**Iris Murdoch as I Knew Her** A. N. Wilson, 2003 A tribute to the English writer and philosopher 1919 1999 *Iris Murdoch: As I Knew Her Proof* A. N. Wilson, 2003-11-06 Writing Lives Midge Gillies, 2009-06-25 In addition to exploring the key characteristics of life writing this book examines the relationship between the lives of authors and the influence of these lives both on their own writing and on the reception of their work by contemporary and later readers Sex and desire in British films of the 2000s Nigel Mather, 2021-06-15 This book explores how British filmmakers of the 2000s engaged with the themes of love sex and desire in a wide variety of movies It ranges from powerful contemporary dramas such as *Kidulthood* *Closer* and *Disobedience* to the lighter mood of the *Bridget Jones* series It also analyses how the lives loves and traumas of historical figures such as Oscar Wilde Sylvia Plath and Iris Murdoch were dramatised on film The book will appeal to literature enthusiasts film students and readers interested in exploring how we may currently live out our hopes fears and dreams in relation to sexual matters and affairs of the heart Post-War British Women Novelists and the Canon Nick Turner, 2011-11-03 With the increasing number of books on contemporary fiction there is a need for a work that examines whom we value and why These questions lie at the heart of this book which by focusing on four novelists literary and popular interrogates the canon over the last fifty years The argument unfolds to demonstrate that academic trends increasingly control canonicity as do the demands of genre the increasing commercialisation of literature and the power of the literary prize Turner argues that literary excellence demonstrated by style and imaginative power is often missing in many works that have become modern classics and makes a case for the value of the universal in literature Written in a jargon free style with reference to many supporting writers the book raises a number of significant cultural questions about the arts fashions and literary reputations of interest to readers in contemporary literary studies The Murdochian Mind Silvia Caprioglio Panizza, Mark Hopwood, 2022-06-07 Iris Murdoch was a philosopher and novelist of extraordinary breadth and originality whose work defies simple categorisation Her philosophical writing engages with an astonishingly wide range of figures from Plato and Kant to Sartre and Heidegger and her work increasingly inspires debate in ethics aesthetics religion and literature The *Murdochian Mind* is an outstanding reference source to the full span of Murdoch's philosophical work comprising 37 specially commissioned chapters written by an international team of leading scholars Divided into five clear parts the volume covers the following areas A guide to Murdoch's key philosophical texts including *The Sovereignty of Good* and *Metaphysics as a Guide to Morals* Core themes and concepts in Murdoch's philosophy such as love moral vision and attention Murdoch's engagement with the history of philosophy including Plato Kant Hegel Simone Weil and Wittgenstein Interdisciplinary connections with art literature and religion including Judaism Buddhism and Christianity Murdoch and contemporary philosophical debates including feminism virtue ethics and metaethics The application of Murdoch's thought to applied ethics including animal ethics psychiatric ethics and the environment Although recent years have seen a blossoming of interest in

Murdoch's philosophy *The Murdochian Mind* is the first volume to do justice to the incredibly rich and wide ranging nature of her work. As such it will be of great interest to students of philosophy especially ethics and aesthetics as well as those in related disciplines such as literature, religion and gender studies. **After Ancient Biography** Robert Fraser, 2020-08-25

*Marrying life writing with classical reception* this book examines ancient biography and its impact on subsequent ages. Close readings of ancient texts are framed by an assessment of their influence on the age of the French Revolution and Napoleon and on the nineteenth, twentieth and twenty first centuries of responses to ancient biography of modern critics and of its visible legacy in art and film. Crucially it asks what modern biographers can learn from their ancient predecessors. Are the challenges involved in life writing still the same? Have working methods changed and in what ways? What in the context of biographical writing is truth and how are its interests best served? How is it possible now as then honestly to convey a life?

*Tolkien among the Moderns* Ralph C. Wood, 2015-09-15 It has long been recognized that J. R. R. Tolkien's work is animated by a profound moral and religious vision. It is less clear that Tolkien's vision confronts the leading philosophical and literary concerns addressed by modern writers and thinkers. This book seeks to resolve such uncertainty. It places modern writers and modern quandaries in lively engagement with the broad range of Tolkien's work while giving special attention to the textual particularities of his masterpiece *The Lord of the Rings*. In ways at once provocative and original the contributors deal with major modern artists and philosophers including Miguel de Cervantes, Friedrich Nietzsche, Emmanuel Levinas, Iris Murdoch and James Joyce. The essays in *Tolkien among the Moderns* also point forward to postmodernism by examining its implications for Tolkien's work. Looking backward they show how Tolkien addresses two ancient questions: the problems of fate and freedom in a seemingly random universe as well as Plato's objection that art can neither depict truth nor underwrite morality. The volume is premised on the firm conviction that Tolkien is not a writer who will be soon surpassed and forgotten exactly because he has a permanent dwelling place among the moderns. **Language Development** Annette

Gerstenberg, Anja Voeste, 2015-07-15 *Language Development* The lifespan perspective generates insights into the central issues of age dependent language change focusing especially on the middle and later stages of life. The contributors exploit contemporary and historical longitudinal data adopting psycholinguistic, corpus linguistic and sociolinguistic approaches. Linguistic changes are discussed against the background of cognitive, somatic and social factors. Bringing the resulting contributions together the volume aims to resume the discussion of contradictions between the models of change and constancy over an individual's lifespan that have not been sufficiently resolved to date. The volume is intended to serve as an interdisciplinary reference resource for those conducting research on language development and the aging process and as a supplementary course book on language variability and change. *A Research Guide to Gothic Literature in English* Sherri

**The Mass and Modernity** Jonathan Robinson, 2005-01-01 Many in the Church have accepted modernity in their effort to speak to the modern world and not nearly enough attention has been given to trying to disentangle the complex of ideas and half formulated convictions that constitute this mind set which is in fact contrary to Christianity The first aim of this book is to examine the origins and present day influence of modernity and then to argue that there is nothing in the Christian s concern for the modern world that requires accepting this damaging mind set in connection with the highest form of worship the Mass The second aim of the book is to show that that the sources of a genuine liturgical renewal are to be found in a heightened sense of the centrality of the Mass and a return to a theology compatible with the Catechism of the Catholic Church Fr Robinson s book is a philosopher s gift to the Catholic liturgy He provides a thoroughly lucid account of the climate of ideas which handicaps the celebration of Catholic worship in the modern world This is a diagnosis which shows just how far reaching must be the cure Fr Aidan Nichols Author Looking at the Liturgy
