Iran The Land:

Iran April Fast, 2005 Iran is a land of snow capped mountains green valleys and barren deserts Its landscape has been home to flourishing ancient empires and brutal modern wars With striking full color photographs Iran the land captures the diversity of Iran from the northern Caspian Sea coast and city of Teheran where most Iranians live to the rich petroleum deposits of the southwestern Khuzistan Plain **Iran Today** Manochehr Dorraj, Mehran Kamrava, 2008-10-30 Iran dominates the media headlines once again and has taken center stage in the U S and European Union strategy toward the Middle East A more nuanced understanding of Iranian society has assumed even greater significance and urgency Iran Today An Encyclopedia of Life in the Islamic Republic offers crucial insight for students and the general reader into an often misunderstood and complex country that is shrouded in mystery and misperception Heir to a long history and a great culture and civilization Iran embodies a rich complex and diverse mosaic that defines its national identity Diversity is also the operative word that describes Iranian landscapes and geography its multiple ethnic groups and their varied cultures and traditions as well as the uneven and vastly different levels of economic and industrial development conflicting political tendencies and different and often contradictory social and cultural outlooks Because of its tumultuous recent political history Iran appears to encapsulate all of these internal differences and stark contrasts somewhat more distinctly than most of its neighbors The 1978 1979 revolution transformed the society and culture in fundamental ways and redefined social life It created new institutions of governance and Islamicized the culture education and the legal system in an attempt to create a new society that would usher in the reign of piety and virtue Yet Islamization had to come to terms with pre Islamic and illustrious Persian history and culture as well as the realities of an interdependent postmodern globalized world in which as a developing country Iran resides in the periphery Within this framework the dynamics and complexity of social life in the Islamic Republic unfold This encyclopedia is the source for up to date authoritative information on a full range of critical topics of interest Coverage of the Islamic Republic here falls into the general categories of history politics economics society and culture The most significant aspects of the life in Iran since the revolution the era of the Islamic Republic so far are stressed The wide range of entries shows the richness and complexity of Iranian society its multiple and varied facets its expressions and outward manifestations and its nuanced responses to political repression instability war pervasive crisis and the chronic tension between modernity and tradition Some of the entries designed to highlight these important phenomena revolve around the country s ethnic mosaic the social role and position of women veiling the educational system sports intellectuals the arts and artistic expression literature poetry cuisine healthcare and the family Other entries range from regionalism and urban development to the petroleum industry agriculture the banking system issues of wealth and poverty class structure and economic mobility and the private sector In a number of significant areas economic social and cultural phenomena intersect These intersections are reflected in entries on broadcasting and communications technology the

Internet public relations electronic and print media and family planning and healthcare A chronology selected bibliography and photos complement the entries **Iran Review** ,1962 **Land and Revolution in Iran, 1960-1980** Eric J. Hooglund,2014-07-03 Carried out by the government of the shah between 1962 and 1971 the Iranian land reform was one of the most ambitious such undertakings in modern Middle Eastern history Yet beneath apparent statistical success the actual accomplishments of the program in terms of positive benefits for the peasantry were negligible Later the resulting widespread discontent of thousands of Iranian villagers would contribute to the shah s downfall In the first major study of the effects of this widely publicized program Eric Hooglund s analysis demonstrates that the primary motives behind the land reform were political Attempting to supplant the near absolute authority of the landlord class over the countryside the central government hoped to extend its own authority throughout rural Iran While the Pahlavi government accomplished this goal its failure to implement effective structural reform proved to be a long term liability Hooglund who conducted field research in rural Iran throughout the 1970s and who witnessed the unfolding of the revolution from a small village provides a careful description of the development of the land reform and of its effects on the main groups involved landlords peasants local officials merchants and brokers He shows how the continuing poverty in the countryside forced the migration of thousands of peasants to the cities resulting in serious shortages of agricultural workers and an oversupply of unskilled urban labor When the shah s government was faced with mass opposition in the cities in 1978 not only did a disillusioned rural population fail to support the regime but thousands of villagers participated in the protests that hastened the collapse of the monarchy Iran Fred Halliday,2024-07-04 Originally completed mere months before the Iranian Revolution of 1979 Fred Halliday s study of twentieth century Iran was not only incredibly timely but a deeply researched thought provoking work It masterfully surveys the country s uneven capitalist development state building and class structure security and military apparatus dissent and opposition movements and foreign relations Even decades later it remains among the most sophisticated and compelling analyses of this period of Iranian history Halliday persuasively argues against crude interpretations of the Pahlavi regime as an enlightened and modernising monarchy or merely a dependent client state Instead he contends that to make sense of the Pahlavi regime and its vulnerabilities it is crucial to understand the dialectic of dictatorship development and the imperial geopolitics of the global Cold War This new edition also includes six of Halliday s essays on the Islamic Republic demonstrating how his thinking on Iran and the revolution evolved over time **Iran's Military Forces and Warfighting Capabilities** Anthony H. Cordesman,Martin Kleiber,2007-09-30 **Iran** Richard Dargie,2015-01-01 This book explores Iran a country in a state of political economic and social transformation It examines the benefits of change as well as the challenges to traditional ways of life in an age of increasing globalization **Iran's Military Forces in Transition** Anthony H. Cordesman,1999-03-30 Iran today is still struggling with the legacy of its own Islamic revolution and is deeply divided between the moderates who enjoy broad public support and the conservatives who

