Silent Order: Iron Hand Jonathan Moeller, 2017-09-28 The galaxy is at war but wars are won and lost in the shadows To the galaxy at large Jack March is a privateer of the interstellar Kingdom of Calaskar and a former Iron Hand commando of the malevolent Final Consciousness In truth he is an alpha operative of the Silent Order the most efficient and feared intelligence organization in human space When there is a crisis Jack March is the man to call But there are many forces that wish to enslave or destroy humanity And when a mission leads March to a lawless asteroid space station he might be the only one left to stop those forces

Ironhand Rabia Gale, It's not over yet Kato Vorsok closed the Gates and sealed in the enemies of all mankind Now he's stranded in the desert with a ragtag army of supernatural creatures far from home Keeping order and finding provisions are the extent of his problems Or so he thinks Deep in the salt an ancient demon from a mythic past stirs Once angels walked the world and battled such monsters but they've been gone a long time Now there's only Kato a reluctant hero with no illusions about himself and Flutter a woman turned demon who's falling apart They won the battle but will they lose the war and the whole world with it

Ironhand Charlie Fletcher, 2010-07-10 Now that George Chapman has upset the fragile truce between the warring statues of London he has been drawn into a war that will test his mettle He and Edie a glint who can see the past may have succeeded in their quest to find the Stoneheart but their journey is far from over Edie and the Gunner a statue of a World War I soldier have been captured by the Walker and it's up to George to save them But first he must deal with the three strange veins made of marble bronze and stone that have begun to grow out of his hand and curl around his wrist Legend has it that unless he successfully completes three challenges the veins will continue up his forearm and eventually pierce through his heart As George struggles to find the strength within to face the choice he has made to take the Hard Way he is determined to use his power for good even as others wish to harness it for its great potential for evil

Ironhand's Daughter David Gemmell, 2007-12-18 The armies of the Outlanders crushed the highlanders at the battle of Colden Moor killing their finest warriors and breaking their freeborn spirit The highlanders are

now a conquered people ruled by the brutal Baron Gottasson Prophecies speak of the coming of a new leader a descendent of Ironhand mightiest of the highland kings A leader who will throw off the Outlander yoke But only one highlander carries the blood of Ironhand Sigarni a wild and willful teenage girl who cares for nothing save her own concerns Until a fateful encounter thrusts her onto a path of rebellion Now hunted by the baron s soldiers and stalked by an evil sorcerer Sigarni will be forced to fulfill her destiny or perish **Stoneheart: Ironhand** Charlie Fletcher,2011-10-06 Edie said George we re going to do this together I ll be right there with you Anything anyone trying to get you is going to have to come past me first But when George makes his promise he is not aware that high on the rooftops an unseen gargoyle is watching them hungrily quivering with anticipation for the moment when it will unfold its stone wings and pounce The thing on the roof knows that nothing is over nothing is finished Ironhand takes us deeper into the layers of un London the place where the good and the bad statues the spits and the taints walk and war George and Edie must repay the debt which they owe the Gunner for his sacrifice They must face unspeakable danger and doubt if they are to save him This second title in the Stoneheart sequence by Charlie Fletcher will shake you with its imaginative grasp and vision It is an epic excitement not to be missed

Western Imperialism in the Middle East 1914-1958 D. K. Fieldhouse,2006-04-06 The term Fertile Crescent is commonly used as shorthand for the group of territories extending around the Rivers Tigris and Euphrates Here it is assumed to consist of Syria Lebanon Jordan Iraq and Palestine Much has been written on the history of these countries which were taken from the Ottoman empire after 1918 and became Mandates under the League of Nations For the most part the histories of these countries have been handled either individually or as part of the history of Britain or France In the first instance the emphasis has normally been on the development of nationalism and local resistance to alien control in a particular territory leading to the modern successor state In the second most studies have concentrated separately on how either France or Britain handled the great problems they inherited seldom comparing their strategies The aim of this book is to see the region as a whole and from both the European and indigenous points of view The central argument is that the mandate system failed in its stated purpose of establishing stable democratic states out of what had been provinces or parts of provinces within the Ottoman empire Rather it generated basically unstable polities and in the special case of Palestine one totally unresolved and possibly unsolvable conflict The result was to leave the Middle East as perhaps the most volatile part of the world in the later twentieth century and beyond The main purpose of the book is to examine why this was so

