Practice of Satsang Natasha Dalmia, 2014-07-31 *Practice of Satsang* is an invitation for Conscious Living. Written as Letters to my Grandchildren, the book shares personal short stories, quotes from the real-life protagonists of the stories, provocative questions, and practices for your experimentation and play. The purpose is to deepen relationships with oneself and with one's family, friends, fellow travellers, colleagues, clients, and the communities one belongs to. *Sat* means truth, and *Sanga* means company. *Satsang* is an old Sanskrit word meaning being with the truth and gathering together to find the truth. Usually in my culture, it is interpreted to gather in the presence of a guru. Teacher who would help to be with the truth. As I grew up, I realised that there are many gurus/teachers in our lives who help us to be with the truth with our truth. They come in unexpected relationships and situations as our own higher consciousness. The key is in my openness, perception, and choice. Am I willing to recognise the teacher, the truth, and times of *sanga* in my inner and outer worlds? Journey as you read this book inwards to your own genius, wisdom, consciousness, bliss, and truth. Come, let us exchange stories and practices and reflect together on fundamental questions across generations and cultures.

The Letters of Vincent van Gogh Patrick Grant,2014-05-01 When he died at the age of thirty seven Vincent van Gogh left a legacy of over two thousand artworks for which he was justly famous But van Gogh was also a prodigious writer of letters more than eight hundred of them addressed to his parents to friends such as Paul Gauguin and above all to his brother Theo His letters have long been admired for their exceptional literary quality and art historians have sometimes drawn on some of the letters in their analysis of the paintings And yet to date no one has undertaken a critical assessment of this remarkable body of writing not as a footnote to the paintings but as a highly sophisticated literary achievement in its own right Patrick Grant s long awaited study provides such an assessment and as such redresses a significant omission in the field of van Gogh studies As Grant demonstrates quite apart from furnishing a highly revealing self portrait of their author the letters are compelling for their imaginative and expressive power as well as for the perceptive commentary they offer on universal human themes Through a subtle exploration of van Gogh s contrastive style of thinking and his fascination with the notion of imperfection Grant illuminates gradual shifts in van Gogh s ideas on religion ethics and art He also analyzes the metaphorical significance of a number of key images in the letters which prove to yield unexpected psychological and conceptual connections and probes the relationships that surface when the letters are viewed as a cohesive literary product The result is a wealth of new insights into van Gogh s inner landscape
