and the perception of Israel and the United States. This methodology yielded some significant results. Essentially two camps had formed in each country: those who were pushing for an agreement with Iran and those who opposed it. The Israeli intelligence agencies, the Mossad and the Military Intelligence, as well as the highly secretive Israeli Atomic Energy Commission (IAEC) which advised them, considered the program to be weak and slow moving. The right wing government of Benjamin Netanyahu suggested that Iran was steps away from the point of no return, making it an existential threat to Israel. A virtually identical split emerged in Washington. While the intelligence community and the advising scientists from the National Nuclear Laboratories considered Iran's progress to be relatively modest, the Republicans and the Israel lobby, the Jewish organizations and the Christian Zionists warned of the imminent danger of a nuclear Iran. With the Obama administration pushing for the JCPOA, a fierce debate took place in Congress. The Israeli intelligence and military chiefs, led by the Mossad chief Meir Dagan, which had previously blocked Netanyahu from a preemptive action, quietly supported the agreement. In Washington, the Israel lobby and the Republicans, helped by Netanyahu, mounted an all out effort to defeat the deal in Congress. The pro deal coalition fought back by mobilizing the scientific community, military and intelligence officials, the business lobby and grassroots Democrats. The JCPOA represents the first successful effort of peaceful counterproliferation. At the same time, excessive politicization has clouded its legitimacy and cast

doubt about its future **The Determinants and Evolution of Iran's Foreign Policy Toward The Gulf States in the Context of Iran Nuclear Negotiations** Aisha Khalid AL-Saad, 2020-08-11 This book explores the determinants of Iran's foreign policy towards its GCC neighboring countries. She considers the dimensions of internal and external as well as identity and nationalism. AL Saad aims to identify the strategic importance of Iran's nuclear program, the agreement with the major powers in 2015 and its impact on Iran's foreign policy. She then addresses possible future scenarios and implications of Iran's foreign policy towards the GCC region upon the US withdrawal from the Iranian nuclear deal **Showdown with Nuclear Iran** Michael D. Evans, 2009-07-20 Is the world ready for nuclear Jihad? Showdown with Nuclear Iran is a gripping and detailed exposé of Iran's relentless pursuit of atomic weapons and its apocalyptic goal of wiping Israel off the face of the earth. Michael D. Evans, who has been working in the Middle East for the last three decades, cuts through the official lies and deceptions of the Iranian government and reveals in terrifying detail how close the radical Islamic republic is to fulfilling its nuclear ambitions. How Iran's president believes he has a divine mission to destroy Israel and cripple the United States in a nuclear holocaust and what America must do to avert this global disaster. With the Middle East poised at the brink, Showdown with Nuclear Iran provides much needed perspective on the current crisis and the dire threat that a nuclear Iran poses to the existence of Israel and global stability. The most detailed account of the Iranian regime's determination policy and plan to acquire military nuclear capabilities. Mike Evans delves into the roots of the Iranian revolution and explores Iranian history to better understand a major challenge to the western world. He compellingly analyzes policy options for confronting this threat. Lt Gen Moshe Ya Alon, former Chief of Staff Israeli Defense Force Ebrahim Raisi's Iran Nikolai Hansen, 2025-01-17 Ebrahim Raisi's Iran offers a comprehensive analysis of Iran's dramatic political transformation under its eighth president, examining how his leadership marks a significant shift from moderate policies to a more assertive stance aligned with revolutionary principles. The book meticulously explores three interconnected themes: Raisi's power consolidation within Iran's complex political system, his economic vision amid international sanctions, and Iran's evolving diplomatic strategy in an increasingly multipolar world. Drawing from diplomatic cables, policy documents, and expert interviews, the book provides unprecedented insights into Iran's political structure and decision-making processes. Particularly noteworthy is its examination of Iran's strategic pivot toward stronger relationships with China and Russia while managing Western tensions over its nuclear program and sanctions resistance. The analysis demonstrates how Raisi's domestic governance directly influences Iran's international relations and regional stability in the Middle East. The book progresses logically from Raisi's rise to power through his economic policies and diplomatic initiatives, maintaining scholarly rigor while remaining accessible to general readers interested in Middle Eastern politics and international relations. By connecting political science, economics, and international relations, it offers a unique perspective on how religious authority intersects with modern governance systems and economic policy-making, making it an invaluable resource for policy makers, analysts, and informed readers seeking to

understand contemporary Iran's role in global geopolitics *The Rise of the Pasdaran* Frederic M. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad's words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats **Air Force Magazine**, 2006 Turkmenistan and Central Asia After Niyazov Stephen Blank, 2007 President Saparmurat Niyazov the all powerful leader of Turkmenistan suddenly died on December 21 2006 Because Central Asia is a cockpit of great power rivalry and a potential theater in the Global War on Terrorism no sooner had Niyazov died than the great powers were all in Turkmenistan seeking to influence its future policies away from the neutrality that had been Niyazov's policy Turkmenistan's importance lies almost exclusively in its large natural gas holdings and proximity to the Caspian Sea and Iran Because energy is regarded as a strategic asset as much if not more than as a mere lubricant or commodity Russia Iran China and the United States have all been visibly engaged in competition

for influence there The outcome of this competition and of the domestic struggle for power will have repercussions throughout Central Asia if not beyond The author shows the linkage between energy and security policies in Central Asia and in the policies of the major powers towards Central Asia Beyond this analysis he provides recommendations for U S policymakers as to how they should conduct themselves in this complex situation
