of the history of modern Ireland      **The Irish Garden** Peter Dale, 2018-10-30 Don't leave yet Let there be one more piece of magic to remember the place by Is there something especially Irish about Irish gardens The climate soils availability of plants and skills of green fingered people generate an unusually benign environment it's true but not one that is unique to Ireland Irish gardens tend to avoid magnificence in favour of a quiet and domesticated beauty but that is not peculiar to Ireland either Strains of Irishness run through these gardens like seams of ore Seen not just as zones of horticultural bravura but also as reflections of historical cultural political and religious events and values the gardens accrue an unusual richness of surface and depth of meaning Atmospherically illustrated by Brian Lalor The Irish Garden wanders into individual gardens rather than presenting a sweeping chronology This book is a rhapsody on themes of Irishness as if the spirit and soul of Ireland itself were sometimes more visible in these places than in the more conventionally visited locations of battlefields breweries and bars      **Irish Materialisms** Colleen Taylor, 2024 Irish Materialisms The Nonhuman and the Making of Colonial Ireland 1690-1830 is the first book to apply recent trends in new materialist criticism to Ireland It radically shifts familiar colonial stereotypes of the feminized racialized cottier according to the Irish peasantry's subversive entanglement with nonhuman materiality Each of the chapters engages a focused case study of an everyday object in colonial Ireland coins flax spinning wheels mud and pigs to examine how each object's unique materiality contributed to the colonial ideology of British paternalism and afforded creative Irish expression The main argument of Irish Materialisms is its methodology of reading literature through the agency of materiality and nonhuman narrative in order to gain a more egalitarian and varied understanding of colonial experience Irish Materialisms proves that new materialism holds powerful postcolonial potential Through an intimate understanding of the materiality Irish peasants handled on a daily basis this book presents a new portrait of Irish character that reflects greater empowerment resistance and expression in the oppressed Irish than has been previously recognized      **The Pursuit of the Heiress** A. P. W. Malcomson, 2006 The Pursuit of the Heiress is a new greatly enlarged and more widely focused version of what the late Lawrence Stone described as a brilliant long essay or short book on the subject of the role of heiresses among the Irish aristocracy which was published by the Ulster Historical Foundation under the same title in 1982 and has long been out of print The new book comes to the same broad conclusions about heiresses namely that their importance as a means of enlarging the estates or retrieving the fortunes of their husbands has been much exaggerated This was because known heiresses were well protected by a variety of legal devices and in common with many aristocratic women of the day also had minds and strong preferences of their own which meant that they were not generally an object of deliberate or profitable pursuit The new book also ranges more widely than its central theme of heiresses and addresses other aspects of aristocratic marriage such as abductions elopements mesalliances the supposed rise of the affective family and the disadvantaged situation of even the richest and most privileged women in an age when both adultery and divorce were largely the prerogative of men      **Irish London** Richard Kirkland, 2021-08-12 Winner of the

2022 British Association of Irish Studies BAIS Book Prize In the years following the Irish Famine 1845-52 London became one of the cities of Ireland The number of Irish in London swelled to over 100 000 and from this mass migration emerged a distinctive and vibrant culture based on a shared sense of history identity and experience In this book Richard Kirkland brings together elements in Irish London's culture and history that had previously only been understood separately or indeed largely overlooked as in the case of women's contributions to London Irish politics and culture In particular Kirkland makes resonant cultural connections between Irish and cockney performers in the music halls Irish trade fairs temperance marches the Fenian dynamite war of the 1880s St Patrick's Day events and the later cultural agitation of revivalists such as W B Yeats and Katharine Tynan Irish London A Cultural History 1850-1916 is both a significant contribution to our understanding of Irish emigrant communities in London at this time and an insightful case study for the comparative fields of cultural history and urban migration studies *The Cambridge Social History of Modern Ireland* Eugenio F. Biagini, Mary E.

Daly, 2017-04-27 Covering three centuries of unprecedented demographic and economic changes this textbook is an authoritative and comprehensive view of the shaping of Irish society at home and abroad from the famine of 1740 to the present day The first major work on the history of modern Ireland to adopt a social history perspective it focuses on the experiences and agency of Irish men women and children Catholics and Protestants and in the North South and the diaspora An international team of leading scholars survey key changes in population the economy occupations property ownership class and migration and also consider the interaction of the individual and the state through welfare education crime and policing Drawing on a wide range of disciplinary approaches and consistently setting Irish developments in a wider European and global context this is an invaluable resource for courses on modern Irish history and Irish studies *The Anglican Episcopate 1689-1800* Nigel Aston, William Gibson, 2023-03-15 The eighteenth century bishops of the Church of England and its sister communions had immense status and authority in both secular society and the Church They fully merit fresh examination in the light of recent scholarship and in this volume leading experts offer a comprehensive survey and assessment of all things episcopal between the Glorious Revolution of 1688 and the early nineteenth century These were centuries when the Anglican Church enjoyed exclusive establishment privileges across the British Isles apart from Scotland The essays collected here consider the appointment and promotion of bishops as well as their duties towards the monarch and in Parliament All were expected to display administrative skills some were scholarly others were interested in the fine arts most were married with families All of these themes are discussed and Wales Ireland Scotland and the American colonies receive specific examination
