*Even the Brave Falter* E. D. Smith, 1978      *Gurkha Warriors - The Inside Story of The World's Toughest Regiment* Robert Crew, 2004-05-31 Throughout our recent and not so recent history the understated fearless and hearty Gurkhas have served the British loyally and without complaint For more than a hundred years this bloodthirsty regiment has followed the British Army around the globe from Gallipoli to the jungles of Burma in World War II from Palestine to the Falklands and the Gulf War This text tells the story of this regiment It tells of the Gurkha blood running through the veins of British military conquests for more than two centuries from the founding of the brigade by the terrifying extraordinary Johnny Gurkha through to the amazing feats that put Gurkhas in the same distinguished company as the British Paras the Commandos the Guards and the Black Watch      **Acts Of War** Richard Holmes, 1989-08-04 This wide ranging and exhaustively researched book is an attempt to grasp the very nature of war It takes us through the soldier s experience in its entirety from the humiliation of basic training and the intense comradeship of army life to the terror isolation and exhaustion of battle

Orchestrating Warfighting Tim Bean, Edward Flint, James E. Kitchen, Paul Latawski, 2024-09-10 Orchestrating Warfighting provides a detailed and wide ranging examination of the employment of corps and divisions from the First World War through to the early twenty first century Division and corps formations have been at the forefront of the British Army s prosecution of war since 1914 They constituted the major command and organisational elements that underpinned the conduct of large scale warfighting on land Divisions and corps were of central importance to the conduct of the First and Second World Wars the maintenance of a conventional deterrence posture during the Cold War and were also employed in major confrontations since 1945 including the Korean War and two Gulf Wars The British Army of the early twenty first century still retains two divisional formations alongside the British led Allied Rapid Reaction Corps within NATO Orchestrating Warfighting examines British Dominion and imperial corps and divisions taking part in the total wars of the first half of the twentieth century and smaller scale conflicts since 1945 It throws new light on questions of command generalship and the management of battles and campaigns across a diverse range of theatres Orchestrating Warfighting is of interest to historians of the British Army operational military history and modern war      **Monte Cassino** Matthew Parker, 2004-06-01 *Monte Cassino* is the true story of one of the bitterest and bloodiest of the Allied struggles against the Nazi army Long neglected by historians the horrific conflict saw over 350 000 casualties while the worst winter in Italian memory and official incompetence and backbiting only worsened the carnage and turmoil Combining groundbreaking research in military archives with interviews with four hundred survivors from both sides as well as soldier diaries and letters *Monte Cassino* is both profoundly evocative and historically definitive Clearly and precisely Matthew Parker brilliantly reconstructs Europe s largest land battle which saw the destruction of the ancient monastery of Monte Cassino and dramatically conveys the heroism and misery of the human face of war      Approach to Battle Alan Jeffreys, 2017-01-24 The

Indian Army was the largest volunteer army during the Second World War Indian Army divisions fought in the Middle East North Africa and Italy and went to make up the overwhelming majority of the troops in South East Asia Over two million personnel served in the Indian Army and India provided the base for supplies for the Middle Eastern and South East Asian theatres This monograph is a modern historical interpretation of the Indian Army as a holistic organisation during the Second World War It will look at training in India charting how the Indian Army developed a more comprehensive training structure than any other Commonwealth country This was achieved through both the dissemination of doctrine and the professionalism of a small coterie of Indian Army officers who brought about a military culture within the Indian Army starting in the 1930s that came to fruition during the Second World War which informed the formal learning process Finally it will show that the Indian Army was reorganised after experiences of the First World War During the interwar period the army developed training and belief for both fighting on the North West Frontier and as an aid to civil power With the outbreak of the Second World War in addition to these roles the army had to expand and adapt to fighting modern professional armies in the difficult terrains of desert jungle and mountain warfare A clear development of doctrine and training can be seen with many pamphlets being produced by GHQ India that were in turn used to formulate training within formations and then used in divisional brigade and unit training instructions thus a clear line of process can be seen not only from GHQ India down to brigade and battalion level but also upwards from battalion and brigade level based on experience in battle that was absorbed into new training instructions Together with the added impetus for education in the army by 1945 the Indian Army had become a modern professional and national army

**India At War** Yasmin Khan, 2015-09-10 World War II was a global catastrophe Far broader than just the critical struggle between Allies and Axis its ramifications were felt throughout the world It was a time of social relocation reorienting ideas of patriotism and geographical attachment and forcing the movement of people across oceans and continents In *India at War* Yasmin Khan

offers an account of India's role in the conflict one that takes into consideration the social economic and cultural changes that occurred in South Asia between 1939 and 1945 and reveals how vital the Commonwealth's contribution was to the war effort Khan's sweeping work centers on the lives of ordinary Indian people exploring the ways they were affected by a cataclysmic war with origins far beyond Indian shores In manpower alone India's contribution was staggering it produced the largest volunteer army in world history with 2.5 million men Indians were engaged in making the raw materials and food stuffs needed by the Allies and became involved in the construction of airstrips barracks hospitals internment camps roads and railways Their lives were also profoundly affected by the presence of the large Allied army in the region including not only British but American African and Chinese troops Madras was bombed by the Japanese and the Andaman and Nicobar Islands were occupied while the Bengal famine of 1943 in which perhaps three million Bengalis died was a man made disaster precipitated by the effects of the war This authoritative account offers a critically important look at the contributions of colonial manpower and resources essential to sustaining the war and emphasizes the significant ways in which the conflict shaped modern India **More Letters From Billy, By the Author of "A Sunny Subaltern"**.