control the levers of power The mixed policies that result are reflected in Iran's ambivalent military posture In recent years Iran has only conducted a limited build up of its armed forces and has cut defense spending and arms imports On the other hand Iran has developed a carefully focused program that threatens shipping in the lower Gulf and the world's oil exports It has strengthened its capability for unconventional warfare and continues to be a significant proliferator setting up indigenous military industries and developing a greater ability to import weapons In this authoritative analysis of interest to Middle Eastern specialists and military affairs experts alike Anthony Cordesman concludes that the continuation of Iran's current defensive security posture depends as much on these economic factors as on the outcomes of domestic political rivalries Iran may eventually limit any military expansion to a necessary defensive strength and set strategic goals for itself that are compatible with the legitimate interests of other nations or it may choose a more aggressive course Regardless of the ultimate outcome argues Cordesman it does no good to either demonize or excuse Iranian policies Instead the United States and other nations with interests in the Middle East and Central Asia need to deal realistically with Iran as a reemerging regional power

The Archaeology of Iran from the Palaeolithic to the Achaemenid Empire Roger Matthews, Hassan Fazeli Nashli, 2022-06-30 The Archaeology of Iran from the Palaeolithic to the Achaemenid Empire is the first modern academic study to provide a synthetic diachronic analysis of the archaeology and early history of all of Iran from the Palaeolithic period to the end of the Achaemenid Empire at 330 BC Drawing on the authors deep experience and engagement in the world of Iranian archaeology and in particular on Iran based academic networks and collaborations this book situates the archaeological evidence from Iran within a framework of issues and debates of relevance today Such topics include human environment interactions climate change and societal fragility the challenges of urban living individual and social identity gender roles and status the development of technology and craft specialisation and the significance of early bureaucratic practices such as counting writing and sealing within the context of evolving societal formations Richly adorned with more than 500 illustrations many of them in colour and accompanied by a bibliography with more than 3000 entries this book will be appreciated as a major research resource for anyone concerned to learn more about the role of ancient Iran in shaping the modern world

From Resilience to Revolution Sean L. Yom, 2015-12-01 Based on comparative historical analyses of Iran Jordan and Kuwait Sean L Yom examines the foreign interventions coalitional choices and state outcomes that made the political regimes of the modern Middle East A key text for foreign policy scholars From Resilience to Revolution shows how outside interference can corrupt the most basic choices of governance who to reward who to punish who to compensate and who to manipulate As colonial rule dissolved in the 1930s and 1950s Middle Eastern autocrats constructed new political states to solidify their reigns with varying results Why did equally ambitious authoritarians meet such unequal fates Yom ties the durability of Middle Eastern regimes to their geopolitical origins At the dawn of the postcolonial era many autocratic states had little support from their people and struggled to overcome widespread opposition

When foreign powers intervened to bolster these regimes they unwittingly sabotaged the prospects for long term stability by discouraging leaders from reaching out to their people and bargaining for mass support early coalitional decisions that created repressive institutions and planted the seeds for future unrest Only when they were secluded from larger geopolitical machinations did Middle Eastern regimes come to grips with their weaknesses and build broader coalitions **The Iran**
