Multilingualism John Edwards, 2002-11-01 By looking at the effect of language difference rather than at theories of language John Edwards examines the interaction of language with nationalism politics history identity and education He illustrates his arguments with a rangew of examples from recent

Douglas Hyde Janet Egleson Dunleavy, Gareth W. Dunleavy, 1991-02-20 In 1938 at an age when most men are long retired Douglas Hyde 1860 1949 was elected first president of modern Ireland The unanimous choice of delegates from all political factions he was no stranger to public life or to fame Until now however there has been no full scale biography of this important historical and literary figure Known as a tireless nationalist Hyde attracted attention on both sides of the Atlantic from a very early age He was hailed by Yeats as a source of the Irish Literary Renaissance earned international recognition for his contributions to the theory and methodology of folklore joined Lady Gregory W B Yeats George Moore and Edward Martyn in shaping an Irish theater and as president of the Gaelic League worked for twenty two years on behalf of Irish Ireland Yet in spite of these and other accomplishments Hyde remained an enigmatic figure throughout his life Why did he become an Irish nationalist Why were his two terms as Irish Free State senator so curiously passive Why when he had threatened it earlier did he oppose the use of physical force in 1916 How did he nevertheless retain the support of his countrymen and the trust and friendship of such a man as Eamon de Valera Douglas Hyde A Maker of Modern Ireland dispels for the first time the myths and misinformation that have obscured the private life of this extraordinary scholar and statesman

Unity in Diversity, Volume 2 Julitta Rydlewska, 2014-08-11 This work investigates various markers of identity which if ignored may harm the development of the healthy identity of cultural groups at the cost of a progressively instable unity This is made clear when looking at various areas of linguistics particularly translation and socio linguistics but also when studying cultural and political developments This book therefore constitutes a rich repository for linguists especially of minority languages and specifically in translational studies and sociolinguistics and for scholars of cultural and political as well as literary studies

Medieval Celtic Literature Rachel Bromwich, 1974-12-15 The focus of this bibliography is the native literary tradition expressed in Irish and Welsh verse and prose from the earliest time to circa 1450 Priority is given to the most recent critical works and editions provided that they supersede previous ones however earlier scholarly work and critical editions of texts that are now regarded as classics are also included Because of the highly selective nature of this bibliography Rachel Bromwich includes only a few studies on early legal texts historical background ecclesiastical learning hagiography archaeology and art and

folklore The bibliography is divided into five chapters of which two are intended for newcomers to the field and list the more available works of reference and aids to language study The remaining three are devoted to literary history and criticism texts and translations and background material The more than 500 entries have been arranged to show the ways in which the medieval literature of Ireland and Wales pursue parallel courses In each chapter a general and comparative section is followed by sub sections dealing with Irish material including Cornish and Breton Within each of these sub sections individual items dealing with similar or closely related topics have been grouped together Since this work is intended primarily for students working in English the majority of the listings are in English but important works in Irish Welsh French and German are also cited

Wars of Words Tony Crowley, 2005-04-14 *Wars of Words* is the first comprehensive survey of the politics of language in Ireland during the colonial and post colonial periods Challenging received notions Tony Crowley presents a complex fascinating and often surprising history which has suffered greatly in the past from over simplification Beginning with Henry VIII's Act for English Order Habit and Language 1537 and ending with the Republic of Ireland's Official Languages Act 2003 and the introduction of language rights under the legislation proposed by the Northern Ireland Human Rights Commission 2004 this clear and accessible narrative follows the continuities and discontinuities of Irish history over the past five hundred years The major issues that have both united and divided Ireland are considered with regard to language including ethnicity cultural identity religion sovereignty propriety purity memory and authenticity But rather than simply presenting the accepted wisdom on many of the language debates this book re visits the material and considers previously little known evidence in order to offer new insights and to contest earlier accounts The materials range from colonial state papers to the writings of Irish revolutionaries from the work of Irish priest historians to contemporary loyalist politicians from Gaelic dictionaries to Ulster Scots poetry *Wars of Words* offers a reading of the crucial role language has played in Ireland's political history It concludes by arguing that the Belfast Agreement's recognition that languages are part of the cultural wealth of the island of Ireland will be central to the social development of the Republic and Northern Ireland The final chapter analyses the way in which contemporary poets have used Gaelic Hiberno English Ulster English and Ulster Scots as vehicles for the various voices that demand to be heard in the new societies on both sides of the border
