

Eva Zeisel Designer For Industry

Jeffrey L. Meikle

Eva Zeisel Designer For Industry:

Eva Zeisel Martin Eidelberg, 1984-12-01 **Eva Zeisel** Pat Kirkham, 2013-10-15 Eva Zeisel was one of the twentieth century's most influential ceramicists and designers of modern housewares. Her distinctive take on modern industrial design was inspired by organic form and brought beauty and playfulness to housewares, earning her designs a beloved place in midcentury homes. This richly illustrated volume, the first ever complete biographical account of Zeisel's life and work, presents an extensive survey of every line she ever created, all captured in gorgeous new photography plus 28 short essays from scholars, collectors, curators, and designers. The definitive book on the grande dame of twentieth-century ceramics, this is an essential resource for anyone who appreciates modern design. *Eva Zeisel* Lucie Young, Marisa Bartolucci, Eva Zeisel, 2003-04 Continuing to put great classic and contemporary design within everyone's grasp, Chronicle Books proudly delivers the next four installments of the popular Compact Design Portfolio. Written by top design critics, these books cover modern masters whose work ranges from the cozily domestic to the aggressively avant garde. Eva Zeisel, whose elegantly democratic housewares span a 70-year career; Ingo Maurer, who raises lamp and lighting design to a high art form; Gaetano Pesce, whose rejection of traditional good taste brought about revolutionary furniture design; and George Nelson, the impresario behind the Marshmallow sofa and other Herman Miller classics. Following the introductory essay and a visual gallery, exhibits selections of the designers' best work in photographs and sketches. Presented in an irresistible small format, this series encapsulates the life, work, and influence of the great designers of our time. **Eva Zeisel: Designer for Industry**, 1984 **Eva Zeisel, Designer for Industry** Martin Eidelberg, 1984 *Eva Zeisel* Martin Eidelberg, Eva Zeisel, Musée des Arts Décoratifs, 1984 **Eva Zeisel** Eva Zeisel, 1984 **The Invention of Design** Maggie Gram, 2025-06-03 A critical history of the idea of design and its utopian promise. Design has penetrated every dimension of contemporary society, from classrooms to statehouses to corporate boardrooms. It's seen as a kind of mega power, one that can solve all our problems and elevate our experiences to make a more beautiful, more functional world. But there's a backstory here. In *The Invention of Design*, designer and historian Maggie Gram investigates how, over the twentieth century, our economic hopes, fears, and fantasies shaped the idea of design, then repeatedly redefined it. Nearly a century ago, resistance to New Deal-era government intervention helped transform design from an idea about aesthetics into one about function. And at century's end, the dot-com crash brought us design thinking, the idea that design methodology can solve any problem, small or large. To this day, design captures imaginations as a tool for fixing market society's broken parts from within, supposedly enabling us to thrive within capitalism's sometimes violent constraints. A captivating critical history, *The Invention of Design* shows how design became the hero of many of our most hopeful stories, dreams, fantasies, utopias about how we might better live in a modern world. **Émigré Cultures in Design and Architecture** Alison J. Clarke, Elana Shapira, 2017-11-02 This new volume addresses the lasting contribution made by Central European migré designers to twentieth-century American design and architecture.

The contributors examine how oppositional stances in debates concerning consumption and modernism's social agendas taken by designers such as Felix Augenfeld Joseph Binder Josef Frank Paul T Frankl Frederick Kiesler Richard Neutra and R M Schindler in Europe prefigured their later adoption or rejection by American culture They argue that migrants and refugees from fascist Europe such as Gyrgy Kepes Paul L szl Victor Papanek Bernard Rudofsky Xanti Schawinsky and Eva Zeisel drew on the particular experiences of their home countries and networks of migrant and exiled designers in the United States to develop a humanist progressive and socially inclusive design culture which continues to influence design practice today

Design in the USA Jeffrey L. Meikle, 2005-07-28 From the Cadillac to the Apple Mac the skyscraper to the Tiffany lampshade the world in which we live has been profoundly influenced for over a century by the work of American designers Beautifully illustrated Design in the USA explores the underlying history of American design over the past two centuries

