Selves in Two Languages Michèle Koven, 2007-09-07 Bilinguals often report that they feel like a different person in their two languages In the words of one bilingual in Koven s book When I speak Portuguese automatically I m in a different world it s a different color Although testimonials like this abound in everyday conversation among bilinguals there has been scant systematic investigation of this intriguing phenomenon Focusing on French Portuguese bilinguals the adult children of Portuguese migrants in France this book provides an empirically grounded theoretical account of how the same speakers enact experience and are perceived by others to have different identities in their two languages This book explores bilinguals experiences and expressions of identity in multicultural multilingual contexts It is distinctive in its integration of multiple levels of analysis to address the relationships between language and identity Koven links detailed attention to discourse form to participants multiple interpretations how such forms become signs of identity and to the broader macrosociolinguistic contexts that structure participants access to those signs The study of how bilinguals perform and experience different identities in their two languages sheds light on the more general role of linguistic and cultural forms in local experiences and expressions of identity

Language Contact Sabine Gorovitz, Isabella Mozzillo, 2015-01-12 This volume opens a timely discussion about the various theoretical and

methodological models being developed to describe the phenomenon of language contact. It focuses mainly on contact resulting from situations of mobility and borders particularly in Brazil which offers an example of complex contacts between peoples and languages. The book focuses on the social effects of language contact resulting from mobility, linguistic and social practices and representations and identities in continuous construction. Migration movements both to and from the country are the cause of multiple forms of multilingualism, the linguistic, social and cultural effects of which must be analysed. There is still an absence of work concerning the description of these phenomena and their modality. As such, this volume addresses this gap, discussing the relation between language, culture and identity from different perspectives and concepts. This publication assembles eleven articles by researchers concerned with language contact, each developing theories and methodologies over distinct objects and fields, offering a variety of discussions within the thematic scope of the book. Life with Two Languages. Dr. Mohammed Ali Al-Kholi, 2002. **Debates of the Senate of the Dominion of Canada**. Canada.

Parliament. Senate, 1918. **Language and Society**. Andrew Simpson, 2019-01-02. Language and Society is a broad introduction to the interaction of language and society intended for undergraduate students majoring in any academic discipline. The book discusses the complex socio-political roles played by large dominant languages around the world and how the growth of major national and official languages is threatening the continued existence of smaller minority languages. As individuals adopt new ways of speaking, many languages are disappearing, others are evolving into hybrid languages with distinctive new forms, and even long established languages are experiencing significant change with young speakers creating novel expressions and innovative pronunciations. Making use of a wide range of case studies selected from the Americas, Europe, Asia and Africa, Andrew Simpson describes and explains key factors causing language variation and change which relate to societal structures and the expression of group and personal identity. The volume also examines how speakers' knowledge of language acts as an important force controlling access to education, advances in employment and the development of social status. Additional topics discussed in the volume focus on the global growth of English, gendered patterns of language use and the influence of language on perception. **GOLDEN SUMMERS**. S. CHANDRA, 2023-10-06. An autobiographical narrative by a common woman of India who grew up as an Indian, to be proud of being a global citizen.
