Morris,2012-12-06 I guess everyone has a cousin Ernest He is the fellow of whom your mother asks Why can t you be more like your cousin Ernest Cousin Ernest went to the high school for genius children and got all A s even in French As the years went by I lost contact with Cousin Ernest Then last year at a family gathering I met him again Sure enough he had gone to Harvard and become a doctor a radiologist We began discussing his practice and he mentioned that he performs some fairly risky diagnostic tests While legally he was compelled to tell patients about the risks they were undertaking he said that risk disclosure was a useless exercise No one has ever refused to undergo the procedure he said It was difficult to argue with his observation that no patient ever refused to undergo his tests I understood that the lack of refusals did not necessarily mean that risk disclosure was a useless exercise but his underlying argument was quite compelling

Users and Abusers of Psychiatry Lucy Johnstone,2021-09-22 Users and Abusers of Psychiatry is a radically different critical account of day to day practice in psychiatric settings Using real life examples and her own experience as a clinical psychologist Lucy Johnstone argues that the traditional way of treating mental distress can often exacerbate people s original difficulties leaving them powerless and re traumatised She draws on a range of evidence to present a very different understanding of psychiatric breakdown than that found in standard medical textbooks and to suggest new ways forward The extended introduction to this Classic Edition brings the book up to date by revisiting its themes and tracing the changes in mental health practice over the last three decades The book s accessibility and clarity have ensured that it remains a classic in a growing field and it is as relevant today as when it was first published Users and Abusers of Psychiatry is a challenging but ultimately inspiring read for all who are involved in mental health whether as professionals students service users relatives or interested lay people
