Korea Corea or Chosen morning calm occupies the peninsula hanging down from Manchooria and Russian Siberia between China and Japan and extending from the 33d to the 43d parallels of north latitude The area including the outlying islands is about one hundred thousand square miles The population according to the most reliable estimate is a little more than sixteen millions Yet as the people live in cities towns and hamlets the country does not seem to be thickly settled The climate varies much at the extremities of the peninsula owing to the fact that the southern portion is somewhat affected by the warm southern currents that give Japan its tropical climate but which are warded off from Korea proper by the Japanese islands The climate of the central and northern provinces is much the same as that of the northern central United States with fewer changes The large river at the capital is not uncommonly frozen over for weeks at a time during the winter so that heavy carts pass over on the ice Ice is always preserved for general use in summer The country is decidedly mountainous and well watered Heavy timber abounds in the northeast The valleys are very fertile and are well tilled as the people are mainly devoted to agriculture The mineral resources have only been developed in a crude way yet sufficiently to demonstrate the great wealth of the ore deposits Especially is this true in reference to the gold mines The most pessimistic visitors to Korea are unstinted in their praise of the beautiful scenery which is fully appreciated by the natives as well From ancient times they have had guide books setting forth the natural charms of particular localities and excursions to distant places for the sole purpose of enjoying the views are a common occurrence The King rules as absolute monarch He is assisted by the Prime Minister and his two associates the ministers of the Left and Right Next to these come the heads of the six departments of Etiquette and Ceremonies Finance War Public Works Justice and Registration with the heads of the two new departments that have been added as the result of the opening up of foreign intercourse the Foreign or outside Office and the Home or interior Office This body of officials forms the grand council of the King Each of the eight provinces is ruled by a governor who has under him prefects local magistrates supervisors of hamlets and petty officials so that the whole scale makes a very complete system and affords no lack of officials There are several special officers appointed by the King one of whom is the government inspector whose duty it is to go about in disguise learn the condition of the people and ascertain if any magistrate abuses his office and oppresses the people unjustly Any such he may bring to speedy justice The present Dynasty has existed 498 years Being founded by a revolting general named Ye it is known as the Ye Dynasty The King s name however is never used He is almost sacred to his people Those officials of sufficiently high rank to go in before him bow to the ground in his presence and only speak when spoken to then they use a highly honorific language only understood at court The revenues are paid in kind hence the annual income of an official may consist of a certain quantity of rice and other products in addition to his money compensation The

King also has the whole revenue resulting from the sale of the ginseng for which the country is noted This forms his private purse The currency is the common copper cash worth some twelve hundred to the Mexican dollar though now that the new mint is in operation copper silver and gold coins are being made The old perforated cash will however be hard to supplant owing to its convenience in small transactions To be continue in this ebook **Korean Folktales** J.K. Modern Korean Fiction Bruce Fulton, 2005 To represent the past century of Korean fiction this definitive collection extends beyond familiar writers challenges cultural norms and crosses political borders By including stories from neglected female North Korean and Wolbuk writers those who migrated to the North after 1945 and whose works were widely banned in South Korea and by bringing politically engaged works together with experimental ones this anthology articulates the ruptures and resolutions that have marked the peninsula From sketches of desperate peasants in straitened circumstances to fast moving visceral tales of contemporary South Korea the works in this collection bear witness to the dramatic transformations and events in twentieth century Korean history including Japanese colonial rule civil war and economic modernization in the South The writers explore these developments through a variety of literary and political lenses revealing with precision and poignancy their impact on Korean society and the lives of ordinary Koreans This anthology includes an introduction which synthesizes the key developments in modern Korean literature and a comprehensive bibliography of Korean fiction in translation
