Is It True:

But is it True? Aaron B. Wildavsky, 1995 Amid the chaos of questions and conflicting information Aaron Wildavsky arrives with just what the beleaguered citizen needs a clear fair and factual look at how the rival claims of environmentalists and industrialists work what they mean and where to start sorting them out *Tiger-Tiger, Is It True?* Byron Katie, 2009-11-15 Tiger Tiger Is It True is a story about a little tiger who thinks that his whole world is falling apart his parents don't love him his friends have abandoned him and life is unfair But a wise turtle asks him four questions and everything changes He realizes that all his problems are not caused by things but by his thoughts about things and that when he questions his thoughts life becomes wonderful again This is a heartwarming story with a powerful message that can transform the lives of even very young children Byron Katie's wisdom filled words and Hans Wilhelm's vivid magical illustrations combine to make a book that will become one of the classics of children's literature **But Is It Real?** Amy Orr-Ewing, 2024-06-20 Your relationship with God is just a psychological crutch Belief in God is dangerous I used to believe but I've given it all up Is God real Is it possible to know anything let alone know him Why do bad things happen to people who worship this God What about the spiritual experiences of other faiths All of these accusations objections and questions have come directly from real life situations Amy Orr-Ewing writes I hope that the thoughts offered here will help you see what the Christian faith has to say amid all the pain confusion and complexity of life **Real Materialism** Galen Strawson, 2008-05-29 Real Materialism draws together papers written over twenty years by Galen Strawson in philosophy of mind and metaphysics Strawson focuses on five main areas of enquiry 1 the nature of the physical consciousness the mind body problem and the prospects for panpsychism 2 the self the subject of experience self consciousness and the narrative self 3 free will and moral responsibility 4 the nature of thought and intentionality and their connection with consciousness 5 the problem of causation with particular reference to the philosophy of David Hume Is the Bible True? David Robert Ord, Robert B. Coote, 2018-03-07 Is the Bible True offers a lively down to earth look at the origins and nature of the Bible Minister David Ord and biblical historian Robert Coote address many of the questions raised when ordinary lay readers come face to face with dilemmas posed by modern biblical scholarship Part I begins with the question of how the Bible should be read Is the Bible True traces the experience of a person who has grown up reading the Bible literally but who on closer inspection discovers that literally is not nearly literal enough The study of Scripture that ensues leads to a new approach to reading the Bible and uncovering its meaning for today Part II asks how the Bible came to be Who began the writing process and when How were the books collected into the form we know now Exactly what kind of book is the Bible Part III shows how understanding the history and reality of the Bible can make reading it a more meaningful experience especially in sorting out the difficult issues that confront us every day Is the Bible True succeeds in showing how a more sophisticated understanding of the scriptures can enhance rather than undermine faith It is required reading for everyone who reads and studies the Bible

The Lord Is Risen He Is Risen Indeed! He Really Is Richard Sheffield, 1998 Richard Sheffield's preaching is stimulating and unique. Whenever I am burdened or under pressure his pithy insights into the Gospel of our Lord refresh my spirit. They sometimes also sting my soul to pay attention to more significant things in life than preoccupying problems. He is also a courageous preacher when he says things we all think or doubt and dare not to express. He handles life's misgivings kindly and cleanly so that listening to him is a religious experience. This comes about because he came to the temple of religion through the corridors of commerce and knows the real world of his laymen. Under his gentle manner there is the fire of Peter, Thomas, and St Paul, all of whom also preached with integrity and conviction. Bryant Kirkland, Minister Emeritus, Fifth Avenue Presbyterian Church, New York, New York. At first glance the Easter title may seem out of place for a book half full of sermons for Lent. But Richard Sheffield argues and preaches that the sermon for Easter Day is really the sermon for every day in the life of a Christian. The Lord Is Risen is really the only sermon we have or need to have. How we live out our lives in response to that central fact of our faith fills the sermons in Lent as well as Easter with hope. Hope in the here and now as well as in the hereafter. Rev Sheffield has little patience with those who would turn the good news about God into the bad news about us, and it shows. He writes: Belief is more than just ascertaining the facts and figures of faith. Or figuring out the best way to keep God happy long enough to get into heaven. Belief is living life now, certain of the love of God in Jesus Christ for you and me. Living life unafraid even of death itself. Richard L. Sheffield is senior pastor of Market Street Presbyterian Church, Lima, Ohio. He holds a Master of Divinity degree from Princeton Theological Seminary and an M.B.A. degree from the University of Chicago. He is a candidate for the Doctor of Ministry degree at Louisville Presbyterian Theological Seminary. **Tetralogue** Timothy Williamson, 2015 For those new to philosophy Tetralogue is a marvellous way into the subject. For those who are old hands it neatly poses serious questions about truth and falsity, relativism and dogma. Dust jacket flap *What is this thing called Knowledge?* Duncan Pritchard, 2013-10-01 What is knowledge? Where does it come from? What kinds of knowledge are there? Can we know anything at all? This lucid and engaging introduction grapples with these central questions in the theory of knowledge, offering a clear, non-partisan view of the main themes of epistemology. Both traditional issues and contemporary ideas are discussed in sixteen easily digestible chapters, each of which concludes with a useful summary of the main ideas discussed, study questions, annotated further reading, and a guide to internet resources. Each chapter also features text boxes providing bite-sized summaries of key concepts, and major philosophers, and clear and interesting examples are used throughout. The book concludes with an annotated guide to general introductions to epistemology, a glossary of key terms, and a summary of the main examples used in epistemology. This is an ideal first textbook in the theory of knowledge for undergraduates coming to philosophy for the first time. The third edition has been revised and updated throughout and features two new chapters on religious knowledge and scientific knowledge as part of a whole new section on what kinds of knowledge there are. In addition, the text as a whole has been refreshed to keep it up to date with current developments.

Joshua Mozersky, 2015-01-29 This book brings together in a novel way an account of the structure of time with an account of our language and thought about time Joshua Mozersky argues that it is possible to reconcile the human experience of time which is centred on the present with the objective conception of time according to which all moments are intrinsically alike He defends a temporally centreless ontology along with a tenseless semantics that is compatible with and indeed helps to explain the need for tensed language and thought This theory of time also it is argued helps to elucidate the nature of change and temporal passage neither of which need be denied nor relegated to the realm of subjective experience only The book addresses a variety of topics including whether the past and future are real whether temporal passage is a genuine phenomenon or merely a subjective illusion how the asymmetry of time is to be understood the nature of representation how something can change its properties yet retain its identity and whether objects are three dimensional or four dimensional It is a wide ranging examination of recent issues in metaphysics philosophy of language and the philosophy of science and presents a compelling picture of the relationship of human beings to the spatiotemporal world
