Irony Space:

Viewpoint in Language Barbara Dancygier, Eve Sweetser, 2012-04-12 What makes us talk about viewpoint and perspective in linguistic analyses and in literary texts as well as in landscape art Is this shared vocabulary marking real connections between the disparate phenomena This volume argues that human cognition is not only rooted in the human body but also inherently viewpointed as a result consequently so are language and communication Dancygier and Sweetser bring together researchers who do not typically meet on common ground analysts of narrative and literary style linguists examining the uses of grammatical forms in signed and spoken languages and analysts of gesture accompanying speech Using models developed within cognitive linguistics the book uncovers surprising functional similarities across various communicative forms arguing for specific cognitive underpinnings of such correlations What emerges is a new understanding of the role and structure of viewpoint and a groundbreaking methodology for investigating communicative choices across various modalities and discourse contexts

Rooney, 2018-11-15 *Suburban Space the Novel and Australian Modernity* investigates the interaction between suburbs and suburbia in a century long series of Australian novels It puts the often trenchantly anti suburban rhetoric of fiction in dialogue with its evocative and imaginative rendering of suburban place and time *Suburban Space the Novel and Australian Modernity* rethinks existing cultural debates about suburbia in Australia and elsewhere by putting novelistic representations of suburbs suburban interiors homes streets forms and lives over time in dialogue with the often negative idea of suburbia in fiction as an amnesic and conformist cultural wasteland *Suburban space the novel and Australian modernity* shows in other words how Australian novels dramatize the collision between the sensory terrain of the remembered suburb and the cultural critique of suburbia It is through such contradictions that novels create resonant mental maps of place and time Australian novels are a prism through which suburbs as sites of everyday colonization defined by successive waves of urban development are able to be glimpsed sidelong **Irony in Language Use and Communication** Angeliki

Athanasiadou, Herbert L. Colston, 2017-12-15 The volume provides original research and analyses of the multi faceted conceptual and verbal processes of irony Key topics explored include interdisciplinary perspectives and approaches to the study of irony Collectively the papers examine irony from psychology embodiment studies philosophy cognitive linguistics the

Performance and the Politics of Space Erika Fischer-Lichte, Benjamin Wihstutz, 2013 This collection asks what is at stake when a theatrical space is created and when a performance takes place under what circumstances the topology of theatre becomes political It visits a politics of inclusion and exclusion of distributions and placements and of spatial appropriation and utopian concepts in theatre history and contemporary performance

The Making of Public Space Luc Boltanski, Arnaud Esquerre, 2024-11-18 This new book by Luc Boltanski and Arnaud Esquerre is a highly original analysis of the two key processes that shape the contemporary public sphere On the one hand there are the processes of news provision which select out a range of facts and events and bring them to the attention of a large number of people who have not for the most part experienced them directly On the other hand there are processes of politicization which problematize the facts made known by news provision and treat them as issues that concern citizens and the state Politicization is typically characterized by a diversity of interpretations which in turn gives rise to a proliferation of commentary discussion polemic and division In order to study these processes and their interaction Boltanski and Esquerre draw on a vast repository of user comments left on the site of a major daily newspaper as well as the thousands of comments posted on an online video site They uncover what is sayable by comparing published comments with those deleted by moderators They capture opinions in the course of their formation rather than describing views which have long become cemented these are often reflexive and wise deriving from responses to interviews or opinion polls They map out the parameters of politicization today touching on various hot topics such as feminism the environment immigration religion nationalism and Europe This is not just a book about the news and the press but a major new work which shows how political opinion comes into being and the way in which it affects our daily lives It will be of great value to students and scholars in media studies sociology and politics as well as to anyone interested in the state of politics and the media in our contemporary digital age

LaFountain,2016-02-24 By taking Dali s paranoiac critical method to the delirious extents Dali himself recommended LaFountain demonstrates that Dali s Surrealism anticipates tactics practiced by postmodern and poststructural critics In particular LaFountain advances the notion that phantom meaning displaced Surrealism s phantom object thereby creating a crisis of the subject and the object far in excess of that sought by Surrealist revolutionaries Focusing on Dali s magnificent painting Endless Enigma LaFountain inaugurates New Dali Studies by offering an original interpretation of Dali s close yet strained relationship with Andr Breton and the Surrealist canon **Sexuality & Space** Beatriz Colomina,Jennifer

Humour, subjectivity and world politics Alister Wedderburn, 2021-08-17 Questions about the ethical and political boundaries of comedy satire or irony have inspired widespread anxiety in recent years as with the 2015 shootings at the offices of Charlie Hebdo in Paris or the so called locker room banter that defined Donald Trump's 2016 election campaign What then can a turn to humour offer International Relations Drawing on literature across International Relations literary theory cultural studies and sociology Alister Wedderburn argues that humour plays an underappreciated role in the making and unmaking of political subjectivities The book recovers a historical understanding of humour as a way of making a claim to political subjectivity in the face of its denial This function Wedderburn argues is embodied by the ambiguous figure of the parasite a stock character of Greek comic drama The book interrogates three separate sites where political actors have used humour parasitically in order to make political claims and demands In so doing it not only outlines humour's political potential and limitations but also demonstrates how everyday practices can draw from feed into interrupt and potentially transform global political relations Representing the first monograph length study on the politics of humour within International Relations this book makes a timely contribution to debates about the politics of humour subjectivity and everyday life
