Surging Out of Iraq? Steven J. Costel, 2008 Due to political realities America seems about to take steps to leave Iraq within 1 or 2 years in

large numbers and an outward surge. Yet because of the geopolitical significance of the region, vast oil reserves and the rampant terrorist activities, wholesale retreat will not be easy and perhaps not even desirable. This book brings together important analyses dealing with the current status in Iraq as well as projecting a post-war Iraq. **Reconstructing Post-Saddam Iraq** Sultan Barakat, 2007-08-16. Previously published as a special issue of *Third World Quarterly*, this volume seeks to analyze to what extent the controversial US policy of democratizing the Middle East with pre-emptive invasions was justified or effective. Post 9/11, the US developed a policy of War on Terror, taking the decision to democratize the Middle East with pre-emptive invasions in both Afghanistan and Iraq. As Barakat puts it, Iraq was deliberately deconstructed in order to be reconstructed in a new model. Looking not only at the evidence of democracy post-invasion, the author also considers the global, regional, and internal politics leading up to the decision to invade. The effect is an insightful and vital volume that fulfills an urgent need and seeks to answer the questions most troubling the international community since the invasion of Iraq. Were the invasion of Iraq and Afghanistan an exploitation of military supremacy to secure a favourable balance of power for the US? Is it possible to build a stable democracy after a pre-emptive invasion? What is the current outlook for a stable democracy in Iraq? *Reconstructing Post-Saddam Iraq* is vital reading for all those interested in international politics and the future in Iraq. *Iraq* Christopher M. Blanchard, 2010-11. Provides information about the current perspectives and policies of Iraq's neighbors, analyzes potential regional responses to renewed violence and longer-term stabilization efforts, discusses shared concerns and US long-term regional interests, and reviews US policy options for responding to various contingencies. Contents: 1. Common Questions, Unique Concerns: The Regional Strategic Balance and Political Stability, Sectarian and Ethnic Politics, and Violence Transnational and Nationalist Terrorism, Refugees and Internally Displaced Persons; 2. Iraq's Future; 3. Iraq's Neighbors: Iran, Turkey, Saudi Arabia, Syria, Jordan, Kuwait, and the Gulf Cooperation Council States; 4. Issues for Congress. Charts and tables. *Who Are Iraq's New Leaders? What Do They Want?* Phebe Marr, 2009-05. A study of Iraq's new political leaders and their visions for the future. This study finds a revolutionary change since the Ba'ath in the forces shaping the new leaders and their political orientation. A nationalist regime committed to a strong central government has been replaced by political pluralism and disparate views with no common vision on Iraq's direction forward. The political process has intensified polarization around ethnic and sectarian identity, which could lead to Iraq's fragmentation. The report suggests several ways to help Iraqis step back from this divide, including refocusing on economic development, particularly the need for new oil legislation, and slowing the political process to give leaders time to absorb change and refine the political system. *Iraq, Troubles and Tension* Phebe Marr, 1997. *Post-Saddam Iraq* Amnon Cohen, Noga Efrati, 2011. Describes and analyses the major developments in Iraq from the US-led invasion until 2010. This title provides an important external international dimension to Iraq's post-war development through discussion of the central role played by the Iranian regime and its deep and multi-faceted involvement in the Iraqi internal scene. **Historical Dictionary of Iraq** Edmund A.
