Staircases James W. P. Campbell, Michael Tutton, 2013-11-07 The staircase dates back to the very beginning of architectural history Virtually every significant building from the ziggurats of ancient Mesopotamia to the present day has not only contained one or more staircases but has celebrated them For such an apparently simple part of a building they have been made in a bewildering variety of forms and from a wide range of materials Every age has sought to out perform the previous to produce ever more spectacular and gravity defying designs Staircases History Repair and Conservation is the first major reference volume devoted entirely to the understanding of staircases and the issues surrounding their repair and conservation Each chapter has been especially written by experts in their respective fields The book is essential reading for professionals and anyone with an interest in staircases It deals with the history dating archaeology surveying and recording engineering curating repair and conservation of the staircase in a single volume No other book offers such a wide range of detail The book is divided into three parts Part 1 covers the history development identification and dating of staircases providing detailed drawings and photographs and an introduction to the scientific techniques available to enable the

accurate dating of staircases Part 2 covers the design engineering and maintenance of the staircase giving a clear guide to the latest research into the design of safe staircases and their structural stability Part 3 focuses on the materials commonly used to make stairs detailing the appropriate techniques for their conservation and repair The result is a comprehensive study encompassing considerable and far reaching research which aims to inform our understanding and advance the scholarship of the subject for years to come *Iron Perry Fairfax Nursey,1830 Outlook ,1928 Architectural Building Construction Wr Jaggard,1937 The Builder ,1860 The Cases of Lord Peter Wimsey - Complete Series Dorothy L. extraordinary writer I have always admired his books They should be more widely read Saul Bellow Skipper an ex World War II naval Lieutenant and the narrator of Second Skin interweaves past and present what he refers to as his naked history in a series of episodes that tell the story of a volatile life marked by pitiful losses as well as a more elusive overwhelming joy The past the suicides of his father wife and daughter the murder of his son in law a brutal rape and subsequent mutiny at sea The present caring for his granddaughter on a northern island where he works as an artificial inseminator of cows and attempts to reclaim the innocence with which he faced the tragedies of his earlier life Combining unflinching descriptions of suffering with his sense of beauty Hawkes is a master of nimble and sensuous prose who makes the awful and mundane fantastic and occasionally makes the fantastic surreal
