## **Irish Wonders:**

*Irish Wonders : (Illustrated) Classic Edition with Original Illustrations* D. R. McAnally, 2020-10 The wonderful imaginative power of the Celtic mind is never more strikingly displayed than in the legends and fanciful tales which people of the humbler walks of life seldom tire of telling Go where you will in Ireland the story teller is there and on slight provocation will repeat his narrative amplifying explaining embellishing till from a single fact a connected history is evolved giving motives particulars action and result the whole surrounded by a rosy wealth of rustic imagery and told with dramatic force an actor might envy The following chapters comprise an effort to present this phase of unwritten Celtic literature the material having been collected during a recent lengthy visit in the course of which every county in the island was traversed from end to end and constant association had with the peasant tenantry As however in perusing a drama each reader for himself supplies stage action so in the following pages he is requested to imagine the charms of gesticulation and intonation for no pen can do justice to a story told by Irish lips amid Irish surroundings

*Irish Wonders* David Russell McAnally, 2020-09-28 It was a characteristic Irish ruin Standing on a slight elevation in the midst of a flat country the castle lifted its turreted walls as proudly as when its ramparts were fringed with banners and glittered with helmets and shields In olden times it was the citadel of the town and although Athenry was fortified by a strong wall protecting it alike from predatory assault and organized attack the citadel occupying the highest ground within the city was itself surrounded by stronger walls a fort within a fort making assurance of security doubly sure Only by treachery surprise or regular and long continued siege could the castle have been taken The central portion was a large square structure except in size not differing greatly from the isolated castles found in all parts of Ireland and always in pairs as if when one Irish chieftain built a castle his rival at once erected another a mile or so away for the purpose of holding him in check This central fort was connected by double walls the remains of covered passages with smaller fortresses little castles built into the wall surrounding the citadel and over these connecting walls over the little castles and over the piles of loose stones where once the strong outer walls had stood the ivy grew in luxuriant profusion throwing its dark green curtain on the unsightly masses rounding the sharp

edge of the masonry hiding the rough corners as though ashamed of their roughness and climbing the battlements of the central castle to spread nature's mantle of charity over the remains of a barbarous age and forever conceal from human view the stony reminders of battle and blood The success of the ivy was not complete Here and there the corner of a battlement stood out in sharp relief as though it had pushed back the struggling plant and by main force had risen above the leaves while on one side a round tower lifted itself as if to show that a stone tower could stand for six hundred years without permitting itself to become ivy grown that there could be individuality in towers as among men The great arched gateway too was not entirely subjugated though the climbing tendrils and velvety leaves dressed the pillars and encroached on the arch The keystone bore a rudely carved crowned head and ivy vines coming up underneath the arch to take the old king by surprise climbed the bearded chin crossed the lips and were playing before the nose as if to give it a sportive tweak while the stern brow frowned in anger at the plant's presumption
