Revolutionary Ideology and Islamic Militancy Najibullah Lafraie, 2009-02-28 The war on terror tends to circumscribe crucial developments in the Islamic world within a narrow definition of Islamic terrorism This partial and incomplete perspective fails to comprehend the links between today s scenario and the Iranian revolution of 1979 a revolution fought in the name of God and spearheaded by religious scholars It is vital to examine the relationship between religious and revolutionary ideologies and the revolutionary potentials of Islamic teachings In a penetrating new study Najibulla Lafraie examines how revolutionary ideologies function and applies these insights to the Quran and its interpreters in the vanguard of the Iranian revolution By unpacking these discourses Lafraie develops and refines the concept of a Quranic revolutionary ideology The Ideology of the Islamic Revolution delineates the different ways in which the Quran was used to mobilise action in 1979 and in so doing provides a context for understanding today s Islamist movements **Patrolling the Revolution**

In *The Iranian Revolution Then and Now* Dariush Zahedi assesses the Islamic Republic's potential for revolution through an in depth theoretically informed comparative analysis of the present with 1979 pre Revolutionary Iran Zahedi discusses how the potential for a revolutionary coup is based on two things the inherent defects and vulnerabilities in the regime and the coordinated actions of the social groups and individuals opposed to the regime He also identifies two ideal typical forms of revolutionary change the regime collapses on its own or the regime is overthrown He concludes that the chances for overthrowing the present regime are moderate

On the Arab Revolts and the Iranian Revolution Arshin Adib-Moghaddam, 2013-10-10 *On the Arab Revolts and the Iranian Revolution* Power and Resistance Today is the first comparative analysis of two central political events that have altered our world forever the Arab uprisings which started in Tunisia and the Iranian revolution in 1979 Adib Moghaddam demonstrates how contemporary forms of protest are changing our understanding about the way power and resistance function In a theoretical tour de force which is substantiated with a range of primary material he argues that acts of protest in Tehran to Cairo can be entirely linked to the same act in New York London Madrid and Athens Breaking through the east west north south divide Adib Moghaddam shows how the Arab revolts promise to shift the discourse away from the idea that Arabs and Muslims are peculiar that Middle Eastern Studies cannot be linked to political theory that the dynamics of rebellion there are fundamentally different from the politics of revolt here Adib

Moghaddam argues that the dialectics of power and resistance are truly universal and that they are unfolding within a globalised political context that is increasingly interconnected In order to illuminate this argument theoretically the study is organised around conceptual terms that feed into forms of power and resistance such as revolution radicalism dissent knowledge neighbour and reform These terms and concepts are discussed and deconstructed via an empirical discussion of pivotal events beyond the non western world demonstrating that for a long time and without realising it we have been living in the end times of unitary categories such as west and east

Defying the Iranian Revolution Manouchehr

Ganji,2002-09-30 The realities of Iranian life are far more harrowing than most people imagine from the outside Ganji paints a portrait of duplicitous clerics arbitrarily arresting torturing mutilating and executing citizens all in the name of Islamic Justice A system of apartheid has been instituted against women While 60% of the population lives below the poverty line the mullah regime has hoarded billions of dollars in accounts and properties in Europe Canada and Japan Roughly 70% of the population is under 30 years of age and opposes the regime In the year of 2001 alone 220 000 people mostly educated youth left the country in search of better lives Ganji stresses that the best defense against terrorism is offense and that the United States can and must establish a proactive policy of helping Iranians struggling for the freedom of Iran in and out of the country Western policies toward the Iranian mullah regime have thus far been reactionary rather than proactive The regime in Iran has been an incubator of international terrorism aiding and abetting international terrorist groups in and out of the Middle East The author argues that now is the time for the United States to substitute rhetoric with action in policies toward the ruling clerics in Iran

Iran Since the Revolution Sepehr Zahir,2011-02-25

Since the turn of the century Iran has experienced three major political upheavals in the struggle to democratize her political systems The last revolution inaugurated an era of unprecedented turmoil and instead of fulfilling its democratic aim paved the way for an even more despotic theocracy To put the revolution in a proper perspective some attempt is made to explain the reasons for Khomeini e tm s success in acquiring first the symbolic leadership of the anti Shah revolution and then the monopolistic control of power in Iran How and why the other claimants to power were shunted aside and later brutally repressed is a further theme for discussion The domestic and external ramifications of the revolution are examined in detail in particular the rise of the anti American feeling which culminated in the hostage crisis In conclusion an analysis is offered of the instrumentalities of power available to the Islamic Republic and several scenarios are explored in which Iran e tm s competing forces may converge to determine whether this third revolution will finally succeed in subordinating political authority to popular democratic consent