Founders of American Industrial Design Carroll Gantz, 2014-07-17 As the Great Depression started in 1929 several dozen creative individuals from a variety of artistic fields including theatre advertising graphics fashion and furniture design pioneered a new profession Responding to unprecedented public and industry demand for new styles these artists entered the industrial world during what was called the Machine Age to introduce modern design to the external appearance and form of mass produced functional mechanical consumer products formerly not considered art The popular designs by these machine designers increased sales and profits dramatically for manufacturers which helped the economy to recover established a new profession industrial design and within a decade changed American products from mechanical monstrosities into sleek modern forms expressive of the future This book is about those industrial designers and how they founded developed educated and organized today's profession of more than 50 000 practitioners **Dwell**, 2001-02 At *Dwell* we're staging a minor revolution We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

Architectures of Display Anca I. Lasc, Patricia Lara-Betancourt, Margaret Maile Petty, 2017-09-11 Through an international range of case studies from the 1870s to the present this volume analyzes strategies of display in department stores and modern retail spaces Established scholars and emerging researchers working within a range of disciplinary contexts and historiographical traditions shed light on what constitutes modern retail and the ways in which interior designers architects and artists have built or transformed their practice in response to the commercial context *Dish* Julie Müller Stahl, 2005 The big design surveys of the past few years tend to have two things in common a lot of creative design and very few women designers *Dish* is here to set the record straight This exciting collection features new work by over forty emerging and established female designers from over fifteen countries The innovative cutting edge work in *Dish* provides a fresh take on current trends in product design for the home including furniture ceramics glassware lighting and textiles

Works range from Monica Nicoletti's Place Holders moving boxes that serve as transitional furniture to Matali Crasset's Phytolab that combines plants and plastic in a bathroom project. They explore materials from Sara Unruh's chemically treated silk fabric to Anette Hermann's rubber and metal chair in which the user becomes part of the construction. Each designer is featured with examples of her work, biographical information and a personal statement that encapsulates her approach. A foreword by Susan Yelavich and essays by experts in making, selling and critiquing contemporary design offer insights into the conceptual, aesthetic, functional and political nature of the work. All together, this book dishes out the hottest work around.

Makers Janet Koplos, Bruce Metcalf, 2010-07-31. Here is the first comprehensive survey of modern craft in the United States. *Makers* follows the development of studio craft objects in fiber, clay, glass, wood and metal from its roots in nineteenth century reform movements to the rich diversity of expression at the end of the twentieth century. More than four hundred illustrations complement this chronological exploration of the American craft tradition. Keeping as their main focus the objects and the makers, Janet Koplos and Bruce Metcalf offer a detailed analysis of seminal works and discussions of education, institutional support and the philosophical underpinnings of craft. In a vivid and accessible narrative, they highlight the value of physical skill, examine craft as a force for moral reform and consider the role of craft as an aesthetic alternative. Exploring craft's relationship to fine arts and design, Koplos and Metcalf foster a critical understanding of the field and help explain craft's place in contemporary culture. *Makers* will be an indispensable volume for craftspeople, curators, collectors, critics, historians, students and anyone who is interested in American craft. **Form Function Finland**, 1988 Ceramics

and Globalization Neil Ewins, 2017-05-04. Neil Ewins' study of the Staffordshire potteries in a period of great global change traces how ceramics production has been affected by globalisation in both familiar and unexpected ways. Although many manufacturers such as Wedgwood initially moved production to cheaper labour markets in East Asia, others remained in or returned to England once it became clear that outsourcing manufacturing was affecting the brand value and customer perception of their products. Neil Ewins explores the complex behaviour of the UK ceramics industry using a combination of evidence from the press, trade journals, ceramic objects and primary interview evidence of manufacturers, retailers and a ceramic designer. Ewins suggests that although the surface designs of UK ceramics invariably reflect diverse cultural and stylistic influences, a notion of authenticity often still resides in the place and context in which the ceramic product was originally made. Overall, the book argues that UK ceramics remain culturally complex because of issues of supply and demand and ties to heritage, imagined or otherwise. Within a context of globalization, the book highlights compelling issues which have huge ramifications on UK manufacturing futures. Women Design Libby Sellers, 2021-12-07. From architects and product designers to textile artists and digital innovators, *Women Design* profiles 27 of the most influential female designers from the twentieth century to the present day, showcasing their finest work and celebrating their enduring influence on design. Throughout history, design has been profoundly shaped and enhanced by the creativity of women as shapers, designers, patrons and

educators But in a narrative that tends towards the promotion of their male counterparts their contributions are all too often overlooked Women Design rediscovers and revels in the work of such influential figures as Eileen Gray Lora Lamm and Lella Vignelli while shining a spotlight on modern day trailblazers such as Kazuyo Sejima Hella Jongerius and Neri Oxman
