Iran The Beautiful:

Iran the Beautiful, 2002 In distinctive ways Iran is one of the most photogenic countries in the world a place where dazzling architecture is set amid desolate expanses of desert or steppe where snow capped mountains plunge dramatically to a seacoast of steamy lushness where nomads guide their flocks to seasonal pasturelands where tombs temples castles and mosques bespeak the richness of the Persian past High and dry for the most part the land is sectioned by great mountain ranges dotted with venerable villages of mud and stone as well as modern cities and has a cultural fabric woven of many different threads Persian Turkic Kurdish Baluchi and even Mongol For a photographer to capture such a mix of spectacular terrain and cultural complexity is a formidable challenge one that Daniel Nadler an American born in Egypt has met brilliantly in *Iran the Beautiful* This book comprising more than 170 photographs takes as its symbolic centre the magnificent landmark of Mount Damavand the highest peak in the Middle East and ranges outward from there north to the Caspian Sea east as far as Gonbad e Kavus west toward Zanzan and south to Isfahan All lie no more than a day's drive from the great volcano yet within those bounds can be found a spectrum of landscapes lifestyles and architectural treasures that show why Iran once seen can never be forgotten

Beautiful Bodies Uroš Matić, 2022-02-24 This book explores the role of material culture in the formation of corporeal aesthetics and beauty ideals in different past societies and thus contributes to the cultural relativization of bodily aesthetics and related gender norms The volume does not explore beauty for the sake of beauty but extensively explores how it serves to form and keep gender norms in place The concept of beauty has been a topic of interest for some time yet it is only in recent times that archaeologists have begun to approach beauty as a culturally contingent and socially constructed phenomenon Although archaeologists and ancient historians extensively dealt with gender they dealt less with it in relation to beauty The contributions in this volume deal with different intersections of gender and corporeal aesthetics by turning to rich archaeological textual and iconographic data from ancient Sumer Aegean Bronze Age ancient Egypt ancient Athens Roman provinces the Viking world and the Qajar Iran Beauty thus moves away from a curiosity and surface of the body to an analytic concept for a better understanding of past and present societies

From Iran to Hollywood and Some Places In-Between

Christopher Gow, 2011-06-30 The New Iranian Cinema has had a fascinating success story in world cinema and critics have hailed Iranian films as alternatives to the homogenising global influence of mainstream Hollywood cinema Drawing on seminal ideas of art cinema Christopher Gow examines how the success of this cinema and the films of Abbas Kiarostami its foremost proponent can be accounted for by the extent to which they fit into a pre established notion of art cinema Gow also expands understanding of post revolutionary Iranian cinema by examining the links between the New Iranian Cinema and emigre Iranian filmmaking from the uncompromising German films of Sohrab Shahid Salesi to Vadim Perlmutter's exploration of the Iranian experience of exile in the Oscar nominated House of Sand and Fog He reveals how this large and dispersed emigre Iranian cinema challenges our understanding of New Iranian Cinema itself and of national cinema in general

Iran

Leon Gray, 2008 Explores the geography history people and culture of Iran **Introduction to Iran** Gilad James, PhD, Iran is a country located in Western Asia bordered by Armenia Azerbaijan Turkmenistan Afghanistan Pakistan Iraq and Turkey The country has a population of approximately 83 million and its capital city is Tehran Iran is a predominantly Muslim country with over 99% of the population practicing the Islamic religion and the official language is Persian Iran is known for its rich history culture and traditions including its famous Persian carpets poetry and cuisine Iran's economy is heavily reliant on its oil and gas industry with petroleum products accounting for nearly 80% of the country's exports However after years of economic sanctions the Iranian economy has been struggling to grow and its currency has been steadily decreasing in value The country has also faced political unrest with tensions between the Iranian government and the United States and its allies contributing to the current political climate Despite these challenges Iran remains an important player in the Middle East with a rich cultural heritage and a strategic location at the crossroads of major trade routes **The Idea of Persia** Ramin Jahanbegloo, 2025-05-30 Exploring the idea of Persia as a means of investigating the soul of this fascinating nation In 1721 the French philosopher Montesquieu posed the question Comment peut-on être persan in the title to his famous Persian Letters Lettres persanes After centuries of invasion murder destruction authoritarian rule decay of political theory and increasing dissolution in Iran's politics this volume is an investigation into what the answer to that question might be today The Idea of Persia explores the notion of what it is to be Persian but not as it has been constituted in the past with reference to the political experience of antiquity nor as an affirmation of the secular rational project of modernity Rather the book examines the question of what it is to be Persian against the backdrop of centuries in which a common plural subjectivity of Persian-ness has been continually delayed by those who with or without ideologies believed in politics only as a means of ruling or of being ruled without laws and in the absence of citizenship The historical battle for social and political freedoms is still underway in Iran and as the nation wrestles with the possibility of an extended period of political social and cultural decline it is a timely moment to return to the perspective embodied in the enlightened thinking of figures such as the writer and three times prime minister of Iran Mohammed Ali Foroughi 1877-1942 and his vision of a country possessing rational and moral capabilities and to a possible renaissance of social and political institutions The idea of Persia as it is presented here sees hope in the future as the means by which Iranians may liberate themselves from the duality of heroes and saints and remake their political mentality while staying true to an age-old idea of Persia and to freedom as a virtue that has to be taught *In Turkey I am Beautiful* Brendan Shanahan, 2013-04-11 Two years after his first visit travel writer Brendan Shanahan returned to Turkey After catching up with old friends in Istanbul he set off on a journey in the country's secretive east where among other adventures he found himself in the middle of a gunfight was propositioned by a gang of teenage boys and swam to Armenia in his underpants Returning to Istanbul Brendan agreed to run a friend's carpet shop With only the dubious help of a loveable but wildly unstable drug addict the results were occasionally disastrous frequently hilarious

and often poignant **The Beautiful Country and the Middle Kingdom** John Pomfret, 2016-11-29 A remarkable history of the two centuries old relationship between the United States and China from the Revolutionary War to the present day From the clipper ships that ventured to Canton hauling cargos of American ginseng to swap Chinese tea to the US warships facing off against China's growing navy in the South China Sea from the Yankee missionaries who brought Christianity and education to China to the Chinese who built the American West the United States and China have always been dramatically intertwined For more than two centuries American and Chinese statesmen merchants missionaries and adventurers men and women have profoundly influenced the fate of these nations While we tend to think of America's ties with China as starting in 1972 with the visit of President Richard Nixon to China the patterns rapturous enchantment followed by angry disillusionment were set in motion hundreds of years earlier Drawing on personal letters diaries memoirs government documents and contemporary news reports John Pomfret reconstructs the surprising tragic and marvelous ways Americans and Chinese have engaged with one another through the centuries A fascinating and thrilling account *The Beautiful Country and the Middle Kingdom* is also an indispensable book for understanding the most important and often the most perplexing relationship between any two countries in the world