The Air Force Way of War Brian D. Laslie,2015-06-23 On December 18 1972 more than one hundred U S B 52 bombers flew over North Vietnam to initiate Operation Linebacker II During the next eleven days sixteen of these planes were shot down and another four suffered heavy damage These losses soon proved so devastating that Strategic Air Command was ordered to halt the bombing The U S Air Force s poor performance in this and other operations during Vietnam was partly due to the fact that they had trained their pilots according to methods devised during World War II and the Korean War when

strategic bombers attacking targets were expected to take heavy losses Warfare had changed by the 1960s but the USAF had not adapted Between 1972 and 1991 however the Air Force dramatically changed its doctrines and began to overhaul the way it trained pilots through the introduction of a groundbreaking new training program called Red Flag In The Air Force Way of War Brian D Laslie examines the revolution in pilot instruction that Red Flag brought about after Vietnam The program s new instruction methods were dubbed realistic because they prepared pilots for real life situations better than the simple cockpit simulations of the past and students gained proficiency on primary and secondary missions instead of superficially training for numerous possible scenarios In addition to discussing the program s methods Laslie analyzes the way its graduates actually functioned in combat during the 1980s and 90s in places such as Grenada Panama Libya and Iraq Military historians have traditionally emphasized the primacy of technological developments during this period and have overlooked the vital importance of advances in training but Laslie s unprecedented study of Red Flag addresses this oversight through its examination of the seminal program

Righteous Blood, Ruthless Blades Brendan Davis,Jeremy Bai,2020-12-10 Righteous Blood Ruthless Blades is a roleplaying game of dark adventure and heroic thrills inspired primarily by the wuxia stories of Gu Long Players assume the roles of eccentric heroes who solve mysteries avenge misdeeds uphold justice and demonstrate profound mastery of the martial arts Character creation is designed to produce fleshed out potent individuals who can follow several paths including those of the physician beggar assassin thief soldier bandit and more These characters inhabit a unique martial world or Jianghu set in a romanticized ancient China The towns temples and inns the characters can visit and the sects and factions with whom they interact will bring their own character to the game and provide a host of opportunities and threats The game is based on a

simple ten sided dice pool mechanic loosely modeled on the one found in Wandering Heroes of Ogre Gate and play is designed to be gritty suspenseful and fast so the focus remains on solving mysteries and roleplaying your character When combat does arise it is consequential and swift and often resolved in a single roll of the dice This rulebook includes a sample martial world and a starting adventure as well as guidelines for game masters looking to run wuxia games and create their own unique Jianghu rife with martial experts sects and mysterious locations **Excision** Jonathan Moeller, 2023-07-08 Jack March is an Alpha Operative of the Silent Order working in the shadows to defend the interstellar nation of Calaskar from its enemies Sent to the desert world of Antioch III March must stop a sinister plot that will trigger a civil war and kill millions Start with March himself **Jesus of Nazareth and Other Writings** Richard Wagner, 1995-01-01 Near the end of his life Richard Wagner supervised the publication of his collected writings providing an extensive view of his thoughts about art and politics from his youth to his final period of triumph After his death there was still more to be told his admirers discovered a large number of writings he had forgotten misplaced never published or had chosen to omit from his collected works This volume the last of eight volumes now reprinted by the University of Nebraska Press collects the most illuminating of those works The title work Jesus of Nazareth was written in 1848 or 1849 its composition coincided with the most widespread revolutionary ferment seen in Europe It expresses Wagner's own revolutionary ideals thoroughly justified or so he thought by Jesus and the early Church At the time Wagner considered Jesus as a revolutionary leader whose struggles with authority and traditions were much like his own The opening work is Siegfried's Death a poem written in 1848 that set the tone for his most famous operatic work the tetralogy Der Ring des Nibelungen Whole sections of the poem were later incorporated into the fourth Ring opera Gotterdammerung but the differences are as revealing as the carryover The essays that Wagner published in journals but saw fit to exclude from his *Gesammelte Schriften* might have embarrassed the elderly sage but are key documents to Wagner's activities in his revolutionary period For example his ardently prorevolutionary essay The Revolution would have displeased the wealthy patrons of his later years This edition includes the full text of volume 8 of the translation of Wagner's works published in 1899 for the London Wagner Society *British Nautical Melodramas, 1820-1850* Arnold Schmidt, 2019-06-25 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres with the same sentimental moments and comic interludes of domestic melodrama mixed with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver Goldsmith and Richard Brinsley Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little

scholarly attention but their value as reflections of Britain's promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from the original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined An extensive bibliography of primary and secondary texts a complete index and contemporary images of the actors theatres stage sets playbills costumes and locales have been compiled to aid study further The appendices include maps of Britain Europe and the East and West Indies
